FINANCIAL DATA

Unless stated otherwise, the financial data included in this Red Herring Prospectus are extracted from the restated financial statements of our Company, prepared in accordance with the applicable provisions of the Companies Act, Indian GAAP and restated in accordance with SEBI (ICDR) Regulations, as stated in the report of our Peer Reviewed Auditor, set out in the section titled “**Financial Statements as Restated**” beginning on page 246. Our restated financial statements are derived from our audited financial statements prepared in accordance with Indian GAAP and the Companies Act and have been restated in accordance with the SEBI (ICDR) Regulations.

Our fiscal year commences on April 1st of each year and ends on March 31st of the next year. All references to a particular fiscal year are to the 12-month period ending March 31st of that year. In this Red Herring Prospectus, any discrepancies in any table between the total and the sums of the amounts listed are due to rounding off. All decimals have been rounded off to two decimal points. There are significant differences between Indian GAAP, IFRS and US GAAP. Our Company has not attempted to quantify their impact on the financial data included herein and urges you to consult your own advisors regarding such differences and their impact on our Company’s financial data. Accordingly, the extent to which the financial statements included in this Red Herring Prospectus will provide meaningful information is entirely dependent on the reader’s level of familiarity with Indian accounting practices / Indian GAAP. Any reliance by persons not familiar with Indian Accounting Practices on the financial disclosures presented in this Red Herring Prospectus should accordingly be limited.

Any percentage amounts, as set forth in “**Risk Factors**”, “**Our Business**”, “**Management Discussion and Analysis of Financial Condition and Result of Operations**” and elsewhere in this Red Herring Prospectus unless otherwise indicated, have been calculated on the basis of our Company’s restated financial statements prepared in accordance with the applicable provisions of the Companies Act, Ind As and restated in accordance with SEBI (ICDR) Regulations, as stated in the report of our Peer Reviewed Auditor, set out in the section titled “**Financial Statements as Restated**” beginning on page 246.

CURRENCY OF PRESENTATION

In this Red Herring Prospectus, references to “Rupees” or “Rs.” or “INR” are to Indian Rupees, the official currency of the Republic of India. All references to “\$”, “US\$”, “USD”, “U.S. \$” or “U.S. Dollars” are to United States Dollars, the official currency of the United States of America.

All references to ‘million’ / ‘Million’ / ‘Mn’ refer to one million, which is equivalent to ‘ten lacs’ or ‘ten lakhs’, the word ‘Lacs / Lakhs / Lac’ means ‘one hundred thousand’ and ‘Crore’ means ‘ten million’ and ‘billion / bn. / Billions’ means ‘one hundred crores.

INDUSTRY AND MARKET DATA

Unless stated otherwise, industry and market data and various forecasts used throughout this Red Herring Prospectus have been obtained from publicly available information, industry sources and government publications.

Industry sources as well as government publications generally state that the information contained in those publications have been obtained from sources believed to be reliable but their accuracy and completeness and underlying assumptions are not guaranteed and their reliability cannot be assured.

Although industry data used in this Red Herring Prospectus is reliable, it has not been independently verified by the Book Running Lead Manager or our Company or any of their affiliates or advisors. Such data involves risks, uncertainties and numerous assumptions and is subject to change based on various factors, including those discussed in the section titled ***“Risk Factors”*** beginning on page 30. Accordingly, investment decisions should not be based solely on such information.

Further, the extent to which the industry and market data presented in this Red Herring Prospectus is meaningful depends on the reader’s familiarity with and understanding of the methodologies used in compiling such data. There are no standard data gathering methodologies in the industry in which we conduct our business, and methodologies and assumptions may vary widely among different industry sources.

FORWARD LOOKING STATEMENTS

This Red Herring Prospectus contains certain statements which are not statements of historical fact and may be described as “forward-looking statements”. These forward-looking statements include statements which can generally be identified by words or phrases such as “aim”, “anticipate”, “are likely”,

“believe”, “continue”, “can”, “could”, “shall”, “expect”, “estimate”, “intend”, “may”, “likely”, “objective”, “plan”, “propose”, “seek to”, “will”, “will achieve”, “will continue”, “will likely”, “will pursue” or other words or phrases of similar import. , statements that describe the strategies, objectives, plans or goals of our Company are also forward-looking statements.

These forward-looking statements, whether made by us or a third-party, are based on our current plans, estimates, presumptions and expectations and actual results may differ materially from those suggested by such forward-looking statements. All forward-looking statements are subject to risks, uncertainties, and assumptions about us that could cause actual results to differ materially from those contemplated by the relevant forward-looking statement.

This may be due to risks or uncertainties or assumptions associated with the expectations with respect to, but not limited to, regulatory changes pertaining to the industry in which our Company operates and our ability to respond to them, our ability to successfully implement our strategy, our growth and expansion, technological changes, our exposure to market risks, general economic and political conditions in India which have an impact on our business activities or investments, the monetary and fiscal policies of India, inflation, deflation, the performance of the financial markets in India and globally, changes in domestic laws, regulations and taxes, changes in competition in the industry and incidence of any natural calamities and/or acts of violence. Important factors that could cause actual results to differ materially from our Company’s expectations include, but are not limited to, the following:

- A reduction in the demand of our services and/or competing brands gaining wider market acceptance;
- Loss of one or more of our key customers and/or suppliers;
- An increase in the productivity and overall efficiency of our competitors;
- An adverse change in the regulations governing the services of our customers;
- Any adverse development that may affect the operations of our business;
- A downturn in the utility of our services to the industries we cater to;
- Inability to obtain, maintain or renew requisite statutory and regulatory permits and approvals which may adversely affect our business, financial condition, results of operations and prospects;
- General economic and business conditions in the markets in which we operate and in the local, regional and national economies;
- Changes in technology and our ability to manage any disruption or failure of our technology systems;
- Our ability to attract and retain qualified personnel;
- Our ability to successfully execute our expansion strategy in a timely manner or at all;
- Changes in political and social conditions in India or in countries that we may enter, the monetary and interest rate policies of India and other countries, inflation, deflation, unanticipated turbulence in interest rates, equity prices or other rates or prices;
- Our reliance on third party suppliers for our services;
- The performance of the financial markets in India and globally;
- Any adverse outcome in the legal proceedings in which we are involved;
- Occurrences of natural disasters or calamities affecting the areas in which we have operations;
- Market fluctuations and industry dynamics beyond our control;
- Our ability to compete effectively, particularly in new markets;
- Inability to collect our dues and receivables from, or invoice our unbilled services to our customers, our results of operations;

- Other factors beyond our control;
- Our ability to manage risks that arise from these factors;
- Conflict of interest with our Promoters, Promoter Group, Group Company and other related parties; and
- Changes in domestic and foreign laws, regulations and taxes and changes in competition in our industry;

For a further discussion of factors that could cause our actual results to differ from our expectations, see section titled ***“Risk Factors”*** and chapter titled ***“Our Business”***, ***“Objects of the Issue”*** and ***“Management’s Discussion and Analysis of Financial Condition and Results of Operations”*** beginning on pages 30, 171, 116 and 282 respectively. By their nature, certain market risk disclosures are only estimates and could be materially different from what occurs in the future. As a result, actual future gains or losses could materially differ from those that have been estimated and are not a guarantee of future performance.

Although the assumptions on which such forward-looking statements are based are reasonable, we cannot assure investors that the expectations reflected in these forward-looking statements will prove to be correct. Given these uncertainties, investors are cautioned not to place undue reliance on such forward-looking statements and not to regard such statements as a guarantee of future performance.

Forward-looking statements reflect the current views of our Company as on the date of this Red Herring Prospectus and are not a guarantee of future performance. These statements are based on the management’s belief and assumptions, which in turn are based on currently available information. Although the assumptions upon which these forward- looking statements are based are reasonable, any of these assumptions as well as statements based on them could prove to be inaccurate. Neither our Company, our Promoters, our Directors, the BRLM, nor any of their respective affiliates have any obligation to update or otherwise revise any statements reflecting circumstances arising after the date hereof or to reflect the occurrence of underlying events, even if the underlying assumptions do not come to fruition.

In accordance with regulatory requirements, our Company will ensure that investors in India are informed of material developments from the date of registration of this Red Herring Prospectus with the RoC until receipt of final listing and trading approvals by the Stock Exchange for this Issue.

SECTION - II

SUMMARY OF ISSUE DOCUMENT

The following is a general summary of the terms of the issue. This summary should be read in conjunction with, and is qualified in its entirety by, the more detailed information appearing elsewhere in this Red Herring Prospectus, including the sections entitled ***“Risk Factors”***, ***“Our Industry”***, ***“Outstanding Litigation and Material Developments”***, ***“Our Promoters and Promoter Group”***, ***“Financial Statements as Restated”***, ***“Objects of the Issue”***, ***“Our Business”***, ***“Issue Procedure”*** and ***“Main Provisions of Articles of Association”*** beginning on pages 30, 144, 308, 237, 246, 116, 171, 349 and 378 respectively.

OVERVIEW OF BUSINESS

Our company is an infrastructure construction, development and management company with expertise across a wide range of services. We specialize in Engineering, Procurement, and Construction (EPC) services, offering comprehensive solutions in Solar EPC, Electrical EPC, Water EPC and Civil EPC contracts, which include interior and civil works, as well as road furniture, all on a fixed-sum turnkey basis. Additionally, we provide specialized Engineering Consulting Services in Mechanical, Electrical and Plumbing (MEP) systems, alongside Project Management Consulting (PMC) services. Our experience spans a variety of sectors, including hospitals, commercial buildings, malls and hotels.

For details, please refer ***“Our Business”*** beginning on page 171.

OVERVIEW OF INDUSTRY IN WHICH OUR COMPANY OPERATES

Around the world, infrastructure industry is responsible for propelling development overall. Governments worldwide have focused heavily on launching legislation that would guarantee the establishment of top-notch infrastructure within a set period. Between 2020 and 2030, the worldwide construction market is anticipated to expand by USD 14.4 trillion. Sub-Saharan Africa is predicted to experience the biggest regional construction increase, followed by rising Asia. It is anticipated that urbanization will accelerate growth in emerging markets. By 2050, the population could increase by 2.5 billion, about 90% of whom would live in Asia and Africa due to regional population growth.

FINANCING ARRANGEMENTS

There have been no financing arrangements whereby our Promoter, members of our Promoter Group, the directors of our Company which are promoters of our Company, the directors of our Company and their relatives have financed the purchase by any other person of securities of our Company, other than in the normal course of business, of the financing entity during a period of six months immediately preceding the date of this Red Herring Prospectus.

WEIGHTED AVERAGE PRICE AT WHICH EQUITY SHARES WERE ACQUIRED BY EACH OF OUR PROMOTERS AND SELLING SHAREHOLDERS DURING THE LAST ONE YEAR PRECEDING THE DATE OF THIS RED HERRING PROSPECTUS

The weighted average cost of acquisition of equity shares acquired by the Promoters of our Company during the past one year preceding the date of this Red Herring Prospectus are as follows:

S. No.	Name of the Promoters	Number of Equity Shares ⁽¹⁾	Weighted Average Price per Equity Share (in ₹) ⁽¹⁾
1.	Sujata Gangwar	36,00,000	NIL
2.	Devvrath Singh	4,50,000	NIL
3.	Satyavrat Singh	4,50,000	NIL

Note: Pursuant to the CA certificate dated March 15, 2025, issued by Peer Review Auditor of our Company, M/s Rajvanshi & Associates, Chartered Accountants.

(1) The Weighted Average Price for Equity Shares acquired during last one year has been calculated by taking into account the amount paid by the Promoter to acquire, by way of fresh issuance, Bonus Issue or transfer, the Equity Shares and the net cost of acquisition has been divided by total number of shares acquired during last one year.

Note: There is no offer for sale from the existing shareholders of our company in the present issue of the issuer.

AVERAGE COST OF ACQUISITION OF SHARES FOR PROMOTERS AND SELLING SHAREHOLDERS

The average cost of acquisition of equity shares held by our promoters are set forth in the table below:

SECTION – III

RISK FACTORS

*An investment in Equity Shares involves a high degree of risk. You should carefully consider all of the information in this Red Herring Prospectus and the Prospectus, when available, particularly the **“Our Business”, “Our Industry” “Financial Statements as Restated”** and related notes thereon and **“Management Discussions and Analysis of Financial Condition and Results of Operations”** beginning on pages 171, 144, 246 and 282 respectively and the risks and uncertainties described below, before making an investment in the Equity Shares. The risks and uncertainties described in this section are not the only risks that we currently face. Additional risks and uncertainties not presently known to us or that we currently believe to be immaterial may also have an adverse impact on our business, results of operations, cash flows and financial condition. If any or a combination of the following risks, or other risks that are not currently known or are currently deemed immaterial, actually occur, our business, results of operations, cash flows and financial condition may be adversely affected, the price of the Equity Shares could decline, and you may lose all or part of your investment.*

*In making an investment decision, as prospective investors, you must rely on your own examination of us and the terms of the Issue, including the merits and the risks involved. You should consult your tax, financial, legal advisors about the particular consequences of investing in the Issue. Unless specified or quantified in the relevant risk factors below, we are unable to quantify the financial or other impact of any of the risks described in this section. Prospective investors should pay particular attention to the fact that our Company is incorporated under the laws of India and is subject to a legal and regulatory environment, which may differ in certain respects from that of other countries. To obtain a complete understanding of our business, you should read this section in conjunction with the sections titled **“Our Industry”, “Our Business”,** and **“Financial Statements as Restated”** beginning on pages 144, 171 and 246 respectively, as well as the other financial and statistical information contained in this Red Herring Prospectus.*

This Red Herring Prospectus also contains certain forward-looking statements that involve risks, assumptions, estimates and uncertainties. Our actual results could differ materially from those anticipated in these forward-looking statements as a result of various factors, including the considerations described in this section and elsewhere in this Red Herring Prospectus.

The financial and other related implications of risks concerned, wherever quantifiable, have been disclosed in the risk factors below. However, there are risk factors the potential effects of which are not quantifiable and therefore no quantification has been provided with respect to such risk factors. In making an investment decision, prospective investors must rely on their own examination of our Company and the terms of the Issue, including the merits and the risks involved. You should not invest in this Issue unless you are prepared to accept the risk of losing all or part of your investment, and you should consult your tax, financial and legal advisors about the particular consequences to you of an investment in our Equity Shares.

Unless specified or quantified in the relevant risk factors below, we are not in a position to quantify the financial or other implications of any of the risks described in this section. Unless the context otherwise requires, in this section, reference to “we”, “us” “our” refers to our Company.

Unless otherwise stated, the financial information of our Company used in this section is derived from our audited financial statements under Indian GAAP, as restated.

The Risk Factors have been determined on the basis of their materiality. The following factors have been considered for determining the materiality of Risk Factors:

- Some events may not be material individually but may be found material collectively.
- Some events may have material impact qualitatively instead of quantitatively.
- Some events may not be material at present but may be having material impact in future.

The risk factors are classified as under for the sake of better clarity and increased understanding:

INTERNAL RISKS FACTORS

Business Specific/ Company specific Risk

1. ***Our company's revenue is largely driven by the performance of the EPC sector, which presents a range of potential risks. Any downturns or disruptions within this sector could significantly impact our overall business performance and financial stability.***

Our company's revenue is significantly reliant on the Engineering, Procurement, and Construction (EPC) sector, which exposes us to various risks. Economic fluctuations and changes in market conditions, such as reduced infrastructure spending or global economic downturns, could impact the demand for EPC services, potentially leading to lower revenues. Additionally, the highly competitive nature of the EPC market puts pressure on pricing, margins, and the ability to secure new contracts, which could adversely affect our business.

The table below provides a summary of our revenue contribution from the EPC sector for the past three fiscal years:

(Amount in Lakhs)

Fiscal Year	Revenue from EPC Sector	Total Revenue	Percentage Contribution from EPC Sector
2024-25	8,874.07	9,088.42	97.64%
2023-24	7,715.06	7,756.78	99.46%
2022-23	6,023.17	6,096.10	98.80%

Further, large-scale EPC projects come with inherent risks of delays and cost overruns, which could reduce profitability and strain client relationships. Regulatory changes or increased compliance requirements in the EPC sector could lead to higher costs or delays in project execution, affecting our ability to meet timelines and maintain profit margins. Our reliance on a few key clients for large contracts also exposes us to risks if those clients face financial difficulties or decide to terminate contracts.

Moreover, any disruptions in the supply chain could delay project delivery or increase costs, impacting the overall revenue from EPC contracts. Finally, the sector's increasing dependence on advanced technology means that failing to adopt or integrate new innovations could place us at a competitive disadvantage. Given our substantial reliance on the EPC sector, any adverse

developments in this area could have a significant negative effect on our business and financial performance.

While we have not experienced any of the above adverse situations that had an adverse impact on our business operations and financial conditions in the past, we cannot assure you that these adverse situations will not arise in the future.

2. *Delays in the completion of construction of current and future projects could lead to termination of EPC contracts or cost overruns or claims for damages, which could have an adverse effect on our cash flows, business, results of operations and financial condition.*

The list of projects completed by our company since our incorporation and till date, please refer to section titled ***“Our completed Projects”*** under the chapter titled ***“Our Business”*** on page 184. Our projects are required to achieve commercial operation no later than the scheduled commercial operation dates specified under the relevant EPC contracts, or by the end of the extension period, if any is granted by our clients. We provide our clients with performance guarantees for completion of the construction of our projects within a specified time frame. Subject to certain customary exceptions such as (i) occurrence and continuance of force majeure events that are not within our control, or (ii) delays that are caused due to reasons solely attributable to our client, failure to adhere to contractually agreed timelines or extended timelines could require us to pay liquidated damages as stipulated in the EPC contract or lead to encashment and appropriation of the bank guarantee or performance security. Such liquidated damages are often specified as a fixed percentage of the contract price and our clients are entitled to deduct the amount of damages from the payments due to us. The client may also be entitled to terminate the EPC contract in the event of delay in completion of the work if the delay is not on account of any of the agreed exceptions. With respect to some of our projects, in the event of termination for any of the aforesaid reasons, we may only receive partial payments under such agreements and such payments may be less than our estimated cash flows from such projects. Further, we may not be able to obtain extensions for projects on which we face delays or time overruns.

The scheduled completion targets for our projects are estimates and are subject to delays as a result of, among other things, unforeseen engineering problems, force majeure events, issues arising out of right of way, unavailability of financing, unanticipated cost increases or adverse climatic conditions. In the event of a delay in project completion (not due to agreed-upon exceptions), the client may have the right to terminate the work order. If this occurs, we may receive partial payments and/or be liable to pay delay damages as specified in such work order, which could negatively affect our cash flow from that project. Moreover, the client may choose to reissue a fresh tender for the remaining work on a "risk and cost" basis, requiring us to compensate the client for any additional expenses incurred. Should any or all these risks materialize, it could lead to significant cost and time overruns, potentially resulting in losses on these projects and substantially impacting our company's profits and overall financial performance. These project failures may also have a detrimental effect on our corporate reputation.

In addition to the risk of termination by the client, delays in completion of development may result in cost overruns, lower or no returns on capital and reduced revenue for the client thus impacting the project's performance, as well as failure to meet scheduled debt service payment dates and increased interest costs from our financing agreements for the projects. We have faced delays in completion of 18 projects in time in past out of total 87 projects completed by us and may continue to face delays in completion of certain of our projects which are under construction however no penalty or liquidated damages or cancellation of project was done by our client as these things due to matters beyond our control.

3. ***Our Objects to issue – “Investment in Equity of our wholly owned subsidiary, Current Infra Dhanbad Solar Private Limited for setting up 1800 KW solar plant under RESCO Model at Indian Institute of Technology (Indian School of Mines) IIT(ISM), Dhanbad, Jharkhand” (“Proposed Project”) is subject to the risk of unanticipated delays in implementation, cost overruns and certain Government approvals and licenses. If we are unable to implement the expansion plans at the planned cost or time or unable to obtain Government approvals and licenses, it could materially and adversely impact our business, results of operations and financial condition.***

Our Company proposes to utilize an estimated amount of ₹ 585.00 lakhs from the Net Proceeds towards funding the ***“Proposed Project”***. For further details, see ***“Objects of the Issue”*** beginning on page 116.

The ***“Proposed Project”*** may be subject to the potential problems and uncertainties that construction projects face including cost overruns or delays. Problems that could adversely affect our ***“Proposed Project”*** include increased costs of equipment or manpower, non-receipt of Government approvals and licenses, inadequate performance of the equipment and machinery installed in our manufacturing facilities, delays in completion, defects in design or construction, the possibility of unanticipated future regulatory restrictions, labour shortages, delays in receiving governmental, statutory and other regulatory approvals as we apply for them at various stages of the project, incremental pre-operating expenses, unforeseen taxes and duties, interest and finance charges, environment and ecology costs and other external factors which may not be within the control of our management.

There can be no assurance that the proposed additions in our portfolio of products and expansions will be completed as planned or on schedule, and if they are not completed in a timely manner, or at all, our budgeted costs may be insufficient to meet our proposed capital expenditure requirements. If our actual capital expenditures significantly exceed our budgets, or even if our budgets were sufficient to cover these projects, we may not be able to achieve the intended economic benefits of these projects, which in turn may materially and adversely affect our financial condition, results of operations, cash flows, and prospects. There can be no assurance that we will be able to complete the expansion and additions in accordance with the proposed schedule of implementation and any delay could have an adverse impact on our business, results of operations and financial condition.

In addition, our wholly owned Subsidiary, *Current Infra Dhanbad Solar Private Limited*, through which such Proposed Expansion will be conducted has not had operating revenue during the fiscal year ended on March 31, 2025. For further details please refer to ***“Objects of the issue”*** on page 116.

4. ***Our financial performance is dependent on our successful bidding for new projects and the non-cancellation of projects awarded to us. If we are not able to successfully bid for new projects, it will adversely affect our business operations and financial conditions.***

Majority of our projects are undertaken on a non-recurring basis; therefore, it is critical that we can continuously and consistently secure new projects of similar value and volume. There is no assurance that we will be able to do so or get projects where we have prior experience. If we are not able to continually and consistently secure new projects of similar or higher value and on terms and conditions that are favourable to us, this would have an adverse impact on our financial performance. In addition, the scope of work in a project, which is dependent on its scale and complexity, will affect the profit margin of the project and our financial performance. In the event that we have to sub-contract a material portion of the project work to a third-party subcontractor, our profit margins from such projects may be lower as compared to in-house execution of projects. Cancellation or delay in the commencement of secured projects due to factors such as changes in our customers’ businesses, poor market conditions and lack of funds on the part of the project owners may adversely affect us. In addition, there may be a lapse of time between the completion of our projects and the

commencement of our subsequent projects. Any cancellation or delay of projects could lead to idle or excess capacity, and if we are unable to secure replacement projects on a timely basis, this may adversely affect our business operations and financial conditions.

5. We cannot assure that the completion of our projects will be free from any or all defects, which may adversely affect our business, financial condition, results of operations and prospects.

During our operations, we may encounter construction faults on account of factors including design related deficiencies arising in our projects. Such construction related faults typically result in revision / modification to our design and engineering, thereby resulting in increased interest cost due to delay, increase in estimated cost of operations on account of additional work executed towards rehabilitation and further expenditure incurred towards appointment of external consultants for assistance in revising our design. We may further face delays in the estimated project completion schedule in respect of such projects on account of additional works required to be undertaken towards rectifying such construction faults and are dependent upon our clients' permitting extension of time of completion of such projects.

Projects awarded to us under Government bidding, contains mandatory clause for deduction retention money of 5% from running bill payments of our company. In case of projects awarded to us by Private sector, this clause is generally in built in tender document.

A table depicting the retention money outstanding in our books for the financial year ending on 31st March 2025, 2024 and 2023 is under:

<i>(Amount in lakhs)</i>			
Fiscal Year	Retention Money	Profit Before Tax (PBT)	% of the retention money to our PBT
2024-25	704.24	1,275.88	55%
2023-24	698.54	687.00	102%
2022-23	700.44	204.94	342%

Note: Pursuant to the CA certificate dated August 01, 2025, issued by statutory and peer review auditor of our company, M/s Rajvanshi & Associates, chartered accountants

We cannot assure that the construction of our projects will be free from all defects. If the work undertaken by us is not to the satisfaction of the client, it must be done again as per the instructions of person in charge at the site without any extra cost.

Further, there can be no assurance that any cost escalation or additional liabilities would be fully offset by amounts due to us pursuant to the retention money held by our clients or guarantees and indemnities, if any, provided by our contractors or insurance policies that we maintain. Further, we also cannot assure you as to whether our clients will permit such revised completion schedule to be implemented to the extent necessary or at all and we may be held in breach of the terms and conditions of the contracts in respect of such projects pertaining to completion schedule.

In the event of discovery of defects / faults in the work undertaken by us, or any damages to our construction work due to factors beyond our control, or any of the other reasons, we may incur significant contractual liabilities and losses under our projects contracts and such losses may materially and adversely affect our financial performance and results of operations. Further, such construction faults may result in loss of goodwill and reputation and may furthermore have a material and adverse impact our eligibility in respect of future bids made by us towards projects, thereby affecting our future operations and revenues.

6. We are dependent on and derive our 81.82%, 92.52% and 92.93% of revenue from our top 10 key customers for the fiscal year ended on March 31, 2025, 2024 and 2023 respectively. A decrease in

the revenues we derive from them could materially and adversely affect our business, results of operations, cash flows and financial condition.

We depend on a limited number of customers, which exposes us to a high risk of customer concentration. Our top customers may vary from period to period depending on the demand and thus the composition and revenue generated from these customers might change as we continue to add new customers in the normal course of business. Since our business is concentrated among relatively few significant customers, we could experience a reduction in our results of operations, cash flows and liquidity if we lose one or more of these customers or the amount of business we obtain from them is reduced for any reason, including but not limited on account of any dispute or disqualification.

The table below sets out our revenue from our largest customer, top 5 customers and top 10 customers, on the basis of revenue contribution, for the fiscal year ended on March 31, 2025, March 31, 2024 and March 31, 2023:

(Amount in Lakhs)

Particulars	For the fiscal year ended on March 31					
	2025		2024		2023	
	Amount	% of Revenue	Amount	% of Revenue	Amount	% of Revenue
Largest Customer	2,421.70	26.65%	3,354.00	43.24%	2,766.90	45.39%
Top 5 Customers	5,667.32	62.36%	6,095.10	78.58%	4,923.09	80.76%
Top 10 Customers	7,436.20	81.82%	7,176.43	92.52%	5,665.61	92.93%

Note: Pursuant to the CA certificate dated August 01, 2025, issued by statutory and peer review auditor of our company, M/s Rajvanshi & Associates, chartered accountants.

Any decline in our quality standards, growing competition and any change in the demand for our products and services by these customers may adversely affect our ability to retain them. We cannot assure that we shall generate the same quantum of business, or any business at all, from these customers, and loss of business from one or more of them may adversely affect our revenues and profitability. However, the composition and revenue generated from these clients might change as we continue to add new clients in normal course of business. We intend to retain our customers by offering solutions to address specific needs in a proactive, cost effective and time efficient manner. This helps us in providing better value to each customer thereby increasing our engagement with our new and existing customer base that presents a substantial opportunity for growth.

- 7. Our business is concentrated in three states of India namely Rajasthan, Kerala and Uttar Pradesh. 81.22%, 67.94% and 54.96% of our total revenue from operations for the fiscal year ended on March 31, 2025, 2024 and 2023 is derived from these three states of India. Any adverse impact in this region may adversely affect our business, results of operations and financial condition.***

While we have a diversified geographical presence, we have been awarded major projects in the state of Rajasthan, Kerala and Uttar Pradesh. Revenue from projects undertaken in the state of Rajasthan, Kerala and Uttar Pradesh for the fiscal year ended on March 31, 2025, 2024 and 2023 is mentioned in the table below:

(Amount in Lakhs)

Particulars	For the fiscal year ended on March 31					
	2025		2024		2023	
	Amount	% of revenue	Amount	% of revenue	Amount	% of revenue
Rajasthan	4,369.34	48.08%	1,091.25	14.07%	1,540.16	25.26%
Kerala	2,254.80	24.81%	3,147.37	40.58%	755.57	12.39%
Uttar Pradesh	757.34	8.33%	1,031.01	13.29%	1,053.78	17.29%
Total	7,381.48	81.22%	5,269.63	67.94%	3,349.51	54.96%
Total Revenue from Operations	9,088.42	100.00%	7,756.78	100.00%	6,096.10	100.00%

Due to the geographic concentration of the sale of our products in Rajasthan, Kerala and Uttar Pradesh, our operations are susceptible to local and regional factors, such as economic and weather conditions, natural disasters, demographic changes, and other unforeseen events and circumstances. Consequently, any significant social, political or economic disruption, or natural calamities or civil disruptions in this region, or changes in policies of the state or local governments or the government of India or adverse developments related to competition in this region, may adversely affect our business, results of operations, financial condition and cash flows. While we have not experienced any of the above adverse situations that had an adverse impact on our business operations and financial conditions in the past, we cannot assure you that these adverse situations will not arise in the future.

- 8. We are dependent upon a limited number of suppliers. Our 40.36%, 40.76% and 36.75% of our total purchases are derived from our top 10 suppliers for the Fiscal Years ended on March 31, 2025, 2024 and 2023. Any failure of our suppliers to deliver products in the necessary quantities or to adhere to delivery schedules, credit terms or specified quality standards and technical specifications may adversely affect our business and our ability to deliver orders on time at the desired level of quality.**

The details of Top Suppliers are as follows:

(Amount in Lakhs)

Particulars	For the fiscal year ended on March 31					
	2025		2024		2023	
	Amount	% of Purchases	Amount	% of Purchases	Amount	% of Purchases
Largest Supplier	684.59	9.54%	644.74	9.89%	307.76	6.55%
Top 5 Suppliers	1,976.04	27.53%	1,829.66	28.06%	1,104.68	23.51%
Top 10 Suppliers	2,896.72	40.36%	2,656.95	40.76%	1,726.65	36.75%

Note: Pursuant to the CA certificate dated August 01, 2025, issued by statutory and peer review auditor of our company, M/s Rajvanshi & Associates, chartered accountants

We may find additional suppliers to supply the raw materials sought by us, however any failure of our suppliers to deliver the raw materials in the necessary quantities or to adhere to delivery schedules, credit terms or specified quality standards and technical specifications may adversely affect our business and our ability to deliver projects on time at the desired level of quality. As a result, we may lose customers which could have a material adverse effect on our business, financial condition, and results of operations.

Further there is no conflict of interest between the suppliers of raw material and third party service providers and our Company, our Promoters and Promoter Group, our Directors, our KMPs, Subsidiary Companies and our Group Company. However, our product supply and pricing may become volatile due to several factors beyond our control, including global demand and supply, general economic and political conditions, transportation and labour unrest, natural disasters, competition, import duties, tariffs and currency exchange rates, and there are inherent uncertainties in estimating such variables, regardless of the methodologies and assumptions that we may use. Therefore, we cannot assure that we will be able to procure adequate supplies of our products in the future, as and when we need them on commercially acceptable terms. Further, there can be no assurance that we will be able to effectively manage relationships with our existing or new suppliers. If we fail to successfully leverage our existing and new relationships with suppliers, our business and financial performance could be adversely affected.

- 9. Our business is subject to seasonal fluctuations that could result in delays or disruptions to our operations during the critical periods of our projects and cause severe damages to our premises and equipment's.**

Our business operations may be significantly impacted by seasonal factors that can hinder our ability

to effectively carry out construction activities, such as the laying of water pipes, and fully utilize our resources. The following factors may limit our operational capacity:

- Heavy or sustained rainfall
- Flood
- Cyclones or
- Other extreme weather conditions

These adverse conditions could result in delays or disruptions to critical phases of our projects, as well as cause severe damage to our premises and equipment.

In particular, the monsoon season may restrict our ability to carry on activities related to our projects and fully utilize our resources and may slow our activities on construction projects, which shifts our revenue and accordingly profit recognition to subsequent quarters. Adverse seasonal developments may also require the evacuation of personnel, suspension or curtailment of operations, resulting in damage to construction sites or delays in the delivery of materials. Such fluctuations may adversely affect our revenues, cash flows, results of operations and financial conditions. We have not experienced any delays with projects in past. Further, no assurance can be given that we will not experience such incidents in future.

10. We have certain significant tax proceedings pending against our Company which can have an adverse effect on our financial condition.

Our company has a total of 18 tax proceedings are currently pending, details of which are provided in section titled “**Outstanding litigation and Material Developments**” beginning on page 308 of the Red Herring Prospectus. Out of these 18 cases, there are a total of 8 significant tax proceedings which involve an amount of more than Rs. 5 Lakhs. All these cases pertain to GST department and the details are given in the table below:

Sr. No.	Period	State	No. of cases	Amount of demand
1.	2018-19	Rajasthan	1	Rs. 20,57,908.72
2.	2018-19	Uttar Pradesh	1	Rs. 57,34,348.00*
3.	2021-22	Uttar Pradesh	1	Rs. 16,96,946.94
4.	2022-23	Uttar Pradesh	1	Rs. 11,04,925.00
5.	2023-24	Uttar Pradesh	2	Rs. 17,41,259.83**
				Rs. 15,17,841.36
6.	2045-25	Uttar Pradesh	1	Rs. 7,63,946.34
7.	2022-23 to 2024-25 (Till June)	Uttar Pradesh	1	Rs. 63,01,000.00**
Total			8	Rs. 2,09,18,176.19

*In respect to a proceeding involving amount of Rs. 57.34 lakhs, the Company has opted for the Amnesty Scheme provided under Section 128A of the CGST Act for waiver of interest and penalty, however the reply of the department on the same is awaited.

**Two proceedings amounting to Rs. 80.42 lakhs in aggregate are at the inquiry stage which has been duly responded by the Company and the revert of the department is awaited.

Any negative outcome of these significant tax proceedings can adversely affect our financial condition.

11. We are dependent on our contractors for timely completion of projects undertaken by us in our normal course of business. 40.36%, 30.50% and 38.36% of our total cost of goods sold comprises of cost of contractor for the fiscal year ended on March 31, 2025, 2024 and 2023. Our ability to complete our projects in a timely manner and operate, maintain and expand our projects, is subject to performance of our contractors.

We engage third-party contractors and sub-contractors to perform parts of our contract or provide services or manpower.

The table below provides a summary of amount paid to our contractors for execution of our projects for the past three fiscal years.

(Amount in Rs. Lakhs)

Fiscal Year	Amount paid to Contractors		Total	Total Cost of Goods Sold/ Material consumed	% Contract labour to our cost of goods sold
	Installation, Testing & Commissioning Expenses	Engineering, Procurement & construction Expenses			
2024-25	1,534.97	1,230.70	2,765.67	6,853.30	40.36%
2023-24	1,466.85	437.33	1,904.18	6,243.25	30.50%
2022-23	843.50	1,115.66	1,959.16	5,107.16	38.36%

Note: Pursuant to the CA certificate dated August 01, 2025 issued by statutory and peer review auditor of our company, M/s Rajvanshi & Associates, chartered accountants.

Although our contractors are qualified, we do not have control over their day-to-day performance. We cannot ensure that there will be no delay in performance of duties by our contractors, which may cause a delay in completion of our projects. We may also be exposed to risks relating to the ability of the contractors to obtain requisite approvals for the operation and maintenance activities as well as the quality of their services, equipment and supplies. Further, while we may sub-contract our construction work and may be indemnified by the subcontractor for any loss or damage due to their default, we may still be liable for accidents on the projects due to defects in design and quality of construction of our projects during their construction and operation. In addition, we can make no assurance that such contractors or their sub-contractors will continue to hold or renew valid registrations under the relevant labour laws in India or be able to obtain the requisite approvals for undertaking such construction and operation.

If our contractors are unable to perform in accordance with their commitments on time or meet the quality standards required, our ability to complete projects on time or at all could be impaired. Further, if a sub-contractor becomes insolvent, we may be unable to recover damages or compensation for defective work and we may incur additional expenditure because of correcting any defective work. This may have an adverse effect on our reputation, cash flows, business, results of operations and financial condition.

12. We may not be able to realise the amounts, partly or at all, reflected in our Order Book which may materially and adversely affect our business, prospects, reputation, profitability, financial condition and results of operation.

As of **July 31, 2025**, our Company's Order Book was ₹ **28,050.64** Lakhs. Future earnings related to the performance of projects in the order book may not be realized and although the projects in the order book represent business that is considered firm, cancellations or scope or schedule adjustments may occur. We may also encounter problems executing the project as ordered or executing it on a timely basis. Moreover, factors beyond our control or the control of our clients may postpone a project or cause its cancellation, including delays or failure to obtain necessary permits, authorizations, permissions, right-of-way, and other types of difficulties or obstructions. Due to the possibility of cancellations or changes in scope and schedule of projects, resulting from our clients' discretion or problems we encounter in project execution or reasons outside our control or the control of our clients, we cannot predict with certainty when, if or to what extent a project forming part of our order book will be performed.

Delays in the completion of a project can lead to clients delaying or refusing to pay the amount, in part or full, that we expect to be paid in respect of such a project. Even relatively short delays or surmountable difficulties in the execution of a project could result in our failure to receive, on a timely basis or at all, all payments due to us on a project.

Any delay, reduction in scope, cancellation, execution difficulty, payment postponement or payment

default regarding our order book projects or any other incomplete projects, or disputes with clients in respect of any of the foregoing, could adversely affect our cash flow position, revenues and earnings.

13. We are required to furnish performance bank guarantees as part of our business for bidding in government tenders. Our inability to arrange such guarantees or the invocation of such guarantees may adversely affect our cash flows and financial condition.

We have been sanctioned ₹ 1800.00 lakhs non-fund-based limits from scheduled commercial banks for furnishing of performance bank guarantees as part of our business for bidding in tenders. For further details of the same, please refer to chapter titled “**Financial Indebtedness**” beginning on page 303.

We are required to furnish performance bank guarantees as part of our business operations, particularly for bidding in government tenders. Our inability to arrange or renew such guarantees, or the invocation of these guarantees, may result in significant financial strain. This could adversely impact our cash flows, liquidity and overall financial condition. Furthermore, the invocation of performance bank guarantees could lead to reputational damage, potential penalties, or other legal consequences, all of which may negatively affect our business operations and growth prospects. We may be unable to fulfil any or all of our obligations under the contracts entered into by us in relation to our ongoing projects due to unforeseen circumstances which may result in a default under our contracts resulting in invocation of the bank guarantees issued by us. While we have not experienced any of the adverse situations wherein our performance bank guarantees have been revoked which has led to an adverse impact on our business operations and financial conditions in the past, we cannot assure you that these adverse situations will not arise in the future. If any or all the bank guarantees are invoked, it may result in a material adverse effect on our business and financial condition.

14. Our business is manpower intensive and any unavailability of our employees or shortage of contract labour or any strikes, work stoppages, increased wage demands by workmen or changes in regulations governing contractual labour may have an adverse impact on our cash flows and results of operations.

Our business is manpower intensive, and we are dependent on the availability of our permanent employees and the supply of a sufficient pool of contract labourers at our project locations. Unavailability or shortage of such a pool of workmen or any strikes, work stoppages, increased wage demands by workmen or changes in regulations governing contractual labour may have an adverse impact on our cash flows and results of operations.

The number of contract labourers employed by us varies from time to time based on the nature and extent of work contracted to us and the availability of contract labour. We may not be able to secure the required number of contractual labourers required for the timely execution of our projects for a variety of reasons including, but not limited to, possibility of disputes with sub-contractors, strikes, less competitive rates to our sub-contractors as compared to our competitors or changes in labour regulations that may limit availability of contractual labour. We are subject to laws and regulations relating to employee welfare and benefits such as minimum wage, working conditions, employee insurance, and other such employee benefits and any changes to existing labour legislations, including upward revision of wages required by such state governments to be paid to such contract labourers, limitations on the number of hours of work or provision of improved facilities, such as food or safety equipment, may adversely affect our business and results of our operations.

Although there have been no instances in past of employee unavailability, labour shortages, strikes, work stoppages or increased wage demands however there can be no assurance that disruptions in

our business will not be experienced if there are strikes, work stoppages, disputes or other problems with sub-contractors or contract labourers deployed at our projects. This may adversely affect our business and cash flows and results of operations.

In respect of labour cost and overhead cost components, based on our internal estimates and belief, we include appropriate escalation provisions in the cost estimates at the time of bidding for a project. However, we may enter EPC contracts in the future which may not contain price escalation clauses covering increase in the cost of labour. Any such increase in labour cost may have an adverse impact on our revenue from operations and profitability.

15. Our Registered and Corporate Office and our farmhouse property are taken on lease from our promoters. Disruption of our rights as lessee or termination of the agreements with our lessor (our Promoters) may adversely impact on our operations and, consequently, our business, financial condition and results of operations.

Our Registered and Corporate Office and our farmhouse property are located on premises which is not owned by us and has been obtained on lease basis from our promoters. For details on properties taken on lease / rent by us please refer to the heading titled **“Our Business - Properties”** on page 197.

The agreements are renewable on mutually agreed terms. The rent agreements have a clause for the renewal of the same for a further period as may be mutually agreed among the parties after the expiry of the current period. While the related party lease or rent payments done by our Company are on Arm’s Length Price and our Company is in compliance with the provisions of Companies Act, 2013. There is no conflict of interest between the lessor of the properties and our Company, Promoter Group, Directors, KMPs and Group Company. We may continue to pay the lease or rent amounts to our related parties in future also but there can be no assurance that such transactions, individually or in the aggregate, will not have an adverse effect on our financial condition and results of operations or that we could not have achieved more favorable terms if such transactions had not been entered into with related parties. Additionally, any future increments in our lease or rent payments to our related parties could potentially involve conflicts of interest.

For the details of related party transactions please see **“Financial Statements as Restated – Annexure 32: Related Party Transaction”** on page 275.

16. We have certain contingent liabilities that have not been provided for in our financial statements, which if they materialise, may adversely affect our financial condition, cash flows and results of operations.

As of March 31, 2025, we had ₹ 2,797.54 Lakhs of contingent liabilities that had not been provided for. A summary table of our contingent liabilities as of March 31, 2025, as disclosed in the chapter titled **“Financial Statements as Restated”** is set forth below:

(Amount in Lakhs)

S. No.	Particulars	As on March 31, 2025
(i)	Contingent Liabilities	
1.	Bank Guarantees	697.54
2.	Corporate Guarantee	2,100.00
3.	Indirect Tax Matters	-
	Total	2,797.54

For details, see **“Financial Statements as Restated – Annexure 36 - Contingent Liability and commitments”** and **“Management’s Discussion and Analysis of Financial Condition and Results of Operations”** on pages 279 and 282 respectively. Any or all of these contingent liabilities may become actual liabilities. In the event that any of our contingent liabilities become actual liabilities, our

business, financial condition and results of operations may be adversely affected. Furthermore, there can be no assurance that we will not incur similar or increased levels of contingent liabilities in the current Financial Year or in the future.

17. Elevated employee attrition rates and their potential impact on operational continuity and project execution.

Our Company has experienced a significant increase in employee attrition rates over the past three financial years. The table below provides a summary of our attrition rate of our company for the past three fiscal years.

Fiscal Year	Average Employee of our company during the year	Employee left with the company	Attrition rate
2024-25	52	30	57.69%
2023-24	68	60	88.24%
2022-23	102	78	76.47%

Note: Pursuant to the CA certificate dated August 01, 2025, issued by statutory and peer review auditor of our company, M/s Rajvanshi & Associates, chartered accountants.

These rates substantially exceed industry averages, which typically consider an annual attrition rate above 20% as high.

High attrition rates can lead to several adverse effects, including increased recruitment and training costs, loss of institutional knowledge, and potential disruptions in project continuity and client relationships. In the Engineering, Procurement, and Construction (EPC) sector, such turnover can particularly impact project timelines and quality, given the specialized expertise required.

Our Company acknowledges that its success is heavily dependent on the expertise and continuity of its workforce. Challenges in attracting and retaining qualified professionals may adversely affect business operations, financial performance, and the ability to meet strategic objectives.

While our Company is implementing measures to enhance employee engagement and retention, there can be no assurance that these efforts will result in a sustainable reduction in attrition rates. Continued high turnover may materially and adversely affect our business, results of operations, and financial condition.

18. Our Company requires significant amounts of working capital for continued growth. Our inability to meet our working capital requirements may have an adverse effect on the results of operations. Further, failure to manage our inventory could have an adverse effect on our sales, profitability, cash flow and liquidity.

Our business is working capital intensive and requires a significant amount of working capital for smooth functioning. Summary of our working capital position is based on Standalone Restated Financial Statements owing to the restatements / adjustments in the restated consolidated financial statements having impact on the audited standalone financial statements for the financial year 2024-25, 2023-24 and 2022-23 are as stated below:

	Retained Earnings	764.87	389.99	347.33
	Grand Total	3,375.53	2,119.68	1,330.62

Note: Pursuant to the CA certificate dated August 01, 2025 issued by statutory and peer review auditor of our company, M/s Rajvanshi & Associates, chartered accountants

A significant portion of our working capital is utilized towards trade receivables. As on March 31, 2025, March 31, 2024, and March 31, 2023, our trade receivables form 53.36%, 50.06% and 50.85% respectively, of our total current assets based on restated financial statements

We intend to increase our project completion capacity to expand our business operations. This may result in an increase in the quantum of current assets, particularly trade receivables and inventories. The results of operations of our business are dependent on our ability to effectively manage our inventory and stocks. To effectively manage our inventory, we must be able to accurately estimate customer demand and supply requirements and trade inventory accordingly. We estimate our sales based on the forecast, demand and requirements and also on the customer specifications.

Natural disasters such as earthquakes, extreme climatic or weather conditions such as floods or droughts may adversely impact the supply of raw material and local transportation. Should our supply of raw materials be disrupted, we may not be able to procure an alternate source of supply in time to meet the demands of our customers. Such a disruption of supply would materially and adversely affect our business, profitability and reputation. In addition, disruptions to the delivery of product to our customer may occur for reasons such as poor handling, transportation bottlenecks or labour strikes, which could lead to delayed or lost deliveries or damaged products and disrupt supply of these products. An optimal level of inventory is important to our business as it allows us to respond to customer demand effectively.

We intend to continue growing by expanding our business operations. This may result in an increase in the quantum of current assets, particularly trade receivables. Our inability to maintain sufficient cash flow, credit facility and other sources of funds, in a timely manner, or at all, to meet the requirement of working capital could adversely affect our financial condition and the result of our operations. For further details regarding working capital requirement, please refer to the chapters titled “**Objects of the Issue**” and “**Management Discussion and Analysis of Financial Condition and Results of Operation**” beginning on pages 116 and 282 respectively.

19. Our Company has a negative cash flow from our operating, investing and financing activities in the past three years, details of which are given below, sustained negative cash flow could impact our growth and business.

Our Company has a negative cash flow from our operating and investing activities in the previous year(s) as per the Restated Financial Statements and the same has been summarized below:

(Amount in Lakhs)

Particulars	For The Year Ended March 31,		
	2025	2024	2023
Cash Flow from/ (Used in) Operating Activities	(110.37)	(43.43)	(26.40)
Cash Flow from/ (Used in) Investing Activities	(1,827.21)	(252.68)	(153.21)
Cash Flow from/ (Used in) Financing Activities	1,938.97	300.57	171.67

Cash Flow of a Company is a key indicator to show the extent of cash generated from operations to meet capital expenditure, pay dividends, repay loans and make new investments without raising finance from external resources. However, if we are not able to generate sufficient cash flow in future, it may adversely affect our business and financial operations.

20. Our inability to collect receivables from our customers or default in payment by them could result in the reduction of our profits and affect our cash flows.

Our operations involve extending credit for extended periods of time to our customers in respect of our products and consequently, we face the risk of non-receipt of these outstanding amounts in a timely manner or at all. We have implemented a credit policy to manage these risks, with our standard credit period being approximately 78 days. However, even with this policy in place, we cannot guarantee that our customers will not default on their payments. We typically operate on pre-sanctioned credit limits with customers, monitoring their ability to pay and limiting the credit we extend, based on an evaluation of each customer's financial condition and payment history. Despite these precautions, we may still experience losses due to customers being unable to pay. Our inability to collect receivables from our customers in a timely manner or at all could adversely affect our working capital cycle and cash flows. In the Fiscal Years ending on March 31, 2025, 2024, and 2023, our trade receivables were ₹ 2,837.25 Lakhs, ₹ 1649.27 Lakhs and ₹ 1441.92 Lakhs respectively, which represented 31.22%, 21.26% and 23.65% of our Revenues from Operations for such periods, respectively. Macroeconomic conditions could result in financial difficulties for our customers, including insolvency or bankruptcy, potentially leading to delayed payments, requests for payment modifications, or defaults. These situations could increase our receivables or affect our working capital requirements. An increase in bad debts or defaults may compel us to utilize greater amounts of our operating working capital and result in increased financing costs, thereby adversely affecting our results of operations and cash flows.

Our ageing analysis is as mentioned in the following table:

(Amount in Lakhs)

Particulars	2024-25	2023-24	2022-23
Billed Revenue			
Less than 6 months	2,402.02	1330.28	1274.76
6 months- 1 year	242.00	67.29	0.25
1-2 years	62.49	73.23	7.77
2-3 years	17.62	4.18	0.07
More than 3 years	6.57	9.86	13.14
Total (A)	2,730.70	1,484.84	1,295.99
Disputed-Considered Goods	72.97	109.45	145.93
Unbilled Revenue			
Unbilled Revenue	33.58	54.98	-
Total (B)	33.58	54.98	-
Total Trade Receivables (A+B)	2,837.25	1649.27	1441.92

Such aged receivables may indicate that customers are experiencing financial difficulties, or that disputes over product quality, delivery terms, or contract fulfillment have not been resolved. The longer these debts remain unpaid, the less likely they are to be collected in full, potentially leading to a deterioration in cash flow and liquidity. Additionally, these overdue accounts can increase the

risk of customer insolvency, which may result in complete non-recovery of the outstanding amounts. To mitigate these risks, it is essential for our company to evaluate and review its credit policies, engage in proactive collection strategies, and consider writing off or providing for long-outstanding debts to ensure financial stability.

21. Our projects are exposed to various implementation risk and other uncertainties which may adversely affect our business, results of operations and financial condition.

Our operations are subject to hazards inherent in providing erection, civil and maintenance services, such as risk of equipment failure, work accidents, fire or explosion, including hazards that may cause injury and loss of life, severe damage to and destruction of property and equipment, and environmental damage. A significant number of our projects are under construction or under development. For details of projects undergoing, please see our “**Order book**” in chapter “**Our Business**” beginning on page 177. The construction or development of these projects involves various implementation risks including construction delays, delay or disruption in supply of raw materials, delays in acquisition of land, unanticipated cost increases, force majeure events, cost overruns or disputes with our joint venture partners. We may be further subject to risks such as:

- a. We may encounter unforeseen engineering problems, disputes with workers, force majeure events and unanticipated costs due to defective plans and specifications.
- b. We may not be able to obtain adequate capital or other financing at affordable costs or obtain any financing at all to complete construction of any of our projects.
- c. We may not be able to provide the required guarantees under project agreements or enter financing arrangements.
- d. the projects that we are engaged in may not receive timely regulatory approvals and/or permits for development and operation of our projects, such as environmental clearances, mining, forestry or other approvals from the central or State environmental protection agencies, mining, forestry, railway or other regulatory authorities and may experience delays in land acquisition by the government and procuring right of way and other unanticipated delays;
- e. We may experience shortages of, and price increases in, materials and skilled and unskilled labour, and inflation in key supply markets.
- f. The relevant authorities may not be able to fulfil their obligation prior to construction of a project, in accordance with the relevant contracts resulting in unanticipated delays.
- g. We may experience adverse changes in market demand or prices for the services that our projects are expected to provide, and other unanticipated circumstances or cost increases.

If any or all these risks materialise, we may suffer significant cost overruns or even losses in these projects due to unanticipated increase in costs as a result of which our business, profits and results of operations will be materially and adversely affected.

22. We operate in an extremely competitive industry and failure to successfully compete could result in loss of one or more of our significant customers and may adversely affect our business.

The infrastructure sector is competitive and highly fragmented. We compete against various engineering, construction and infrastructure companies. Thus, we operate in a very competitive environment. Our competition varies depending on the size, nature and complexity of the project and on the geographical region in which the project is to be executed. For further information

concerning our competitors in specific industry and project segments, please see ***“Our Industry”*** beginning on page 144. We may be unable to compete with larger infrastructure companies for high-value contracts, as many of them may have greater financial resources, economies of scale and operating efficiencies. If we are unable to bid for and win projects, whether large or small, or compete with larger competitors, we may be unable to sustain or increase, our volume of order intake and our results of operations may be materially adversely affected.

While many factors affect our ability to win the projects that we bid for, pricing is a key deciding factor in most of the tender awards. While we have, in the past, been awarded several contracts in this segment, we cannot assure you that we will continue to be awarded such contracts. Further, if our competitors follow a policy of severely under-bidding in the projects that we bid for, our revenues may be adversely affected. These competitive factors may result in reduced revenues, reduced margins and loss of market share. Failure to compete successfully against current or future competitors could harm our business, operating cash flows and financial condition.

23. Our actual cost in executing a work order or in constructing a project may vary substantially from the assumptions underlying our bid. We may be unable to recover all or some of the additional expenses, which may have a material adverse effect on our results of operations, cash flows and financial condition.

Under the terms of work order with our clients for projects, we generally agree to pay to, or receive from the client awarding the concession an agreed sum of money, subject to contract variations covering changes in the client’s project requirements. Our actual expense in executing a project under construction may vary substantially from the assumptions underlying our bid for various reasons, including, unanticipated increases in the cost of construction materials, fuel, labour or other inputs, unforeseen construction conditions, including the inability of the client to obtain requisite environmental and other approvals resulting in delays and increased costs, delays caused by local weather conditions and `suppliers’ failures to perform.

Our ability to pass on increases in the purchase price or manufacturing cost of raw materials and other inputs may be limited in the case of contracts with limited or no price escalation provisions, and we cannot assure you that these variations in cost will not lead to financial losses for us. Further, other risks generally inherent to the development and construction industry may result in our profits from a project being less than as originally estimated or may result in us experiencing losses due to cost and time overruns, which could have a material adverse effect on our cash flow, business, financial condition and results of operations.

Our business is substantially dependent on our ability to accurately carry out the pre-bidding engineering studies for bidding on such projects. Any deviation during the implementation and operation of the project as compared to our pre-bid engineering studies could have a material adverse effect on our cash flow, results of operations and financial condition.

24. Within the parameters as mentioned in the chapter titled ‘Objects of the Issue’ beginning on page 116, our Company’s management will have flexibility in applying the proceeds of this Issue. The fund requirement and deployment mentioned in the Objects of this Issue have not been appraised by any bank or financial institution.

We intend to use Issue Proceeds towards Investment in Equity of our wholly owned subsidiary, Current Infra Dhanbad Solar Private Limited for setting up 1800 KW solar plant under RESCO Model at Indian Institute of Technology (Indian School of Mines) IIT(ISM), Dhanbad, Jharkhand, funding working capital requirements and general corporate purposes. We intend to deploy the Net Issue Proceeds in FY 2025-26 and FY 2026-27. Such deployment is based on certain assumptions and strategy which our Company believes to implement in near future. The funds raised from the Issue

may remain idle on account of change in assumptions, market conditions, strategy of our Company, etc., For further details on the use of the Issue Proceeds, please refer chapter titled “**Objects of the Issue**” beginning on page 116.

The deployment of funds for the purposes described above is at the discretion of our Company’s Board of Directors. The fund requirement and deployment are based on internal management estimates and has not been appraised by any bank or financial institution. Accordingly, within the parameters as mentioned in the chapter titled “**Objects of the Issue**” beginning on page 116, the Management of our Company will have significant flexibility in applying the proceeds received by our Company from the Issue and our company shall furnish a certificate of the statutory auditor pursuant to regulation 262 (5) of the SEBI ICDR Regulations, 2018 (as amended) for utilization of money raised through the public issue to SME exchange while filing the quarterly financial results, till the issue proceeds are fully utilized.

Our one of the objects of the issue to raise fund to meet our incremental working capital requirements in excess of ₹ 5,000 Lakhs, therefore pursuant to regulation 262 (6) of the SEBI ICDR Regulations (as amended) our Company shall furnish to the Stock Exchange a certificate of statutory auditor for use of funds as working capital in the same format as disclosed in this RHP till the proceeds raised for the such objects are fully utilized while filing the quarterly financial results

However, the Audit Committee will monitor the utilization of the proceeds of this Issue and prepare the statement for utilization of the proceeds of this Issue. However, in accordance with Section 27 of the Companies Act, 2013, a company shall not vary the objects of the Issue without our Company being authorised to do so by our shareholders by way of special resolution and other compliances in this regard.

25. We have not made any alternate arrangements for meeting our capital requirements for the Objects of the Issue. Further we have not identified any alternate source of financing the ‘Objects of the Issue’. Any shortfall in raising / meeting the same could adversely affect our growth plans, operations and financial performance.

As on date of filing this RHP, we have not made any alternate arrangements for meeting our capital requirements for the Objects of the Issue. We meet our capital requirements through our bank finances, owned funds and internal accruals. Any shortfall in our net owned funds, internal accruals and our inability to raise debt in future would result in us being unable to meet our capital requirements, which in turn will negatively affect our financial condition and the results of operations. Further, we have not identified any alternate source of funding and hence any failure or delay on our part to raise money from this Issue or any shortfall in the Issue proceeds may delay the implementation schedule and could adversely affect our growth plans. For further details, please refer to the chapter titled “**Objects of the Issue**” beginning on page 116.

26. We derive our 27.04%, 12.99% and 18.19% revenue from Solar EPC projects for the fiscal year ended on March 31, 2025, 2024 and 2023 respectively. Our profits may decline if we do not anticipate the demand for solar power projects or develop solar power in a timely manner.

We have derived **27.04%** of our revenue from Solar EPC projects for the year ended March 31, 2025 and we are continuously shifting our focus more towards renewable energy sector. Our business is partially dependent on the demand for solar power projects. If we fail to accurately anticipate or respond to changes in market demand whether due to shifts in policy, technological advancements, consumer preferences or economic conditions, our ability to secure new projects and maintain profitability may be adversely affected. Additionally, delays in the development or implementation of solar power initiatives could result in underutilized resources and increased operational costs, which may negatively impact our financial performance.

27. Our Promoters have provided personal guarantees for secured loan facilities obtained by us, and any failure or default by us to repay such loans could trigger repayment obligations on our Promoters, which may also impact our Promoter's ability to effectively service its obligations as our Promoter and thereby, adversely impact our business and operations.

As of July 31, 2025, the secured borrowings aggregating to ₹ 3,662.00 Lakhs have been sanctioned by scheduled commercial banks and financial institutions to our Company. Our Promoters, namely Sunil Singh Gangwar, Sujata Gangwar, Devvrath Singh and Satyavrat Singh have provided their personal guarantee in securing these borrowings. As of July 31, 2025, outstanding amounts from secured credit facilities personally guaranteed by our Promoters amounted to ₹ 3,102.79 Lakhs, which constitutes 84.73% of our total indebtedness aggregating to ₹ 3,662.00 Lakhs as on such date.

We have in our history never defaulted in repayments of loan. Any default or failure by us to repay our loans in a timely manner or at all could trigger repayment obligations on the part of our Promoters, in respect of such loans. This could have an adverse effect on our business, results of operation and financial condition. We may not be successful in procuring guarantees to supplement/ substitute the guarantees provided by our Promoters satisfactory to the lenders, and as a result may need to repay outstanding amounts under such facilities or seek additional sources of capital, which could affect our business prospects, financial condition, results of operations and cash flows.

28. Our Company, our Group Company, our Promoters and our Directors other than promoters are involved in certain legal proceedings. Any adverse decision in such proceedings may render us / them liable to liabilities / penalties and may adversely affect our business and results of operations.

Our Company, our Group Company, our Promoters and Directors other than promoters are involved in certain legal proceedings at different levels of adjudication before various courts, tribunals and appellate authorities. In the event of adverse rulings in these proceedings or consequent levy of penalties by other statutory authorities, our Company or Directors may need to make payments or make provisions for future payments, which may increase expenses and current or contingent liabilities and also adversely affect our reputation.

In the ordinary course of business, our Company, group company, promoters and our directors are involved in certain legal proceedings, which are pending at varying levels of adjudication at different forums. The summary of outstanding matters set out below includes details of civil proceedings, criminal proceedings, tax proceedings, statutory and regulatory actions and other material pending litigation involving our company, directors, promoters and our Group company.

According to the materiality policy, any outstanding litigation, other than criminal proceedings, statutory or regulatory actions and taxation matters, is considered material if the monetary amount of claim by or against the entity or person in any such pending matter is in excess of Rs. 5,00,000 or if an adverse outcome of any such litigation could materially and adversely affect our business, prospects, operations, financial position or reputation.

We cannot assure you that any of the legal proceedings described below will be decided in favour of our company and or directors respectively. Further the amounts claimed in these proceedings have been disclosed to the extent ascertainable, excluding contingent liabilities and include amounts claimed jointly and severally. Should any new developments arise, such as change in Indian law or rulings by appellate courts or tribunals, additional provisions may need to be made by us, the promoters, directors and Group company in our respective financial statements, which may adversely affect our business, financial condition and reputation. We may incur significant expenses and management time in such legal proceedings. Decision in any such proceedings adverse to our interests may have adverse effect on our business, future financial performance and results of operations.

Decision of such proceedings which are against the interests may affect our reputation and may have material and adverse effect on our business, results of operations and financial condition.

As of now, our company has not received any notice in respect of interest or recovery of the same, damage charges under rules Goods & Service Tax Act. We cannot assure that no notice will be issued by the jurisdictional officer of the Goods & Service Tax Department on the consequences of scrutiny or other proceedings under the Goods & Service Tax.

Further, there were instances of delayed filing of statutory forms under the Companies Act with the Registrar of Companies (RoC), which were subsequently rectified by paying additional fees. These delays occurred due to inadvertent reasons and ranged from 1 to 553 days. The details of such delays are as follows:

We have filed the necessary forms after paying the required additional fees and following these submissions, the regulatory authorities approved the delayed filings. As on the date of the filing of this Red Herring Prospectus, we have not received any show-cause notices or penalties from regulatory authorities regarding these delays, inaccuracies, or non-compliance.

Further to prevent such issues in the future and ensure better compliance, our company has proactively appointed a dedicated compliance officer. Mrs. Jai Shree Rathore was appointed as the Company Secretary and Compliance Officer in October 2024 to help reduce instances of non-compliance and delayed filings.

However, these delays did not result in any material disruptions to our day-to-day operations or have a significant adverse impact on our financial performance, it is important to note that any future penalties, fines, or regulatory actions related to non-compliance or late filings could negatively affect our operations and financial position. Such actions could lead to reputational damage, loss of investor confidence, and potential financial liabilities. Further, there is no assurance that such discrepancies will not occur in the future, and we may still be subject to regulatory actions or penalties, which could adversely affect our business operations and financial position.

30. Our lenders have charge over our movable and immovable properties in respect of finance availed by us and the agreements governing our indebtedness contain conditions and restrictions on our operations, additional financing and capital structure.

We have secured our lenders by creating a charge over our movable and immovable properties in respect of loans / facilities availed by us from banks and financial institutions. The total amount outstanding and payable by us as secured loans were Rs. 2,891.65 Lakhs as on July 31, 2025. In the event we default in repayment of the loans / facilities availed by us and any interest thereof, our properties may be forfeited by lenders, which in turn could have significant adverse effect on business, financial condition or results of operations.

Under our financing arrangements, we are required to obtain the prior, written lender consent for, among other matters, changes in our capital structure, formulate a scheme of amalgamation or reconstruction and entering into any other borrowing arrangement. Further, we are required to maintain certain financial ratios. There can be no assurance that we will be able to comply with these financial or other covenants or that we will be able to obtain the consent necessary to take the actions we believe are necessary to operate and grow our business. Our level of existing debt and any new debt that we incur in the future has important consequences. Any failure to comply with these requirements or other conditions or covenants under our financing agreements that is not waived by our lenders or is not otherwise cured by us, may require us to repay the borrowing in whole or part and may include other related costs. Our Company may be forced to sell some or all of its assets or limit our operations. This may adversely affect our ability to conduct our business and impair our future growth plans. For further information, see the chapter titled **“Financial Indebtedness”** beginning on page 303.

Though these covenants are restrictive to some extent for us, however it ensures financial discipline, which would help us in the long run to improve our financial performance.

31. We may not be able to protect our trademarks from infringement.

As on the date of this Red Herring Prospectus we have registered our “” brand name and logo as registered trademarks in India under class 37. Although we take steps to monitor the possible infringement or misuse of our trademarks, it is possible that third parties may infringe, dilute or otherwise violate our trademark rights. Any unauthorized use of our trademarks could harm our reputation or commercial interests. In addition, our enforcement against third-party infringers or violators may be unduly expensive and time-consuming, and any remedy obtained may constitute insufficient redress relative to the damages we may suffer. For details, see chapter titled **“Government and Statutory Approvals”** beginning on page 314.

32. Our Group Company, Thinkers Doers Private Limited, is authorized by its constitutional document to engage in business activities which are similar to those undertaken by our Company, which may result in conflict of interest.

Our Group Company, Thinkers Doers Private Limited, is authorized under its memorandum of association to engage in business activities which are similar to those undertaken by our Company. But as of today, the group company is not engaged in a similar line of business.

We are engaged in EPC, Engineering Consultancy Services and Hospitality Services while the group company, Thinkers Doers Private Limited majorly operates in the restaurant and catering services.

Although there is no conflict of interest situation between our company and our group company but we cannot assure you that our Group Company will not compete with our existing business or any future business that we may undertake or that their interests will not conflict with ours. Any

such future conflicts could have an adverse effect on our reputation, business and results of operations.

33. We have in the past entered into transactions with related parties and may continue to do so in the future. These or any future related party transactions may potentially involve conflicts of interest and there can be no assurance that we could not have achieved better terms, had such arrangements been entered into with unrelated parties.

We have entered into various transactions with related parties from time to time. The details of the related party transactions on the basis of Restated Financial Statements for the last three fiscal years ended on March 31, 2025, March 31, 2024, and March 31, 2023 are as under:

(Amount in Lakhs)

Nature of Transactions	For the year ended March 31, 2025			For the year ended March 31, 2024			For the year ended March 31, 2023		
	Related Party Transaction	Total Transaction	% of Related party to Total Transaction	Related Party Transaction	Total Transaction	% of Related party to Total Transaction	Related Party Transaction	Total Transaction	% of Related party to Total Transaction

*Pursuant to the CA certificate dated August 01, 2025, from our statutory and peer review auditor M/s. Rajvanshi and Associates., Chartered Accountants.

While all the related party transactions done by our company in the past have been executed on Arm's Length Price and were in compliance with the Companies Act, 2013, we cannot assure you that we could not have achieved more favourable terms had such transactions been entered into with unrelated parties. It is likely that we may enter into related party transactions in the future. Although upon listing of our Equity Shares pursuant to the Issue, all related party transactions that we may enter into, will be subject to the requirements of the Companies Act, 2013 and the SEBI Listing Regulations, there can be no assurance that such transactions, individually or in the aggregate, will not have an adverse effect on our financial condition and results of operations or that we could not have achieved more favourable terms if such transactions had not been entered into with related parties. Such related party transactions may potentially involve conflicts of interest.

There is no assurance that our related party transactions in future would be on terms favourable to us when compared to similar transactions with unrelated or third parties or that our related party transactions, individually or in the aggregate, will not have an adverse effect on our financial condition. For details, see **"Financial Statements as Restated – Annexure 32: Related Party Transaction"** on page 275.

34. We have a large number of employees, resulting in increased fixed costs to our Company. In the event we are not able to generate adequate cash flows it may have a material adverse impact on our operations.

As on **July 31, 2025** we had 102 permanent employees. In the event, we are unable to generate or maintain adequate revenues by successfully bidding for projects or recover payments from our clients in a timely manner or at all, it could have a material adverse effect on our financial condition and operations.

Further, we maintain a workforce based upon our current and anticipated workloads. If our Company does not receive future contract awards or if these awards are delayed, it could incur significant costs in the interim. Our estimate of the future performance depends on, among other things, whether and when we will be awarded new contracts. While our estimates are based upon best judgment, these estimates can be unreliable and may frequently change based upon newly

available information. In the case of large-scale projects where timing is often uncertain, it is particularly difficult to predict whether or when we will be awarded the contract. The uncertainty of the contract being awarded and its timing can present difficulties in matching workforce size with contract needs. If a contract, which we expect will be awarded, is delayed or not received, our Company could incur costs due to maintaining under-utilized staff and facilities, which could have a material adverse effect on our profitability, financial condition and results of operations and financial condition.

Our revenue from operations have been continuously increasing in the past three years and there have been no instances where we were unable to generate adequate cash flows to pay our employees. Further there has been no instances where we have experienced a shortage or excess hiring of our workforce in comparison to our projects and administrative work.

35. Non-Compliance with and changes in safety, health and environmental laws and other applicable regulations may adversely affect our business, prospects, financial condition and results of operations.

Due to the nature of our business, we expect to be subject to extensive and increasingly stringent environmental, health and safety laws and regulations and various labour, workplace and related laws and regulations. Besides, we are also subject to environmental laws and regulations, which govern the discharge, emission, storage, handling and disposal of a variety of substances that may be used in or result from the operations of our business. For further details of the key regulations applicable to our business, please see section titled ***“Key Industry Regulations and policies”*** beginning on page 200.

As of now, we have not received any notices regarding any non-compliance. However, there is no assurance that such non-compliance will not occur in the future, and we may be subject to regulatory actions and penalties, which could adversely affect our business operations and financial position. The scope and extent of new environmental regulations, including their effect on our operations, cannot be predicted and hence the costs and management time required to comply with these requirements could be significant. Amendments to such statutes may impose additional provisions to be followed by our Company and accordingly our Company needs to incur clean-up and remediation costs, as well as damages, payment of fines or other penalties, closure of production facilities for non - compliance, other liabilities and related litigation, could adversely affect our business, prospects, financial condition and results of operations.

36. Changes in technology may render our current technologies obsolete or require us to make substantial capital investments.

Our recent experience indicates that clients are increasingly developing larger, more technically complex projects. We are also entering into new markets and expanding into unexplored technologies. To meet our clients' needs, we must continuously update existing ones and develop new technology. In addition, rapid and frequent technology and market demand changes can often render existing technologies obsolete, requiring substantial new capital expenditures and/or write downs of assets. Modernization and technology upgradation is essential to provide better services to customers. Although we strive to keep our technology and equipment's current with the latest international standards, the technologies, facilities and machinery we currently employ may become less competitive or even obsolete due to advancement in technology or changes in market demand, which may require us to incur substantial capital expenditure.

Our failure to anticipate or to respond adequately to changing technical, market demands and/or client requirements could adversely affect our business and financial results. To further develop and implement these new technologies we may have to invest a large amount of capital which may

have an adverse impact on our cash position. If our competitors introduce superior technology and we cannot make enhancements to ours to remain competitive, either because we do not have the resources to continually improve our technology or for any other reason, our competitive position, and in turn our business, results of operations and financial condition may be adversely affected.

37. Our business depends upon the capabilities and performance of our Promoters, Key Managerial Personnel and Senior Management that will be crucial to determining the success and growth of our company.

Our Promoter, Chairman and Managing Director Mr. Sunil Singh Gangwar holds a Bachelor of Engineering (Electrical) from University of Rajasthan. He has 32 years of experience in the in the mechanical and electrical field. The experience of our Promoters and senior management has been critical to the success of our business growth. As a result, any loss of the services of any of our Promoters or senior management could materially and adversely affect our business, financial condition and results of operations. The replacement of senior management may not be straightforward or achievable in a timely manner, and we may be required to wait indefinitely to fill positions until we find suitable candidates. Furthermore, attracting and retaining experienced and qualified senior management could require increasing compensation and benefits payable to such personnel, which could affect our operational costs and accordingly, our financial condition and results of operations.

We are dependent on the services of our executive officers and other members of our senior management team. We benefit from the cost advantages of having the entirety of our design and engineering team in India. However, the demand for specialist design engineers has increased in India, resulting in a shortage of, and increasing costs to hire, such specialists. We face challenges to recruit and retain enough suitably skilled personnel, particularly as we implement our growth strategy. Generally, there is significant competition for management, engineering, technical and design and other skilled personnel in the businesses in which we operate, and it may be difficult to attract and retain the skilled personnel we need. We may be unable to compete with other companies for suitably skilled personnel to the extent they are able to provide more competitive compensation and benefits. There can be no assurance that attrition rates for our employees, including our management and sales personnel, will not increase. A significant increase in our employee attrition rate could also result in decreased operational efficiencies and productivity, loss of market knowledge and customer relationships, and an increase in recruitment and training costs, thereby materially and adversely affecting our business, results of operations and financial condition.

38. If we are unable to source business opportunities effectively, we may not achieve our financial objectives.

Our ability to meet financial objectives may be adversely affected if we are unable to effectively identify, secure, and capitalize on new business opportunities in the EPC and renewable energy sector. Several factors, including increased competition, shifts in market demand, supply chain disruptions, or challenges in entering new geographic markets or customer segments, could hinder our success in sourcing new opportunities. Failure to effectively source and convert business opportunities could have a material adverse impact on our business, financial condition, and operating results.

Additionally, our future strategies may differ from those currently in place. There is no guarantee that our market analyses, strategies, or plans will be successful under varying market conditions, and our ability to adapt to evolving market dynamics is uncertain.

39. We are subject to risks associated with expansion into new geographic regions.

We have undertaken projects in around 14 states of India. Expansion into new geographic regions including different states in India, subjects us to various challenges, including those relating to our lack of familiarity with the culture, legal regulations and economic conditions of these new regions, language barriers, difficulties in staffing and managing such operations. The risks involved in entering new geographic markets and expanding operations may be higher than expected, and we may face significant competition in such markets. By expanding into new geographical regions, we could be subject to additional risks associated with establishing and conducting operations, including laws and regulations, uncertainties and customer preferences, political and economic stability.

By expanding into new geographical regions, we may be exposed to significant liability and could lose some or all our investment in such regions, because of which our business, financial condition and results of operations could be adversely affected.

40. We have not entered any formal arrangement for technical support service for maintenance and smooth functioning of our equipment and machineries, which may affect our performance.

Our business involves daily use of technical equipment and machinery for the completion of the projects. Plant and Machineries required for construction work are generally outsourced at site as per requirement. All kinds of maintenance and smooth functioning of such plant and machinery are covered in the scope of such supplier. Technical equipment is owned by our company and also require periodic maintenance checks and technical support. In the event of technical breakdown or malfunctioning, our Company has not entered into any formal technical support service agreements with a competent third-party vendor instead our company has an in-house team for repair and maintenance of the equipment and machinery. Although our in-house team is fully equipped and capable to handle any technical breakdown and malfunctioning of the machinery and we have not faced any instances of failure in this regard in the past. We however cannot assure that such failure will not occur in the future which will result in the downtime of the machinery which may adversely affect our productivity, business and results of operations.

41. We could be harmed by employee misconduct or errors that are difficult to detect, and any such incidences could adversely affect our financial condition, results of operations and reputation.

Employee misconduct or errors could expose us to business risks or losses, including regulatory sanctions and cause serious harm to our reputation and goodwill of our Company. Our employees and agents may also commit errors that could subject us to claims and proceedings for alleged negligence, as well as regulatory actions on account of which our business, financial condition, results of operations and goodwill could be adversely affected. We have not faced any instances of employee misconduct or error in the past which could affect our business, financial condition and results of operations however there can be no assurance that we will be able to detect or deter such misconduct. Moreover, the precautions we take to prevent and detect such activity may not be effective in all cases.

42. Our inability to successfully implement some or all our business strategies in a timely manner or at all could have an adverse effect on our business.

A part of our strategy is aimed towards business growth and improvement of market position, we intend to implement several business strategies, which include:

- Strengthen our focus on the development and execution of EPC projects and enhance execution efficiency.
- Expansion and growth in renewal energy sector through RESCO model
- Geographical diversification

- Leverage core competencies with enhanced in-house integration
- Continue to enhance our project execution capabilities
- Enhancing Operational Efficiency through IT Integration and System Consolidation.

For further information, see ***“Our Business – Our Business Strategies”*** on page 179.

Our strategies may not succeed due to various factors, including our inability to maintain and improve quality of products, failure to meet market preferences and trends, failure to upgrade our infrastructure, and technology as required to cater to the requirement of changing demand and market preferences of this industry, our failure to maintain quality and consistency in our operations or to ensure scaling of our operations to correspond with our strategy and customer demand. Our inability to respond to regular competition, and other operational and management difficulties. Even though we have successfully implemented our business strategies in the past, there is no guarantee that we can implement the same on time and within the estimated budget going forward, or that we will be able to meet the expectations of our targeted customers. Any failure on our part to implement our strategy due to many reasons as attributed aforesaid could be detrimental to our long-term business outlook and our growth prospects and may materially affect our business, financial condition and result of operations.

43. The average cost of acquisition of Equity Shares by our Promoters could be lower than the floor price.

Our Promoters’ average cost of acquisition of Equity Shares in our Company may be lower than the Floor Price of the Price Band as may be decided by our Company in consultation with the Book Running Lead Manager. For further details regarding average cost of acquisition of Equity Shares by our Promoters in our Company and build-up of Equity Shares by our Promoters in our Company, please refer chapter titled ***“Summary of Issue Document”*** and ***“Capital Structure”*** beginning on pages 23 and 99 respectively.

44. Our future funds requirements, in the form of issue of capital or securities and/or loans taken by us, may be prejudicial to the interest of the shareholders depending upon the terms on which they are eventually raised.

We may require additional capital from time to time depending on our business needs. Any issue of shares or convertible securities would dilute the shareholding of the existing shareholders, and such issuance may be done on terms and conditions, which may not be favorable to the then existing shareholders. If such funds are raised in the form of loans or debt, then it may substantially increase our interest burden and decrease our cash flow, thus prejudicially affecting our profitability and ability to pay dividends to our shareholders.

45. Properties, on which we have our registered and corporate office is situated is not owned by us. Any termination or dispute in relation to this lease/ rental agreement may have an adverse effect on our business operations and results thereof.

The premises namely A-27, Basant Vihar, Vaishali Marg (West), Panchyawala, Jaipur, Rajasthan, India - 302034 where in our registered and corporate office is situated is not owned by our company and the same have been taken on lease. For further details on properties taken on lease / rent by us please refer to the heading titled ***“Our Business - Properties”*** on page 187.

The agreements are renewable on mutually agreed terms. The rent agreements have a clause for the renewal of the same for a further period as may be mutually agreed among the parties after the expiry of the current period. There is no conflict of interest between the lessor of the properties and our Company, Promoters, Promoter Group, Directors, KMPs and Group Company. In the event

of the said agreement being renewed or agreement is terminated by either of the parties or upon expiry of the said agreement or increase in rent or any non-compliance, we may have to either vacate the registered office and re-locate to another premises or agree to pay the extra amount for using the same prices. Further, an increase in rent structure will lead to an increase in our expenditure which in turn will lead to decrease of revenue and increase of operational cost.

46. In addition to standard remuneration or benefits and reimbursement of expenses, some of our Promoters, Directors and key managerial personnel are interested in our Company to the extent of their shareholding, dividend entitlement and lease rent received, in our Company.

Our Promoters, Directors and Key Managerial Personnel are interested in our Company to the extent of remuneration paid to them for services rendered and reimbursement of expenses payable to them. Further, some of our Promoters, Directors and Key Managerial Personnel may also be interested to the extent of their shareholding, dividend entitlement and lease rental in our Company. For details on interest of our Promoters in lease rental, refer **“Risk Factor No. 45 - Properties, on which we have our registered and corporate office is situated is not owned by us. Any termination or dispute in relation to this lease/ rental agreement may have an adverse effect on our business operations and results thereof”** and for other information, see **“Capital Structure”, “Our Management”** and **“Financial Statements as Restated”** on pages 99, 217, and 246 respectively.

47. We may not have sufficient insurance coverage to cover all possible losses.

Our Company has obtained insurance coverage in respect of certain risks and the details of the same areas under:

Our operations carry inherent risks of personal injury and loss of life, damage to or destruction of property, plant and machinery and damage to the environment, and are subject to various risks such as fire, theft, flood, earthquakes and terrorism. Our insured assets primarily consist of property, plant & equipment, furniture, fixtures and fittings, inventory, etc. In the past three years, there have been no instances of under insurance i.e., where our insurance cover did not adequately cover the insured value required for our operations. However, there can be no assurance that our current and future insurance will adequately cover all losses or liabilities that may arise from our operations, including, but not limited to, when the loss suffered is not easily quantified. While we have not had any such incident in the past three years, there can be no assurance that in the future our losses will not significantly exceed our insurance coverage or may not be recoverable through insurance and consequently our business, financial condition and results of operations could be materially and adversely affected.

48. Our ability to pay dividends in the future may depend upon our future revenues, profits, financial condition, cash flows, working capital requirements, capital expenditures and restrictive covenants in our financing arrangements.

We may retain all our future earnings, if any, for use in the operations and expansion of our business. As a result, we may not declare dividends in the foreseeable future. Any future determination as to the declaration and payment of dividends will be at the discretion of our Board of Directors and will depend on factors that our Board of Directors deem relevant, including among others, our results of operations, financial condition, cash requirements, business prospects. Accordingly, realization of a gain on shareholders investments may largely depend upon the appreciation of the price of our Equity Shares. There can be no assurance that our Equity Shares will appreciate. For details of our dividend history, see ***“Dividend Policy”*** beginning on page 245.

49. Our Promoters will continue jointly to retain majority control over our Company after the Issue, which will allow them to determine the outcome of matters submitted to shareholders for approval.

After completion of the Issue, our Promoters will collectively own [●] % of the Equity Shares. As a result, our Promoters will be able to exercise a significant degree of influence over us and will be able to control the outcome of any proposal that can be approved by a majority shareholder vote, including the election of members to our Board, in accordance with the Companies Act and our Articles of Association. Such a concentration of ownership may also have the effect of delaying, preventing or deterring a change in control of our Company.

In addition, our Promoters will continue to have the ability to cause us to take actions that are not in, or may conflict with, our interests or the interests of some or all of our creditors or minority shareholders, and we cannot assure you that such actions will not have an adverse effect on our future financial performance or the price of our Equity Shares.

50. Increases in the prices of construction materials, fuel, labour and equipment could have an adverse effect on our business, results of operations and financial condition.

The cost of construction materials, fuel, labour and equipment maintenance constitutes a significant part of our operating expenses. We are vulnerable to the risk of rising and fluctuating steel and cement prices, which are determined by demand and supply conditions in the global and Indian markets as well as government policies. Any unexpected price fluctuations after placement of orders, shortage, delay in delivery, quality defects, or any factors beyond our control may result in an interruption in the supply of such materials and adversely affect our business, financial performance and cash flows.

Our EPC contracts are mostly based on a fixed price or a lump sum for the project, which may not always include escalation clauses covering any increased costs we may incur. As a result, our ability to pass on increased costs may be limited and we may have to absorb such increases which may adversely affect our business, financial condition and results of operations. We may also suffer significant cost overruns or even losses in these projects due to unanticipated cost increases resulted from a number of factors such as changes in assumptions underlying our contracts, unavailability or unanticipated increases in the cost of construction materials, fuel, labour and equipment, changes in applicable taxation structures or the scope of work, delays in obtaining requisite statutory clearances and approvals, delays in acquisition of land, procuring right of way, disruptions of the supply of raw materials due to factors beyond our control, unforeseen design or engineering challenges, inaccurate drawings or technical information provided by clients, severe weather conditions or force majeure events. In order to mitigate above risks, we have in past placed purchase orders by entering into fixed-rate agreements with subcontractors and labour contractors for the

full scope of the project. This proactive approach helps safeguard against potential cost escalations during the execution period. Further in order to insulate our company from the price escalation in respect of the raw material in the past, our company maintains adequate stock of the raw material which is subject to constant price fluctuation.

In addition, India has stringent labour legislation that protects the interests of workers, including legislation that sets forth detailed procedures for the establishment of unions, dispute resolution and employee removal and legislation that imposes certain financial obligations on employers upon retrenchment. Also, any upward revision of the prescribed minimum wage or other benefits required to be paid to our workers (including in the event of injuries or death sustained in course of employment, dismissal or retrenchment) will result in the increase in cost of labour which we may be unable to pass on to our customers due to market conditions and also the pre agreed conditions of contract. This would result in us being required to absorb the additional cost, which may have a material adverse impact on our profitability. Further we also depend on third party contractors for the provision of various services associated with our business. Such third-party contractors and their employees/workmen may also be subject to these labour legislations.

51. Industry information included in this Red Herring Prospectus has been derived from publicly available industry reports and/or websites. There can be no assurance that such third-party statistical, financial and other industry information is either complete or accurate.

We have relied on information from various publicly available industry reports and/or websites for purposes of inclusion of such information in this Red Herring Prospectus. These reports are subject to various limitations and based upon certain assumptions that are subjective in nature. We have not independently verified data from such industry reports and other sources. Although the data may be reliable, their accuracy, completeness and underlying assumptions are not guaranteed, and their dependability cannot be assured. While we have taken reasonable care in the reproduction of the information, the information has not been prepared or independently verified by us or any of our respective affiliates or advisors and, therefore, we make no representation or warranty, express or implied, as to the accuracy or completeness of such facts and statistics. Due to possibly flawed or ineffective collection methods or discrepancies between published information and market practice and other problems, the statistics herein may be inaccurate or may not be comparable to statistics produced for other economies and should not be unduly relied upon. Further, there is no assurance that they are stated or compiled on the same basis or with the same degree of accuracy as may be the case elsewhere.

52. We are dependent upon the experience and skill of our management team and several KMPs and senior management personnel. If we are unable to attract or retain such qualified personnel, this could adversely affect our business, results of operations and financial condition.

We are dependent on a highly qualified, experienced and capable management team for design and execution of our projects. Our ability to meet continued success and future business challenges depends on our ability to attract, recruit and retain experienced, talented and skilled professionals. The loss of the services of our key personnel or our inability to recruit or train enough experienced personnel or our inability to manage the attrition levels in different employee categories may have an adverse effect on our financial results and business prospects. Further, if we are unable to hire additional qualified personnel or retain them, our ability to expand our business may be impacted. As we intend to continue to expand our operations and develop new projects, we will be required to continue to attract and retain experienced personnel. We may also be required to increase our levels of employee compensation more rapidly than in the past to remain competitive in attracting suitable employees. There can be no assurance that our competitors will not offer better compensation incentives and other perquisites to such skilled personnel. If we are not able to attract and retain talented employees as required for conducting our business, or if we experience

high attrition levels which are largely out of our control, or if we are unable to motivate and retain existing employees, our business, results of operations and financial condition may be adversely affected. For further information, please see section titled ***“Key Managerial personal and Senior Management”*** in chapter ***“Our Management”*** beginning on page 217.

53. We require various statutory and regulatory permits and approvals in the ordinary course of our business, and our failure to obtain, renew or maintain them in a timely manner may adversely affect our operations.

We require certain statutory and regulatory permits, approvals, licenses, registrations and permissions for our business and operations. For details of the key laws and regulations applicable to us, see ***“Key Industry Regulations and Policies”*** beginning on page 200. We may need to apply for further approvals in the future including renewal of approvals that may expire from time to time. There can be no assurance that the relevant authorities will issue such permits or approvals in the time frame anticipated by us or at all. Failure by us to renew, maintain or obtain the required permits or approvals at the requisite time may result in the interruption of our operations and may have an adverse effect on our business, financial condition and results of operations. Further, we cannot assure that the approvals, licenses, registrations and permits issued to us would not be suspended or revoked in the event of non-compliance or alleged non-compliance with any terms or conditions thereof, or pursuant to any regulatory action. Any failure to renew the approvals that have expired or apply for and obtain the required approvals, licenses, registrations or permits, or any suspension or revocation of any of the approvals, licenses, registrations and permits that have been or may be issued to us, may impede our operations. For further details, see ***“Government and Statutory Approvals”*** beginning on page 314.

54. Our operations are subject to risks of mishaps or accidents that could cause damage or loss to life and property and could also result in loss or slowdown in our business.

Our business operations are subject to operating risks, including fatal accidents, mishaps failure of equipment, power supply, labour disputes, natural disasters or other force majeure conditions which are beyond our control. The occurrence of any of these factors could significantly affect our results of operations and financial condition. Long periods of business disruption could result in a loss of customers. Although we take precautions to minimize the risk of any significant operational problems at our operation sites, there can be no assurance that we will not face such disruptions in the future.

During the construction and maintenance period, we may be exposed to various risks which we may not be able to foresee or may not have adequate insurance coverage. Our insurance coverage may not be adequate to cover such loss or damage to life and property, and any consequential losses arising due to such events will affect our operations and financial condition. Further, in addition to the above, any such fatal accident or incident causing damage or loss to life and property, even if we are fully insured or held not to be liable, could negatively affect our reputation, thereby making it more difficult for us to conduct our business operations effectively, and could significantly affect our Order Book, availability of insurance coverage in the future and our results of operations. There was no such incidence in the past, however the risk factor was included as our Company continue to grow, there can be no assurance that there will be no such instances.

55. Our operations are dependent on a significant number of contract labour and an inability to access adequate contract labour at reasonable costs at our project sites across India may adversely affect our business prospects and results of operations.

Our operations are significantly dependent on access to a large pool of contract labour for our

construction work and the execution of our projects. The number of contract labourers employed by us varies from time to time based on the nature and extent of work we are involved in. Our dependence on such contract labour may result in significant risks for our operations, relating to the availability and skill of such contract labour, as well as contingencies affecting availability of such contract labour during peak periods in labour intensive sectors such as ours. For further details on our dependency on contract labour, please see ***“Risk Factor No. 11 - “We are dependent on our contractors for timely completion of projects undertaken by us in our normal course of business. 40.36%, 30.50% and 38.36% of our total goods of goods sold comprises of cost of contractor for the fiscal year ended on March 31, 2025, 2024 and 2023. Our ability to complete our projects in a timely manner and operate, maintain and expand our projects, is subject to performance of our contractors”*** on page 37. There can be no assurance that we will have adequate access to skilled workmen at reasonable rates and in the areas in which we execute our projects. As a result, we may be required to incur additional costs to ensure timely execution of our projects. In addition, there may be local regulatory requirements relating to use of contract labour in specified areas and such regulations may restrict our ability to recruit contract labour for a project. Further, all contract labourers engaged in our projects are assured minimum wages that are fixed by the relevant State governments, and any increase in such minimum wages payable may adversely affect our results of operations.

56. *Our inability to identify and understand evolving industry trends and consumer preferences, and to provide new services to meet our customers’ demands may adversely affect our business.*

Changes in consumer preferences and industry requirements may render certain of our services less attractive. Our ability to anticipate to successfully develop and introduce new and enhanced services to create new or address yet unidentified needs among our current and potential customers in a timely manner, is a significant factor in our ability to remain competitive. However, there can be no assurance that we will be able to secure the necessary knowledge, through our own research and development or through technical assistance, that will allow us to continue to develop our service portfolio or that we will be able to respond to industry trends by developing and offering services. We may also be required to make investments in research and development, which may strain our resources and may not provide results that can be monetized. If we are unable to obtain such knowledge in a timely manner, or at all, we may be unable to effectively implement our strategies, and our business and results of operations may be adversely affected.

To compete successfully, we may need to increase the diversity and sophistication of our service portfolio, which may require substantial capital expenditure. In developing such services, we may need to make investments in our research and analysis team. If we exceed our budgeted capital expenditure and cannot meet the additional capital requirements through operating cash flows and planned financing, we may have to delay our projects which could make us less competitive and lead to customer loss.

If we do not continue to distinguish our Services through distinctive features and design, and to continue to build and strengthen our brand recognition, we could lose market share, and our revenues and earnings could decline.

57. *There is no monitoring agency appointed by our Company and the deployment of funds are at the discretion of our Management and our Board of Directors, though it shall be monitored by the Audit Committee.*

As per SEBI (ICDR) Regulations, 2018 appointment of monitoring agency is required only for Issue size (excluding the size of offer for sale by selling shareholders) is above Rs. 5,000 Lakhs. Hence, we have not appointed a monitoring agency to monitor the utilization of Issue proceeds.

However, the audit committee of our Board will monitor the utilization of Issue proceeds. Any inability on our part to effectively utilize the Issue proceeds could adversely affect our finances. Further, our Company shall inform about material deviations in the utilization of Issue proceeds to the Designated Stock Exchange and shall also simultaneously make the material deviations/adverse comments of the audit committee public.

58. *Our business is subject to strikes, work stoppages and/or increased wage demands, as well as other disputes with our employees.*

We cannot guarantee that our employees will not join labour unions in the future and as a result we may experience disruptions in our operations due to disputes or other problems with our workforce. Efforts by our employees to modify compensation and other terms of employment may also divert management's attention and increase operating expenses. Our Company have not faced any instances of any strikes, work stoppages and/or increased wage demands or joining any labour unions in the past however we cannot assure that in future our employees may go on strikes or work stoppages or demand increase in wages or form a union. In case of occurrence of such events our business, financial condition and results of operations will be materially affected.

59. *Dependence on Third-Party Logistics Providers.*

We do not have fixed, long-term contractual agreements with our logistics providers. Instead, we engage their services on an as-needed basis to optimize costs and maintain operational flexibility. In the absence of binding contracts there is limited control over the availability, pricing, and service levels of logistics providers. In times of high demand, supply chain disruptions, or other market fluctuations, we may face challenges in securing reliable logistics support at reasonable rates. Any inability to source timely and cost-effective logistics services could result in increased operating expenses, service disruptions or changes in the availability of logistics providers. This approach could, in turn, impact our ability to fulfill customer orders on time, damage client relationships and adversely affect our reputation and financial performance.

60. *Our dependence on leasehold properties and risks relating to lease arrangements.*

Our Company operates from certain lease properties that are critical to its business operations, including registered and corporate office premises and farm house. Any non-renewal, termination or adverse modification of these lease agreements may disrupt our operations or require relocation, resulting in additional costs and operational delays. While the lease agreements have been entered into on an arm's length basis and are appropriately stamped and compliant, any disputes with lessors, deficiencies in documentation or regulatory non-compliance could adversely affect our rights to continue using these properties. Such events could have a material adverse impact on our business, financial condition and results of operations.

61. *We may be exposed to risks related to ownership and operation of Equipment and Vehicles in regard to their obsolescence, destruction, breakdown and fixed costs associated with them.*

As on March 31, 2025, our company had owned equipment and vehicles aggregating to ₹ 127.75 lakhs. The ownership of such a fleet result in significant fixed costs to our Company, including depreciation, insurance, maintenance, and fuel expenses. These fixed costs must be borne regardless of the level of operational activity, which may have an adverse impact on our financial performance during the period of reduced business volume.

Additionally, we are exposed to various operational risks related to our fleet. These include the risk of obsolescence due to technological advancements, as well as the risk of physical damage, destruction, or breakdown of the equipment and vehicles. Such events may lead to unplanned

capital expenditures for repairs or replacements and which may disrupt our operations, resulting in potential loss of revenue and profitability.

Although we have been benefitted immensely due to owning of our fleet in the past wherein our revenue from operations have increased continuously in the last three years, there can be no assurance that we will be able to mitigate all such risks through insurance or preventive maintenance measures, which could have a material adverse effect on our financial condition, results of operations and cash flows.

62. *Any failure in our IT systems or loss of connectivity or any loss of data arising from such failure can adversely impact our service levels.*

The entire functions of our Company is maintained at our ERP Software Strategic ERP procured from ITAakash Strategic Software (P) Ltd. We rely entirely on our IT systems and digital infrastructure for our operations such as project management, communication, procurement, design and execution of services. Any failure or disruption in these IT systems whether due to software malfunctions, hardware breakdowns, cyberattacks, or loss of connectivity could negatively affect our ability to meet project deadlines, service delivery standards and operational efficiency. Additionally, loss of data resulting from system failures could compromise project information, leading to potential delays, rework and increased costs. These disruptions may result in financial losses, reputational damage and legal liabilities, thereby impacting our overall service levels and customer satisfaction.

We have implemented various safeguards, including regular system backups, cybersecurity measures and disaster recovery protocols and have not faced any malfunctions or disruptions of our IT System in the past however there is no guarantee that these measures will completely eliminate the risks associated with IT system failures or data loss. Therefore, it could have a material adverse effect on our business operations and financial performance.

63. *We may face the risk of increased competition from new market entrants affecting our business operations.*

The construction industry, including the EPC segment, has relatively low barriers to entry, enabling new participants to enter the market with minimal capital and technical requirements. This increases competitive intensity and may lead to aggressive pricing, overcapacity and reduced margins. New entrants, particularly those willing to operate at lower cost or accept higher risk, can challenge our ability to secure new contracts or maintain profitability on existing projects.

While our experience, scale and project execution capabilities provide a competitive advantage, the ongoing influx of new competitors could adversely affect our business operations, market share, pricing power and overall financial performance.

64. *We may be exposed to risk arising out of fluctuating demand due to competitive bidding process and non-recurring clients.*

Our business is primarily driven by individual projects awarded to us through competitive bidding processes and we typically do not operate under long-term contracts that guarantee a consistent flow of work from our customers. Once a project is completed, there is no assurance that the same client will award us follow-up work or engage us for the future projects. This creates a level of uncertainty in our revenue stream and business continuity. Every new project opportunity generally requires us to submit a bid alongside multiple competitors, many of whom may be willing to accept lower margins to secure work. The outcome of these bids depends on various factors, including pricing, technical expertise, past performance, client relationships and market

dynamics. There is no guarantee that we will be successful in winning future projects even with existing clients.

Moreover, the time and resources required to prepare competitive bids can be significant, and unsuccessful bids do not generate any return on these efforts. This unpredictability in contract awards and client retention could adversely affect our financial results, cash flow stability and long-term growth if we are unable to consistently secure a sufficient volume of new projects on favourable terms.

65. *Non-Compliance with performance security requirements may result in forfeiture of the bid and termination of the agreements.*

Our Company is required to provide performance security to undertake the EPC contracts to guarantee the successful and timely completion of its projects. The failure to provide the required performance security or failure to maintain it as per the contractual terms may lead to significant risks. In such instances we may face the forfeiture of bid security, which would result in a financial loss and negative impact on our cash flow. The forfeiture could also harm our reputation in the marketplace by reducing our competitiveness in securing future contracts.

Moreover, failure to comply with performance security requirements may result in the termination of concession agreements or other project-specific contracts. The termination of these agreements would lead to the loss of revenue from the affected projects and could lead to penalties or claims for damages due to non-performance, delays or failure to meet contractual obligations.

This non-compliance could also undermine our reputation with clients, contractors, making it more difficult to secure future projects. A damaged reputation, combined with the potential for financial loss, may limit our ability to access financing or increase borrowing costs, which may have a material adverse impact on our overall business performance and growth prospects.

66. *Any negative publicity concerning our Company, Promoters or key management personnel could adversely affect our reputation, business operations and future prospects.*

Our business operations and success are closely linked to our reputation and the public perception of our Company, Promoters and key managerial personnel. As an EPC contractor, we are involved in high-value, visible infrastructure and renewable energy projects where client trust and confidence play a crucial role in winning new orders and maintaining existing relationships.

Any negative publicity whether relating to allegations of non-compliance, poor project execution, labor issues, environmental concerns, financial irregularities or personal conduct of our Promoters or key executives, could damage our credibility. Any such negative attention may lead to heightened scrutiny by regulators, loss of business opportunities, difficulty in retaining skilled personnel or even termination of ongoing projects. This could materially and adversely impact our revenue, profitability and overall growth prospects.

67. *Our company may face risk of penalties or termination of the contracts for non-compliance with maintenance obligations.*

According to the terms of the EPC contracts executed between us and our clients, we are required to maintain completed projects in accordance with specific performance and maintenance obligations as stipulated in the contracts. Our failure to comply with these contractual maintenance requirements whether due to operational challenges, resource constraints or unforeseen technical issues may result in the imposition of penalties, invocation of warranty

claims or even early termination of the contract by the client. Such outcomes could adversely impact our financial condition, reputation and ability to secure future projects. In certain cases, our Company may also be exposed to litigation or claims for damages, further increasing its operational and financial risks.

68. *The nature of our construction business exposes us to liability claims, contract disputes and potential losses, not all of which are covered by insurance.*

Our construction business involves executing complex Engineering, Procurement and Construction (EPC) projects, which inherently expose us to a variety of operational, legal and financial risks. These include risks of workplace injuries, property damage, design or construction defects, equipment malfunction, project delays, unforeseen site conditions and environmental hazards. As a result, we may be subject to liability claims from clients, subcontractors, workers, regulatory authorities or third parties.

While we maintain insurance policies, our coverage may not be adequate or may be subject to exclusions, deductibles, or coverage limits. Additionally, not all types of liabilities such as penalties from project delays, liquidated damages, loss of future business or certain types of litigation are insurable or fully covered under our existing policies. In some instances, insurance claims may be denied or delayed due to disputes over coverage terms or procedural issues, leaving us exposed to financial risk.

Moreover, due to the contractual and project-based nature of the construction industry, disputes with clients, vendors, or subcontractors are common and may arise in relation to project timelines, quality of work, scope changes, billing, warranties, or performance guarantees. These disputes can lead to prolonged arbitration or litigation, resulting in legal expenses, project disruptions and reputational harm.

If we are unable to manage these risks effectively, or if we incur liabilities or penalties not adequately covered by insurance, it could have a material adverse impact on our financial condition, operational results, liquidity and reputation in the marketplace.

69. *Our business is dependent on maintaining continuing relationships with clients and subcontractors, and any disruption in these relationships could adversely impact our operations and financial performance.*

Our operations are primarily order-based and depend significantly on maintaining strong and ongoing relationships with our clients and subcontractors. If we are unable to maintain these relationships due to factors such as project delays, pricing issues, changes in client preferences or increased competition, it may lead to a reduction in future business opportunities.

Additionally, we rely on subcontractors for various aspects of project execution. Any failure on the part of subcontractors to meet quality standards, comply with timelines or fulfill contractual obligations could result in project delays, increased costs and reputational damage.

As the nature of our business is project-specific and the absence of long-term contracts, any disruption in our relationships with key clients or subcontractors may have a material adverse effect on our business, financial condition and results of operations.

70. *Our company is exposed to the risk of premature termination of projects and associated delays in payment and recovery.*

The nature of our business as an EPC contractor exposes us to the risk that projects may be

terminated prematurely by clients, which can lead to significant financial and operational uncertainties. Our ability to receive timely and full payment for completed or ongoing projects may be adversely affected by the premature termination of projects. Such terminations can arise from a variety of factors, including but not limited to, changes in client priorities, regulatory changes, force majeure events or disputes over contract terms and deliverables. In the event of project termination, we may not receive the anticipated payments for work already completed or for work remaining under the contract, which could have a material adverse effect on our financial position, cash flow and profitability.

Although we actively manage our contracts and monitor project timelines and financial health to mitigate these risks, but there can be no assurance that we will be able to avoid or fully mitigate the financial consequences of project terminations or delays in payments.

71. We may face challenges by entering in the RESCO and Hospitality Services segment which are the non-core business segments of our Company.

Our company's strategic expansion into the Renewable Energy Service Company (RESCO) model and the Hospitality Services segment marks a diversification from its core Engineering, Procurement, and Construction (EPC) business. These sectors operate under fundamentally different business models, involving service-oriented revenue structures, higher operational dependencies and customer-facing engagements, which are not traditionally aligned with our project-based EPC expertise.

In the RESCO model, our Company assumes long-term performance, financing and maintenance obligations, increasing exposure to credit risk, project execution delays and variability in energy generation. In the hospitality sector, our Company may face unfamiliar operational challenges such as service quality management, occupancy fluctuations and regulatory compliance in areas such as health, safety, and labour.

Although our company is diversifying its business segments to explore new opportunities in other segments but there is no assurance that we will be able to effectively leverage its existing capabilities to compete successfully in these new markets and which may adversely impact our financial performance, operational efficiency and strategic focus.

72. Our future funds requirements, in the form of issue of capital or securities and/or loans taken by us, may be prejudicial to the interest of the shareholders depending upon the terms on which they are eventually raised.

We may require additional capital from time to time depending on our business needs. Any issue of shares or convertible securities would dilute the shareholding of the existing shareholders and such issuance may be done on terms and conditions, which may not be favorable to the then existing shareholders. If such funds are raised in the form of loans or debt, then it may substantially increase our interest burden and decrease our cash flows, thus prejudicially affecting our profitability and ability to pay dividends to our shareholders.

Issue Specific Risks

73. Subsequent to the listing of the Equity Shares, we may be subject to surveillance measures, such as the Additional Surveillance Measures and the Graded Surveillance Measures by the Stock Exchanges in order to enhance the integrity of the market and safeguard the interest of investors.

Subsequent to the listing of the Equity Shares, we may be subject to Additional Surveillance

Measures (“ASM”) and Graded Surveillance Measures (“GSM”) by the Stock Exchange. These measures are in place to enhance the integrity of the market and safeguard the interest of investors. The criteria for shortlisting any security trading on the Stock Exchanges for ASM is based on objective criteria, which includes market based parameters such as high low price variation, concentration of client accounts, close to close price variation, market capitalization, average daily trading volume and its change, and average delivery percentage, among others. Securities are subject to GSM when its price is not commensurate with the financial health and fundamentals of the issuer. Specific parameters for GSM include net worth, net fixed assets, price to earning ratio, market capitalization and price to book value, among others.

Factors within and beyond our control may lead to our securities being subject to GSM or ASM. In the event our Equity Shares are subject to such surveillance measures implemented by the Stock Exchange, we may be subject to certain additional restrictions in connection with trading of our Equity Shares such as limiting trading frequency (for example, trading either allowed once in a week or a month) or freezing of price on upper side of trading which may have an adverse effect on the market price of our Equity Shares or may in general cause disruptions in the development of an active trading market for our Equity Shares.

74. *There are restrictions on daily / weekly / monthly movements in the price of the Equity Shares, which may adversely affect a shareholder’s ability to sell, or the price at which it can sell, Equity Shares at a particular point in time.*

Once listed, we would be subject to circuit breakers imposed by designated stock exchanges in India, which does not allow transactions beyond specified increases or decreases in the price of the Equity Shares. This circuit breaker operates independently of the index-based market-wide circuit breakers generally imposed by SEBI on Indian stock exchanges. The percentage limit on circuit breakers is set by the stock exchanges based on the historical volatility in the price and trading volume of the Equity Shares. The stock exchanges do not inform us of the percentage limit of the circuit breaker in effect from time to time and may change it without our knowledge. This circuit breaker limits the upward and downward movements in the price of the Equity Shares. As a result of this circuit breaker, no assurance may be given regarding your ability to sell your Equity Shares or the price at which you may be able to sell your Equity Shares at any particular time.

75. *The Equity Shares have never been publicly traded, and, after the Issue, the Equity Shares may experience price and volume fluctuations, and an active trading market for the Equity Shares may not develop. Further, the price of the Equity Shares may be volatile, and you may be unable to resell the Equity Shares at or above the Issue Price, or at all.*

Prior to the Issue, there has been no public market for the Equity Shares, and an active trading market on the Stock Exchanges may not develop or be sustained after the Issue. Listing and quotation do not guarantee that a market for the Equity Shares will develop, or if developed, the liquidity of such market for the Equity Shares. The Issue Price of the Equity Shares is proposed to be determined through a fixed price process in accordance with the SEBI ICDR Regulations and may not be indicative of the market price of the Equity Shares at the time of commencement of trading of the Equity Shares or at any time thereafter. The market price of the Equity Shares may be subject to significant fluctuations in response to, among other factors, variations in our operating results of our Company, market conditions specific to the industry we operate in, developments relating to India, volatility in securities markets in jurisdictions other than India, variations in the growth rate of financial indicators, variations in revenue or earnings estimates by research publications, and changes in economic, legal and other regulatory factors.

76. *After this Issue, the price of the Equity Shares may be highly volatile, or an active trading market for the Equity Shares may not develop.*

The price of the Equity Shares on the Stock Exchanges may fluctuate as a result of the factors, including:

- Volatility in the Indian and global capital market;
- Company's results of operations and financial performance;
- Performance of Company's competitors;
- Changes in our estimates of performance or recommendations by financial analysts;
- Significant developments in India's economic and fiscal policies; and
- Significant developments in India's environmental regulations.

Current valuations may not be sustainable in the future and may also not be reflective of future valuations for our industry and our Company. There has been no public market for the Equity Shares and the prices of the Equity Shares may fluctuate after this Issue. There can be no assurance that an active trading market for the Equity Shares will develop or be sustained after this Issue or that the price at which the Equity Shares are initially traded will correspond to the price at which the Equity Shares will trade in the market subsequent to this Issue.

77. *The Issue price of our Equity Shares may not be indicative of the market price of our Equity Shares after the Issue and the market price of our Equity Shares may decline below the Issue price and you may not be able to sell your Equity Shares at or above the Issue Price.*

The Issue Price of our Equity Shares has been determined by Book Built Method. This price is based on numerous factors (For further information, please refer chapter titled "**Basis for Issue Price**" beginning on page 130 and may not be indicative of the market price of our Equity Shares after the Issue. The market price of our Equity Shares could be subject to significant fluctuations after the Issue and may decline below the Issue Price. We cannot assure you that you will be able to sell your Equity Shares at or above the Issue Price. Among the factors that could affect our share price include without limitation. The following:

- Half yearly variations in the rate of growth of our financial indicators, such as earnings per share, net income and revenues;
- Changes in revenue or earnings estimates or publication of research reports by analysts;
- Speculation in the press or investment community;
- General market conditions; and
- Domestic and international economic, legal and regulatory factors unrelated to our performance.

78. *You will not be able to sell immediately on Stock Exchange any of the Equity Shares you purchase in the Issue until the Issue receives appropriate trading permissions.*

The Equity Shares will be listed on the Stock Exchange. Pursuant to Indian regulations, certain actions must be completed before the Equity Shares can be listed and trading may commence. We cannot assure you that the Equity Shares will be credited to investor's demat accounts, or that trading in the Equity Shares will commence, within the time periods specified in the Red Herring Prospectus. Any failure or delay in obtaining the approval would restrict your ability to dispose of the Equity Shares. In accordance with section 40 of the Companies Act, 2013, in the event that the permission of listing the Equity Shares is denied by the stock exchanges, we are required to refund all monies collected to investors.

79. *QIB and Non-Institutional investors are not permitted to withdraw or lower their Bids (in terms of quantity of Equity Shares or the Bid Amount) at any stage after submitting the Bid.*

Pursuant to SEBI ICDR Regulations, QIBs and Non-Institutional investors are not permitted to withdraw or lower their Bids (in terms of quantity of Equity Shares or the Bid Amount) at any stage after submitting the Bid. Individual Investors can revise their Bid during the Bid Period and withdraw their Bids until Bid Closing date. While our Company is required to complete Allotment pursuant to Issue within four working days from the Bid Closing date, events affecting the Bidders decision to invest in Equity Shares, including material adverse changes in international or national monetary policy, financial, political or economic conditions, our business, result of operations or financial condition may arise between the date of submission of the Bid and allotment. Our Company may complete the allotment of Equity shares even if such events occur, and such events limit the Bidders ability to sell the Equity Shares allotted pursuant to the Issue or cause the trading price of Equity Shares to decline on listing.

80. *Sale of Equity Shares by our Promoter or other significant shareholder(s) may adversely affect the trading price of the Equity Shares.*

Any instance of disinvestments of equity shares by our Promoter or by other significant shareholder(s) may significantly affect the trading price of our Equity Shares. Further, our market price may also be adversely affected even if there is a perception or belief that such sales of Equity Shares might occur.

EXTERNAL RISKS FACTORS

Industry Related Risks

81. *Changes in government regulations or their implementation could disrupt our operations and adversely affect our business and results of operations.*

Our business and industry are regulated by different laws, rules and regulations framed by the Central and State Government. These regulations can be amended/ changed on a short notice at the discretion of the Government. If we fail to comply with all applicable regulations or if the regulations governing our business or their implementation change adversely, we may incur increased costs or be subject to penalties, which could disrupt our operations and adversely affect our business and results of operations.

82. *A slowdown in economic growth in India could have an adverse effect on our business, results of operations, financial condition and cash flows.*

Our performance and growth are, and will be, dependent to a large extent on the health of the Indian economy and consumption spending by households. Economic growth in India is affected by various factors including domestic consumption and savings, rate of inflation in India, balance of trade movements, and global economic uncertainty. Most of our assets and employees are located in India, and we intend to continue to develop and expand in India.

Inflation, measures to combat inflation and public speculation about possible governmental actions to combat inflation have also contributed significantly to economic uncertainty in India and heightened volatility in the Indian capital markets. Periods of higher inflation may also slow the growth rate of the Indian economy and increase some of our costs and expenses. To the extent that the demand for our products decreases or costs and expenses increase, and we are not able to pass those increases in costs and expenses on to our customers, our operating margins and operating income may be adversely affected, which could have a material adverse effect on our business, financial condition and results of operations.

Other Risks

83. Changing laws, rules and regulations and legal uncertainties, including adverse application of tax laws, may adversely affect our business and financial performance.

The regulatory and policy environment in India is evolving and subject to change. Such changes in applicable law and policy in India, including the instances described below, may adversely affect our business, financial condition, results of operation, performance and prospects in India, to the extent that we are not able to suitably respond to and comply with such changes.

For instance, in November 2016, the Government of India demonetized certain – high value denominations of currency. Trading and retail businesses in India were impacted for a limited period of time on account of such demonetization. Such businesses have subsequently needed to introduce additional point of sale instruments to improve their collection process.

The Government of India implemented a comprehensive national goods and service tax (“GST”) regime that combines taxes and levies by the central and state governments into a unified rate structure from July 01, 2017, which we believe will result in fundamental changes. However, given its recent introduction, there is no established practice regarding the implementation of, and compliance with, GST. The implementation of the new GST regime has increased the operational and compliance burden for Indian companies and has also led to various uncertainties. Any future increases and amendments to the GST regime may further affect the overall tax efficiency of companies operating in India and may result in significant additional taxes becoming payable. Our business and financial performance could be adversely affected by any unexpected or onerous requirements or regulations resulting from the introduction of GST or any changes in laws or interpretation of existing laws, or the promulgation of new laws, rules and regulations relating to GST, as it is implemented. Further, as GST is implemented, there can be no assurance that we will not be required to comply with additional procedures and/or obtain additional approvals and licenses from the government and other regulatory bodies or that they will not impose onerous requirements and conditions on our operations. Any such changes and the related uncertainties with respect to the implementation of GST may have a material adverse effect on our business, financial condition and results of operations.

Further, the General Anti Avoidance Rules came into effect on April 1, 2017. The effect of the application of these provisions to our business in India is at present uncertain. Furthermore, the Finance Act, 2019 instituted a number of amendments to the existing direct and indirect tax regime which includes the withdrawal of long-term capital gains exemptions on equity shares, long term capital gains applicability in the hands of Foreign Institutional Investors and applicability of dividend distribution tax for certain transactions with shareholders, among others.

84. Political instability or a change in economic liberalization and deregulation policies could seriously harm business and economic conditions in India generally and our business in particular.

The Government of India has traditionally exercised and continues to exercise influence over many aspects of the economy. Our business and the market price and liquidity of our Equity Shares may be affected by interest rates, changes in Government policy, taxation, social and civil unrest and other political, economic or other developments in or affecting India. The rate of economic liberalization could change, and specific laws and policies affecting the information technology sector, foreign investment and other matters affecting investment in our securities could change as well. Any significant change in such liberalization and de-regulation policies could adversely affect business and economic conditions in India, generally, and our business, prospects, financial condition and results of operations, in particular.

85. *We cannot guarantee the accuracy or completeness of facts and other statistics with respect to India, the Indian economy and industry in which our company operates contained in the Red Herring Prospectus.*

While facts and other statistics in this Red Herring Prospectus relating to India, the Indian economy and the industry in which our company operates has been based on various government publications and reports from government agencies that we believe are reliable, we cannot guarantee the quality or reliability of such materials. While we have taken reasonable care in the reproduction of such information, industry facts and other statistics have not been prepared or independently verified by us or any of our respective affiliates or advisors and, therefore we make no representation as to their accuracy or completeness. These facts and other statistics include the facts and statistics included in the chapter titled ***“Our Industry”*** beginning on page 144. Due to possibly flawed or ineffective data collection methods or discrepancies between published information and market practice and other problems, the statistics herein may be inaccurate or may not be comparable to statistics produced elsewhere and should not be unduly relied upon. Further, there is no assurance that they are stated or compiled on the same basis or with the same degree of accuracy, as the case may be, elsewhere.

86. *Financial instability in Indian financial markets could adversely affect our Company’s results of operations and financial condition.*

In this globalized world, the Indian economy and financial markets are significantly influenced by worldwide economic, financial and market conditions. Any financial turmoil, say in the United States of America, Europe, China or other emerging economies, may have a negative impact on the Indian economy. Although economic conditions differ in each country, investors’ reactions to any significant developments in one country can have adverse effects on the financial and market conditions in other countries. A loss in investor confidence in the financial systems, particularly in other emerging markets, may cause increased volatility in Indian financial markets. Indian financial markets have also experienced the contagion effect of the global financial turmoil. Any prolonged financial crisis may have an adverse impact on the Indian economy, thereby resulting in a material and adverse effect on our Company's business, operations, financial condition, profitability and price of its Shares. Stock exchanges in India have in the past experienced substantial fluctuations in the prices of listed securities.

87. *Conditions in the Indian securities market may affect the price or liquidity of our Equity Shares.*

The Indian securities markets are smaller than securities markets in more developed economies and the regulation and monitoring of Indian securities markets and the activities of investors, brokers and other participants differ, in some cases significantly, from those in the more developed economies. Indian stock exchanges have in the past experienced substantial fluctuations in the prices of listed securities. Further, the Indian stock exchanges have experienced volatility in the recent times. The Indian stock exchanges have also experienced problems that have affected the market price and liquidity of the securities of Indian companies, such as temporary exchange closures, broker defaults, settlement delays and strikes by brokers. In addition, the governing bodies of the Indian stock exchanges have from time-to-time restricted securities from trading and limited price movements. A closure of, or trading stoppage on the EMERGE Platform of National Stock Exchange of India Limited could adversely affect the trading price of the Equity Shares.

88. *Global economic, political and social conditions may harm our ability to do business, increase our costs and negatively affect our stock price.*

Global economic and political factors that are beyond our control, influence forecasts and directly affect performance. These factors include interest rates, rates of economic growth, fiscal and monetary policies of governments, inflation, deflation, foreign exchange fluctuations, consumer credit availability, fluctuations in commodities markets, consumer debt levels, unemployment trends and other matters that influence consumer confidence, spending and tourism. Increasing volatility in financial markets may cause these factors to change with a greater degree of frequency and magnitude, which may negatively affect our stock prices.

89. *Foreign investors are subject to foreign investment restrictions under Indian law that limits our ability to attract foreign investors, which may adversely impact the market price of the Equity Shares.*

Under the foreign exchange regulations currently in force in India, transfers of shares between non-residents and residents are freely permitted (subject to certain exceptions) if they comply with the pricing guidelines and reporting requirements specified by the RBI. If the transfer of shares, which are sought to be transferred, is not in compliance with such pricing guidelines or reporting requirements or fall under any of the exceptions referred to above, then the prior approval of the RBI will be required. Additionally, shareholders who seek to convert the Rupee proceeds from a sale of shares in India into foreign currency and repatriate that foreign currency from India will require a no objection/ tax clearance certificate from the income tax authority. There can be no assurance that any approval required from the RBI or any other government agency can be obtained on any particular terms or at all.

90. *The extent and reliability of Indian infrastructure could adversely affect our Company's results of operations and financial condition.*

India's physical infrastructure is in developing phase compared to that of many developed nations. Any congestion or disruption in its port, rail and road networks, electricity grid, communication systems or any other public facility could disrupt our Company's normal business activity. Any deterioration of India's physical infrastructure would harm the national economy; disrupt the transportation of goods and supplies, and costs to doing business in India. These problems could interrupt our Company's business operations, which could have an adverse effect on its results of operations and financial condition.

91. *Any downgrading of India's sovereign rating by an independent agency may harm our ability to raise financing.*

Any adverse revisions to India's credit ratings for domestic and international debt by international rating agencies may adversely impact our ability to raise additional financing, and the interest rates and other commercial terms at which such additional financing may be available. This could have an adverse effect on our business and future financial performance, our ability to obtain financing for capital expenditures and the trading price of our Equity Shares.

92. *The occurrence of natural or man-made disasters could adversely affect our results of operations, cash flows and financial condition. Hostilities, terrorist attacks, civil unrest and other acts of violence could adversely affect the financial markets and our business.*

The occurrence of natural disasters, including cyclones, storms, floods, earthquakes, tsunamis, tornadoes, fires, explosions, pandemic disease and man-made disasters, including acts of terrorism and military actions, could adversely affect our results of operations, cash flows or financial condition. Terrorist attacks and other acts of violence or war may adversely affect the Indian securities markets. In addition, any deterioration in international relations, especially between India and its neighboring countries, may result in investor concern regarding regional

stability which could adversely affect the price of the Equity Shares. In addition, India has witnessed local civil disturbances in recent years, and it is possible that future civil unrest as well as other adverse social, economic or political events in India could have an adverse effect on our business. Such incidents could also create a greater perception that investment in Indian companies involves a higher degree of risk and could have an adverse effect on our business and the market price of the Equity Shares.

- 1) The Issue is being made in terms of Chapter IX of the SEBI (ICDR) Regulations, 2018, as amended from time to time. This Issue is being made by our company in terms of Regulation of 229 (2) of SEBI ICDR Regulations read with Rule 19(2)(b)(i) of SCRR wherein not less than 25% of the post Issue paid up equity share capital of our company are being offered to the public for subscription.
- 2) The Issue has been authorized by the Board of Directors vide a resolution passed at their meeting held on **March 06, 2025**, and by the Shareholder of our Company, vide a special resolution passed pursuant to the Companies Act, 2013 at the Extra Ordinary General Meeting held on **March 07, 2025**.
- 3) Our company, in consultation with the BRLM, has undertaken a Pre-IPO Placement of 4,22,400 Equity Shares of face value of ₹ 10/- each for an aggregate amount of ₹ 337.92 Lakhs. The size of the Fresh Issue as disclosed in the Draft Red Herring Prospectus, aggregating up to 56,48,000 Equity Shares, has been reduced by 4,22,400 Equity Shares pursuant to the Pre-IPO Placement, and accordingly, the Fresh Issue is for an aggregate up to 52,25,600 Equity Shares of face value of ₹ 10/- each. The Pre-IPO Proceeds has led to corresponding reduction in General Corporate Purposes proceeds.
- 4) In the event of under-subscription in the Employee Reservation Portion (if any), the unsubscribed portion will be available for allocation and Allotment, proportionately to all Eligible Employees who have Bid in excess of two bid lots, subject to the maximum value of Allotment made to such Eligible Employee not exceeding ₹ 500,000. The unsubscribed portion, if any, in the Employee Reservation Portion (after allocation up to ₹ 500,000), shall be added to the Net Issue. The Employee Reservation Portion shall not exceed 5% of our post- Issue paid-up Equity Share capital. For further details, see **"Issue Structure"** beginning on page 344.
- 5) The SEBI ICDR Regulations permit the issue of securities to the public through the Book Building Process, which states that, not less than 15% of the Net Issue shall be available for allocation on a proportionate basis to Non-Institutional Bidders and not less than 35% of the Net Issue shall be available for allocation on a proportionate basis to Individual Bidders and not more than 50% of the Net Issue shall be allotted on a proportionate basis to QIBs, subject to valid Bids being received at or above the Issue Price. Accordingly, we have allocated the Net Issue i.e., not less than 35% of the Net Issue shall be available for allocation to Individual Bidders and not less than 15% of the Net Issue shall be available for allocation to Non-institutional bidders. For further details, see **"Issue Procedure"** beginning on page 349.
- 6) Subject to valid bids being received at or above the Issue Price, under-subscription, if any, in any category except the QIB portion, would be allowed to be met with spill over from any other category or combination of categories at the discretion of our company, in consultation with the BRLM and the Designated Stock Exchange subject to applicable law. In the event of oversubscription, allotment shall be made on a proportionate basis, subject to valid Bids received at or above the Issue Price.
- 7) Our company, in consultation with the BRLM, may allocate up to 60% of the QIB Portion to Anchor Investors on a discretionary basis in accordance with the SEBI ICDR Regulations. One third of the Anchor Investor Portion shall be reserved for domestic Mutual Funds, subject to valid bids being received from domestic mutual funds at or above the price at which Equity Shares are allocated to the Anchor Investors in the issue. In the event of under subscription, or non-allocation in the Anchor Investor Portion, the balance Equity Shares will be added to the Net QIB Portion. For further details, see **"Issue Procedure"** beginning on page 349.
- 8) Not less than 15% of the Issue shall be available for allocation to Non-Institutional Bidders of which one-third of the Non-Institutional Portion will be available for allocation to Bidders with an application size of more than two bid lots and up to such lots of equivalents to not more than ₹ 10.00 Lakhs and two-thirds of the Non-Institutional Portion will be available for allocation to Bidders with an application size of more than ₹ 10.00 lakhs and under-subscription in either of these two sub-categories of Non-Institutional Portion may be allocated to Bidders in the other sub-category of Non-Institutional Portion.

For further details please refer to section titled **"Issue Information"** beginning on page 335.

DETAILS OF THE MARKET MAKING ARRANGEMENT

Our Company and the Book Running Lead Manager have entered into a Market Making agreement dated **March 29, 2025** with the following Market Maker, duly registered with National Stock Exchange of India Limited to fulfil the obligations of Market Making:

Holani Consultants Private Limited

401 – 405 & 416 – 418 4th Floor,
Soni Paris Point, Jai Singh Highway,
Bani Park, Jaipur – 302016, Rajasthan

Telephone: +91 – 141 – 2203996

E-mail ID: broking@holaniconsultants.co.in

Website: www.holaniconsultants.co.in

Contact Person: Mr. Suraj Joshi

SEBI Registration No.: INZ000299835

Market Maker Registration No.: (SME segment of NSE): 90225

Holani Consultants Private Limited, registered with EMERGE Platform of National Stock Exchange of India Limited (“**NSE EMERGE**”), will act as the Market Maker and has agreed to receive or deliver of the specified securities in the market making process for a period of three years from the date of listing of our Equity Shares or for a period as may be notified by any amendment to SEBI (ICDR) Regulations, 2018.

The Market Maker shall fulfil the applicable obligations and conditions as specified in the SEBI ICDR Regulations, 2018, as amended from time to time and the circulars issued by NSE and SEBI in this matter from time to time.

Following is a summary of the key details pertaining to the Market Making arrangement:

1. The Market Maker(s) (individually or jointly) shall be required to provide a 2 – way quote for 75% of the time in a day. The same shall be monitored by the Stock Exchange. The Spread (difference between the sell and buy quote) shall not be more than 10% or as specified by the Stock Exchange. Further, the Market Maker(s) shall inform the Exchange in advance for each and every black out period when the quotes are not being offered by the Market Maker(s).
2. The Prices quoted by Market Maker shall be in compliance with the Market Maker Spread Requirements and other particulars as specified or as per the requirements of EMERGE Platform of NSE and SEBI from time to time.
3. The minimum depth of the quote shall be ₹ 1,00,000/-. However, the investors with holdings of value less than ₹ 1,00,000/- shall be allowed to offer their holding to the Market Maker(s) (individually or jointly) in that scrip provided that he sells his entire holding in that scrip in one lot along with a declaration to the effect to the selling broker. Based on the IPO price of ₹ [●]/- per share the minimum lot size is [●] Equity Shares of face value of Rs. 10 each thus minimum depth of the quote shall be ₹ [●]/- until the same, would be revised by EMERGE Platform of NSE.
4. After a period of three (3) months from the market making period, the Market Maker would be exempted to provide quote if the Shares of Market Maker in our Company reaches to 25% of Issue Size (including the [●] Equity Shares of face value of ₹ 10 each out to be allotted under this Issue). Any Equity Shares allotted to Market Maker under this Issue over and above 25% Equity Shares would not be taken in to consideration of computing the threshold of 25% of issue size. As soon as

the Shares of Market Maker in our Company reduce to 24% of Issue Size, the Market Maker will resume providing 2–way quotes.

5. There shall be no exemption/threshold on downside. However, in the event the Market Maker exhausts his inventory through market making process, EMERGE Platform of NSE may intimate the same to SEBI after due verification.
6. Execution of the order at the quoted price and quantity must be guaranteed by the Market Maker(s), for the quotes given by him.
7. There would not be more than five Market Makers for the Company's Equity Shares at any point of time and the Market Makers may compete with other Market Makers for better quotes to the investors. At this stage, Holani Consultants Private Limited is acting as the sole Market Maker.
8. On the first day of the listing, there will be pre – opening session (call auction) and there after the trading will happen as per the equity market hours. The circuits will apply from the first day of the listing on the discovered price during the pre-open call auction. The securities of the company will be placed in SPOS and would remain in Trade for Trade settlement for 10 days from the date of listing of Equity share on the Stock Exchange.
9. The shares of the Company will be traded in continuous trading session from the time and day the company gets listed on EMERGE Platform of NSE and market maker will remain present as per the guidelines mentioned under NSE and SEBI circulars.
10. Price Band and Spreads: SEBI Circular bearing reference no: CIR/MRD/DP/ 02/2012 dated January 20, 2012, has laid down that for Issue size up to ₹ 250 crores, the applicable price bands for the first day shall be:
 - In case equilibrium price is discovered in the Call Auction, the price band in the normal trading session shall be 5% of the equilibrium price.
 - In case equilibrium price is not discovered in the Call Auction, the price band in the normal trading session shall be 5% of the Issue price.

Additionally, the trading shall take place in TFT segment for first 10 days from commencement of trading. The following spread will be applicable on the SME Exchange Platform.

S. No.	Market Price Slab (in ₹)	Proposed Spread (in % to Sale Price)
1	Up to 50	9
2	50 to 75	8
3	75 to 100	6
4	Above 100	5

11. There will be special circumstances under which the Market Maker may be allowed to withdraw temporarily/fully from the market – for instance due to system problems, any other problems. All controllable reasons require prior approval from the Exchange, while force – majeure will be applicable for non – controllable reasons. The decision of the Exchange for deciding controllable and non – controllable reasons would be final.
12. The Market Maker(s) shall have the right to terminate said arrangement by giving one – month notice or on mutually acceptable terms to the Book Running Lead Manager, who shall then be responsible to appoint a replacement Market Maker(s).

In case of termination of the above – mentioned Market Making agreement prior to the completion of the compulsory Market Making period, it shall be the responsibility of the Book Running Lead Manager to arrange for another Market Maker(s) in replacement during the term of the notice period being served by the Market Maker but prior to the date of releasing the existing Market Maker from its duties in order to ensure compliance with the requirements of regulation 261 of the SEBI (ICDR) Regulations. Further the Company and the Book Running Lead Manager reserve the right to appoint other Market Maker(s) either as a replacement of the current Market Maker or as an additional Market Maker subject to the total number of Designated Market Makers does not exceed 5 (five) or as specified by the relevant laws and regulations applicable at that particular point of time. The Market Making Agreement is available for inspection at our Corporate Office from 11.00 a.m. to 5.00 p.m. on working days.

13. EMERGE Platform of NSE will have all margins which are applicable on the NSE EMERGE viz., Mark – to – Market, Value – At – Risk (VAR) Margin, Extreme Loss Margin, Special Margins and Base Minimum Capital etc. EMERGE Platform of NSE can impose any other margins as deemed necessary from time-to-time.
14. EMERGE Platform of NSE will monitor the obligations on a real time basis and punitive action will be initiated for any exceptions and/or non – compliances. Penalties/ fines may be imposed by the Exchange on the Market Maker, in case he is not able to provide the desired liquidity in a particular security as per the specified guidelines. These penalties/ fines will be set by the Exchange from time to time. The Exchange will impose a penalty on the Market Maker(s) in case he is not present in the market (offering two – way quotes) for at least 75% of the time. The nature of the penalty will be monetary as well as suspension in market making activities/ trading membership.

The Department of Surveillance and Supervision of the Exchange would decide and publish the penalties/ fines/ suspension for any type of misconduct/ manipulation/ other irregularities by the Market Maker from time to time.

15. Pursuant to SEBI Circular number CIR/MRD/DSA/31/2012 dated November 27, 2012, limits on the upper side for Market Makers during market making process has been made applicable, based on the issue size and as follows:

Issue Size	Buy quote exemption threshold (including mandatory initial inventory of 5% of the Issue Size)	Re-Entry threshold for buy quote (including mandatory initial inventory of 5% of the Issue Size)
Up to ₹ 20 Crore	25%	24%
₹20 crores to ₹ 50 crores	20%	19%
₹50 to ₹80 crores	15%	14%
Above ₹ 80 crores	12%	11%

The Market Making arrangement, trading and other related aspects including all those specified above shall be subject to the applicable provisions of law and/or norms issued by SEBI/ EMERGE Platform of NSE from time to time.

16. All the above – mentioned conditions and systems regarding the Market Making Arrangement are subject to change based on changes or additional regulations and guidelines from SEBI and Stock Exchange from time to time.
17. The Inventory Management and Buying/Selling Quotations and its mechanism shall be as per the relevant circulars issued by SEBI and NSE Emerge from time to time.
18. The price band shall be 20% and the Market Maker Spread (difference between the sell and the buy quote) shall be within 10% or as intimated by Exchange from time to time.

The above table will be updated in the Prospectus proposed to be filed with Registrar of the Companies (“ROC”) by the company.

Our Promoters have confirmed to our company and the Book Runner Lead Manager that the acquisition of equity shares held by our promoters has been financed from their internal accruals and no loans or financial assistance from any banks or financial institutions have been availed of by them for this purpose.

The minimum Promoters' contribution has been brought in to the extent of not less than the specified minimum lot and from the persons defined as 'promoter' under the SEBI (ICDR) Regulations. The Equity Shares that are being locked in are not ineligible for computation of Promoters' contribution in terms of Regulation 237 of the SEBI ICDR Regulations. In connection, we confirm the following: -

- a) The Equity Shares offered for minimum 20% Promoters' contribution have not been acquired in the three years preceding the date of this Red Herring Prospectus for consideration other than cash and revaluation of assets or capitalization of intangible assets nor resulted from a bonus issue out of the revaluation reserves or unrealized profits of the Company or against Equity Shares which are otherwise ineligible for computation of Promoters' contribution;
- b) The minimum Promoters' contribution does not include Equity Shares acquired during the one year preceding the date of this Red Herring Prospectus at a price lower than the Issue Price;
- c) Our Company has not been formed by the conversion of a partnership firm into a Company and thus, no Equity Shares have been issued to our Promoters upon conversion of a partnership firm;
- d) The Equity Shares held by the Promoters and offered for minimum Promoters' contribution are not subject to any pledge;
- e) All the Equity Shares of our Company held by the Promoters are held in dematerialized form prior to filing of the Red Herring Prospectus; and
- f) The Equity Shares offered for Promoters' contribution do not consist of Equity Shares for which specific written consent has not been obtained from the Promoters for inclusion of its subscription in the Promoters' contribution subject to lock-in.

22. Details of Share Capital of the Promoters Lock in for two years and one year

In addition to 20% of the post issue paid-up capital of our company held by the Promoters, which will be locked-in for three years, 50% of the balance i.e. [●] Equity Shares of face value of ₹ 10 each held by Promoters shall be locked in for a period of two years and the remaining 50% of the balance i.e. [●] Equity Shares of face value of ₹ 10/- each shall be locked in for a period of one year from the date of allotment in the Initial Public Offer as provided in clause (b) of Regulation 238 of the SEBI (ICDR) Regulations, 2018.

23. Lock in of Equity Shares held by Persons other than the Promoters:

In terms of Regulation 239 of the SEBI (ICDR) Regulations, 2018, the entire pre-issue capital held by the Persons other than the Promoters shall be locked in for a period of one year from the date of allotment in the Initial Public Offer. Accordingly, [●] Equity shares held by the Persons other than the Promoters shall be locked in for a period of one year from the date of allotment in the Initial Public Offer.

24. Inscription or recording of non-transferability:

In terms of Regulation 241 of the SEBI (ICDR) Regulations, 2018, our Company confirms that certificates of Equity Shares which are subject to lock in shall contain the inscription **“Non-Transferable”** and specify the lock-in period and in case such equity shares are dematerialized, the Company shall ensure that the lock in is recorded by the depository.

25. Pledge of Locked in Equity Shares:

In terms of Regulation 242 of the SEBI (ICDR) Regulations, 2018, the Equity Shares held by our Promoters and locked in may be pledged as a collateral security for a loan granted by a scheduled commercial bank or public financial institution or a systemically important non-banking finance company or housing finance company, subject to following;

- In case of Minimum Promoters' Contribution, the loan has been granted to the issuer company or its subsidiary(ies) for the purpose of financing one or more of the Objects of the Issue and pledge of equity shares is one of the terms of sanction of the loan.
- In case of Equity Shares held by Promoters in excess of Minimum Promoters' contribution, the pledge of equity shares is one of the terms of sanction of the loan.

However, lock in shall continue pursuant to the invocation of the pledge and such transferee shall not be eligible to transfer the equity shares till the lock in period stipulated has expired.

26. Transferability of Locked in Equity Shares:

In terms of Regulation 243 of the SEBI (ICDR) Regulations, 2018 and subject to provisions of Securities and Exchange Board of India (Substantial Acquisition of Shares and Takeovers) Regulations, 2011 as applicable;

- The Equity Shares held by our Promoters and locked in as per Regulation 238 of the SEBI (ICDR) Regulations, 2018 may be transferred to another Promoter or any person of the Promoters' Group or to a new promoter(s) or persons in control of our Company, subject to continuation of lock-in for the remaining period with transferee and such transferee shall not be eligible to transfer them till the lock-in period stipulated has expired.
- The equity shares held by persons other than promoters and locked in as per Regulation 239 of the SEBI (ICDR) Regulations, 2018 may be transferred to any other person (including Promoter and Promoters' Group) holding the equity shares which are locked-in along with the equity shares proposed to be transferred, subject to continuation of lock-in for the remaining period with transferee and such transferee shall not be eligible to transfer them till the lock-in period stipulated has expired.

We further confirm that our Promoters contribution of 20% of the post issue equity share capital does not include any contribution from Alternative Investment Fund, Foreign Venture Capital Investors, Scheduled Commercial Banks, Public Financial Institutions, or Insurance Companies registered under IRDA.

27. Our Company, our Directors and the BRLM has not entered into any buy back arrangements for the purchase of Equity Shares being issued through the Issue from any person.

28. As on date of the Red Herring Prospectus, all the equity shares of our company are fully paid-up. Further, since the entire Issue price in respect of the Issue is payable on application, all the successful applicants will be issued fully paid-up equity shares.

29. Neither the BRLM, nor their associates hold any Equity Shares of our Company as on the date of the Red Herring Prospectus.
30. As on date of the Red Herring Prospectus, the investors of our company are not directly/indirectly related with Book Running Lead Manager and their associates.
31. There are no safety net arrangements for this public issue.
32. As per RBI regulations, OCBs are not allowed to participate in this Issue.
33. Our Company has not raised any bridge loan against the proceeds of this Issue. However, depending on business requirements, we may consider raising bridge financing facilities, pending receipt of the Net Proceeds.
34. There are no Equity Shares against which depository receipts have been issued.
35. Our Company undertakes that at any given time, there shall be only one denomination for our Equity Shares, unless otherwise permitted by law.
36. We shall ensure that transactions in Equity Shares by the Promoter and members of the Promoter Group, if any, between the date of filing the Red Herring Prospectus and the Issue Closing Date shall be reported to the Stock Exchange within 24 hours of such transactions being completed.
37. An over-subscription to the extent of 10% of the Issue can be retained for the purpose of rounding off to the nearest multiple of minimum allotment lot, while finalizing the Basis of Allotment. Consequently, the actual Allotment may go up by a maximum of 10% of the Issue, as a result of which, the post-Issue paid up capital after the Issue would also increase by the excess amount of Allotment so made. In such an event, the Equity Shares held by our Promoters and subject to lock- in shall be suitably increased; so as to ensure that a minimum of 20% of the post Issue paid-up capital is locked in.
38. As on date of this Red Herring Prospectus there are no outstanding warrants, options or rights to convert debentures loans or other financial instruments into our Equity Shares.
39. A Bidder cannot make a Bid for more than the number of Equity Shares being issued through this Issue, subject to the maximum limit of investment prescribed under relevant laws applicable to each category of investors.

40. No incentive, whether direct or indirect, in any manner, whether in cash or kind or services or otherwise shall be offered by any person connected with the distribution of the issue to any person for making an application in the Initial Public Offer, except for fees or commission for services rendered in relation to the issue.
41. Our Promoters and the members of our Promoters' Group will not participate in this Issue.
42. None of our Directors or Key Managerial Personnel holds Equity Shares in our Company, except as stated in the chapter titled ***"Our Management-Shareholding of Directors in Our Company"*** and ***"Our Management - Shareholding of the Key Managerial Personnel and Senior Management"*** on page 224 and 235 respectively.

*To be finalized on determination of the Issue Price and updated in the Prospectus prior to filing with the RoC.

Our Board, in its meeting dated **March 15, 2025** approved the utilization of the Net Proceeds towards (i) Investment in Equity of our wholly owned subsidiary, Current Infra Dhanbad Solar Private Limited for

setting up 1800 KW solar plant under RESCO Model at Indian Institute of Technology (Indian School of Mines) IIT(ISM), Dhanbad, Jharkhand (**“Proposed Project”**), (ii) Funding the working capital requirement of our Company and (iii) General Corporate Purposes.

PROPOSED SCHEDULE OF IMPLEMENTATION AND DEPLOYMENT OF FUNDS

Our company proposes to deploy Net Proceeds for the aforesaid purposes in accordance with the estimated schedule of implementation and deployment of funds set forth in the table below:

S. No.	Particulars	Amount proposed to be funded from the Net Proceeds ⁽¹⁾⁽²⁾	(Amount in Lakhs)	
			FY 2025-26	FY 2026-27
1.	Investment in Equity of our wholly owned subsidiary, Current Infra Dhanbad Solar Private Limited for setting up 1800 KW solar plant under RESCO Model at Indian Institute of Technology (Indian School of Mines) IIT(ISM), Dhanbad, Jharkhand (“Proposed Project”)	585.00	585.00	NIL
2.	Funding the working capital requirement of our Company	3,000.00	2,287.25	712.75
3.	General corporate purposes ^{*(2)}	[●]	[●]	[●]
	Total	[●]	[●]	[●]

(1) To be finalized on determination of the Issue Price and updated in the Prospectus prior to filing with the RoC.

(2) The amount utilized for general corporate purposes shall not exceed 15% of the Gross Proceeds of the Issue or ₹ 10 crores whichever is less.

*Our company, in consultation with the BRLM, has undertaken a Pre-IPO Placement of 4,22,400 Equity Shares of face value of ₹ 10 each for an aggregating amount of ₹ 337.92 Lakhs. The Pre-IPO Proceeds shall lead to corresponding reduction in utilization from General Corporate Purposes proceeds and fresh Issue size is accordingly reduced by 4,22,400 Equity Shares pursuant to the Pre-IPO Placement, and accordingly, the Fresh Issue is for an aggregate up to 52,25,600 Equity Shares of face value of ₹ 10 each.

As indicated above, our Company proposes to deploy the entire Net Proceeds (Including General Corporate Purposes) towards the objects as described above during FY 2025-26 and FY 2026-27. However, if the Net Proceeds are not completely utilized for the objects stated above in FY 2025-26 and FY 2026-27 due to factors such as (i) economic and business conditions; (ii) increased competition; (iii) market conditions outside the control of our Company and its management; and (iv) other commercial considerations such as availability of alternate financial resources, the same would be utilised (in part or full) up to FY 2027-28 in accordance with applicable law. Our Company may, however, propose to utilize the proceeds prior to the specific dates mentioned in the schedule of deployment, in accordance with the requirements of our Company. Any such change in our plans may require rescheduling of our expenditure programs and increasing or decreasing expenditure for a particular object vis-à-vis the utilization of Net Proceeds.

For further details, see **“Risk Factor – 24 - Within the parameters as mentioned in the chapter titled “Objects of the Issue” beginning on page 116, our Company’s management will have flexibility in applying the proceeds of this Issue. The fund requirement and deployment mentioned in the Objects of this Issue have not been appraised by any bank or financial institution”** on page 45.

Further, we confirm that no part of the proceeds of the issue shall be utilize for any transaction existing or anticipated with promoters, promotes group, directors, Key managerial personal and group companies or repayment of any part of unsecured loan availed from promoters and promoter groups outstanding as on date of this Red Herring Prospectus.

MEANS OF FINANCE

We intend to finance our objects of the issue, through net issue proceeds. Accordingly, we confirm that we are in compliance with the requirement to make the firm arrangements of finance under Regulation 230(1)(e) of the SEBI (ICDR) Regulations and clause 9 (C) of Part A Schedule VI of the SEBI ICDR Regulations

which require firm arrangement of finance through verifiable means for 75% of stated means of finance, excluding the issue proceeds and existing identifiable internal accruals.

Our fund requirements and deployment of the Net Proceeds with regard to the aforesaid object are based on internal management estimates and on current market conditions and have not been appraised by any external agency or bank or financial institution or other independent agency. They are based on current conditions of our business which are subject to change in the future. Our Company operates in a highly competitive and dynamic industry and may have to revise our estimates from time to time on account of changes in external circumstances or costs, or changes in other financial conditions, business or strategy.

Our historical funding requirements may not be reflected in our future funding plans. In case of variations in the actual utilization of funds earmarked for the purposes set forth above, increased fund requirements may be financed through our internal accruals and/or incremental debt, as required. If the actual utilization towards any of the objects is lower than the proposed deployment, such balance will be used for future growth opportunities including funding existing objects, if required, and general corporate purposes, to the extent that the total amount to be utilized towards the general corporate purposes will not exceed 15% of the Gross Proceeds or ₹ 10 crores whichever is less in compliance with the SEBI ICDR Regulations.

DETAILS OF THE OBJECTS OF THE ISSUE

The details in relation to the objects of the Issue are set forth herein below.

1. *Investment in Equity of our wholly owned subsidiary, Current Infra Dhanbad Solar Private Limited for setting up 1800 KW solar plant under RESCO Model at Indian Institute of Technology (Indian School of Mines) IIT(ISM), Dhanbad, Jharkhand ("Proposed Project")*

Our Company proposes to utilize ₹ 585.00 Lakhs towards investment in our wholly owned Subsidiary, Current Infra Dhanbad Solar Private Limited, which was incorporated on November 19, 2024, in order to set up a Solar Power Plant at Dhanbad, Jharkhand. The proposed investment by our Company will be undertaken for setting up 1800 KW solar plant under the RESCO Model. This will help us to generate fixed recurring revenue for the next 25 years. As our investment is in a wholly owned subsidiary (**WOS**) of our company, all profits and cash flows generated from the projects undertaken by it will be directly attributed to us, which will have a positive impact on the financials of our company over the due course of time. Our "**WOS**" company will manage all aspects of the project, including financing, operations, and delivery. Additionally, the dedicated focus of "**WOS**" company on this specific project allows for more efficient resource allocation, quicker decision-making, and better overall project management. Our wholly owned subsidiary company Board by its resolution dated **March 12, 2025** has approved the proposal to set up the Proposed Project of setting up power plant of 1800 KW.

The Solar Power Plant project of 1800 KW under RESCO Model is for the development, generation and supply of electricity from the Rooftop Solar Power Project and supply such electricity to the IIT (ISM). Our **WOS** company will be responsible for the design, supply, erection, testing, commissioning, operations and maintenance of power plants. Our WOS company has executed a Power Purchase Agreement (PPA) on March 12, 2025 with the IIT (ISM) wherein IIT (ISM) shall purchase the entire electricity units generated from the 1800 KW solar plant from us for a period of 25 years at ₹ 4/- per unit. The estimated electric units to be generated from the 1800 KW solar plant shall be 25,26,900 units annually calculated as per PVsyst report dated **March 22, 2025**.

Estimated Cost

The total estimated cost of the "**Proposed Project**" is ₹ 632.26 Lakhs of which our Company proposes

to utilise ₹ 585.00 Lakhs from the Net Proceeds for the capital expenditure requirements for setting up the Proposed Project, as per the detailed project report dated March 17, 2025 (“DPR”) prepared and issued by Gopal Agarwal, Chartered Engineer & approved valuer having membership no. F-121478-7 of Institute of Engineer. A project feasibility and viability section has also been conducted by Gopal Agarwal and is included in the DPR, along with site comparisons and the Proposed Project has been certified as economically and technically feasible and viable. The fund requirements, the deployment of funds and the intended use of the Net Proceeds for the Proposed Project as described herein are based on our current business plan, management estimates, current and valid quotations from suppliers or purchase orders issued to suppliers/vendors, and other commercial and technical factors. However, such total estimated cost and related fund requirements have not been appraised by any bank or financial institution.

The total estimated cost for setting up the Proposed Project comprises the following:

Reasons for raising additional working capital

Our company is involved in diverse services, such as Solar EPC, Electrical EPC, Civil Contracts EPC and Project Management Services. As demand for these services increases, especially in sectors like renewable energy, it necessitates higher working capital to manage growing operational costs, procurement of materials and project execution.

Our company in the past has already executed various types of EPC contracts having aggregate value of ₹ 23,209.06 Lakhs. For more details on the completed projects of our Company, please refer to the chapter titled **“Our Business- Our Completed Projects”** on page 184. Due to our ability to execute the projects successfully as done in past, our company has secured various projects from our customers having aggregate value of ₹ 28,050.64 Lakhs as of July 31, 2025, which needs to be executed in FY 2025-26 and FY 2026-27. For complete details of our contracts or order book, please refer to our chapter titled **“Our Business- Our Competitive Strengths”** on page 176.

Rationale for increase in working Capital from FY 24 to FY 25:

The increase in working capital from ₹ 2,119.68 Lakhs in FY 24 to ₹ 3,375.53 Lakhs in FY 25 is in proportionate to the growth and expansion of the business of our company during that period. During the FY 25, the revenue of operations of company increased from ₹ 7,756.78 Lakhs to ₹ 9,970.59 Lakhs leading to growth of 17.17% which resulted in increase in working capital requirements of our company. In % terms Issuer company working capital gap was ₹ 2,119.68 Lakhs in FY 24 which was 27.32% of sales of FY 24 whereas working capital gap for the FY 25 was ₹ 3,375.53 Lakhs which was 33.85% of sales of FY 25.

The reasons behind such increase in the working capital was due to increase in the trade receivables days from 78 days to 104 days and trade payables days from 37 days to 60 days. At the same time, the raw material holding days increase to 75 days in FY 25 from 68 days in FY 24. The increase in trade receivables holding period of the company was more than the increase in the trade payables holding period of the company as trade receivable holding period increased from 78 days in FY24 to 104 days in FY25 whereas the increase in the trade payable holding days increased from 37 days to 60 days in FY25.

Further there was an increase in the revenue of the company by 28.54% in FY25. With the increase in the business of the company, we were required to maintain a higher level of inventory in order to execute the work orders without any delays and ensuring timely completion of the projects. This led to an increase in the raw material inventory level of our company in FY25 which increased from ₹ 1,165.15 Lakh to ₹ 1,605.55 Lakhs in FY25.

Therefore, due to increase in the raw material holding levels and additional increase in the trade receivables of the company, the working capital gap of our company increased from ₹ 2,119.68 Lakhs in FY24 to ₹ 3,375.53 Lakhs in FY25.

Rationale for increase in working Capital from FY 23 to FY 24:

The increase in working capital from ₹ 1,330.62 Lakhs in FY 23 to ₹ 2,119.68 to FY 24 is in proportionate to the growth and expansion of the business of our company during that period. During the FY 24, the revenue of operations of company increased from ₹ 6,096.10 Lakhs to ₹ 7,756.78 Lakhs leading to growth of 27.24% which resulted in increase in working capital requirements of our company. In % terms Issuer company working capital gap was ₹ 1,330.62 in FY 23 which was 21.82 % of sales of FY 23 whereas working capital gap for the FY 24 was ₹ 2,119.68 which was 27.32% of sales of FY 24.

The reasons behind such increase in the working capital was due to decrease in the trade receivables days from 86 days to 78 days and trade payables days from 73 days to 37 days. At the same time, the raw material holding days increase to 68 days in FY 24 from 53 days in FY 23. The decrease in trade receivables holding days during the FY 24, as the delayed projects in FY 22 and FY 23, were completed in FY 24. This resulted in resumption of normal payment/collection period from the customers of our company which led to a decrease in the trade receivable holding days from 86 days to 78 days.

Once the delayed projects in hand were completed in FY 24, our company made early payments to their suppliers, which led to a decrease in the trade payable holding days. Further, to receive better cash discounts, more favourable trade deals and improving supplier relationship, our company chose to make early and advance payments to its suppliers which also contributed in reduction of trade payable holding days from 73 days in FY 23 to 37 days in FY 24.

Further, as the delayed projects of our company were completed in the FY 24, we required more raw material in its inventory in order to avoid any halt in the project site as raw material is procured from across India and general transit time for raw material to reach the construction sites from the date of order is around 30-45 days. If there any unavailability of raw material at a project site, it may lead to a further delay in the execution of the project which will impact the business and the financials of our company. Therefore, the increased the level of our inventory of raw material and the raw material holding days increased from 53 days in FY 23 to 68 days in FY 24 to complete the orders in hand. With the decrease in the trade receivable holding days and increase in raw material holding days and decrease in the trade payable holding days in FY 24, the working capital increased.

- **Significant increase in Inventories of our Company in FY24:** In FY 24 due to increased work orders and revenue generated from the completed projects, the turnover increased from ₹ 6,096.10 Lakhs in FY 23 to ₹ 7,756.78 Lakhs in FY 24 making a 27.24% increase in the revenue of operations. This increase was majorly attributed due to the delayed projects of our company in FY 23, which were completed in the FY 24. This increase in turnover is a result of improved project execution and the successful conversion of work orders into billed revenue. The ongoing and new work orders increased led to an increase in the demand of raw material at the project sites and we required more raw material in its inventory in order to avoid any delay in the project completion. Our company was required to maintain adequate stock of raw materials to meet tighter project timelines, ensuring timely deliveries and execution of the projects. Therefore, our company increased its raw material inventory from ₹ 738.08 Lakhs in FY 23 to ₹ 1,165.15 Lakhs in FY 24.
- **Significant increase in Trade Receivables of our Company in FY24:** The rise in the trade receivables in FY 24 proportionately coincides with a significant increase in our revenue, which grew from Rs. 6,096.10 Lakhs in FY 23 to Rs. 7,756.78 Lakhs in FY 24, reflecting a growth of 27.25%. We have started receiving the amount of delayed projects after completion of the same and to support this growth, we offered more relaxed credit terms to customers to boost its sales and attract new clients. This strategic approach led to a rise in trade receivables during FY24.

Basis of estimation of working capital requirement

On the basis of our order book and our past experience we have estimated the working capital requirement of our Company and projections for such working capital requirements for FY 2025-26 and

FY 2026-27. Our Board pursuant to its resolution dated **March 15, 2025** has approved the projected working capital requirements. Thus, based on the estimation and assumption, we have estimated our funds requirements for procuring raw materials, managing operational costs and bridging cash flow gaps in the next two financial years and the proposed funding of such working capital requirements as set forth below:

Justifications for Holding Period levels:

Justifications for holding period level mentioned in the table above are provided below:

Particulars	Justification for Holding Levels
Inventories of Raw	Our company is an infrastructure construction, development, operations and maintenance company

Particulars	Justification for Holding Levels
Materials	with expertise across a wide range of services. We specialize in Engineering, Procurement and Construction (EPC) services, offering comprehensive solutions in Solar EPC, Electrical EPC, Water EPC and Civil EPC contracts, which include interior and civil works, as well as road furniture, all on a fixed-sum turnkey basis. In this regard, our company procure raw material which is essential for rendering the service from various regions of India. Further to ensure the smooth functioning of our work at various construction sites, our company in past maintains the raw material inventory at 53 days, 68 days, and 75 days of raw material consumption for the FY 23, FY24 and FY25. Our company has on date of this RHP has order book of Rs. 28,050.64 Lakhs. This order book is more than twice of our existing turnover and, therefore, to fulfill the order book we need to estimate our inventory of raw materials based on the future contract in hand. Our company has estimated raw materials based on work contracts in hand and timings for their execution and estimated holding levels to 68 days each for the FY26 and FY27 based on past trends.
Trade Receivables	Our company generally provides services on credit to our customers for a credit period of 86 days, 78 days and 104 days in the FY23, FY24 and FY25 respectively, which is as per the acceptable business practice in the similar trade. Our company has estimated holding levels of 78 days each for FY26 and FY27 respectively based on the holding levels on past trends. Our management believes that the proposed credit period to our customers is reasonable for our business operations.
Trade Payables	The company's trade payables predominantly comprise of payables towards the purchase of raw materials. The trade payable days were approximately 73 days, 37 days and 60 days of purchases for FY23, FY24 and FY25 respectively. Our Company has proposed to utilize a part of the fresh issue proceeds towards working capital requirements which will lead to payment to creditors and a reduction in the outstanding days payable. Hence trade payables days are estimated at 13 days and 7 days of purchases for FY26 and FY27 respectively which will enable our Company to get better terms from our vendors. This would help us to avail good cash discounts and negotiate with our vendors on better price to our advantage.

3. General corporate purposes

The Net Proceeds will first be utilized for the objects as set out above. Subject to this, our Company intends to deploy any balance left out of the Net Proceeds, aggregating up to ₹ [●] Lakhs, towards general corporate purposes and the business requirements of our Company, as approved by our management, from time to time, subject to such utilization for general corporate purposes not exceeding 15% of the Gross Proceeds or ₹ 10 crores whichever is less, in compliance with the SEBI ICDR Regulations.

In accordance with the policies set up by our Management, we have flexibility in applying the remaining Net Proceeds, for general corporate purpose including but not restricted to the following:

- Strategic initiatives;
- brand building exercises;
- Funding growth opportunities and
- On – going general corporate exigencies, which the Company in the ordinary course of business may not foresee or any other purposes as approved by our Board of Directors, subject to compliance with the necessary provisions of the Companies Act.

We confirm that any issue related expenses shall not be considered as a part of general corporate purpose. Further, we confirm that the amount for general corporate purpose, as mentioned in the Red Herring Prospectus, shall not exceed 15% of the amount being raised by our company through this issue or ₹ 10 crores, whichever is less, in compliance with SEBI ICDR Regulations.

The quantum of utilization of funds towards each of the above purposes will be determined by our Board of Directors based on the permissible amount actually available under the head “**General Corporate Purposes**” and the business requirements of our Company, from time to time. We, in accordance with the policies of the Board, will have flexibility in utilizing the Net Proceeds for general corporate purposes, as mentioned above.

Some of the information presented in this section relating to our Company is derived from the Restated Financial Information. For details, see the chapter titled "**Financial Statements as Restated**" and "**Other Financial Information**" beginning on pages 246 and 280 respectively.

Some of the quantitative factors which may form the basis for calculating the Issue Price are as follows:

I. Basic and Diluted Earnings per share ("EPS") as per the Restated Financial Information (Pre-Issue).

Financial Year	Basic EPS (₹)	Diluted EPS (₹)	Weights
March 31, 2025	7.00	7.00	3
March 31, 2024	3.77	3.77	2
March 31, 2023	1.11	1.11	1
Weighted Average EPS	2.61		

Notes:

1. Basic and diluted earnings EPS calculations are in accordance with AS-20 'Earnings Per Share', notified under section 133 of Companies Act, 2013 read together along with paragraph 7 of Companies (Accounts) Rules, 2014.
2. Basic Earnings per share = Net profit after tax as restated attributable to equity shareholders for the year/Weighted average number of equity shares outstanding during the year.
3. Diluted Earnings per share = Net profit after tax as restated attributable to equity shareholders for the year/Weighted average number of diluted equity shares outstanding during the year.
4. The weighted average basic and diluted EPS is a product of basic and diluted EPS and respective assigned weight, dividing the resultant by total aggregate weight .i.e. (EPS x Weight) for each year/Total of weights.
5. Weighted Average Number of Equity Shares is the number of equity shares outstanding at the beginning of the year adjusted by the number of equity shares issued during the year multiplied by the time weighting

factor. The time weighing factor is the number of days for which the specific shares are outstanding as a proportion of total number of days during the year.

6. The figures disclosed above are based on the Restated Financial Statements of our Company.
7. The face value of each Equity Share is ₹ 10/- each.

II. Price/Earning ("P/E") ratio in relation to Price Band of ₹ [●]/- to ₹ [●]/- per Equity Share:

Particulars	P/E at Floor Price (Number of times)	P/E at Cap Price (Number of times)
P/E based on Basic & Diluted EPS for FY 2024-25	[●]	[●]

Industry Peer Group P/E ratio

Based on the peer group, relevant information (excluding our Company) is given below in this section:

Particulars	P/E Ratio
Highest	27.54
Lowest	7.42
Industry Composite	17.48

Notes:

- (1) The industry high and low has been considered from the industry peer set provided later in this chapter. The Industry Composite has been calculated as the arithmetic average P/E of the industry peer set disclosed in this section. For further details, see "**Comparison of Accounting Ratios with listed industry peers**" on page 132.
- (2) The industry P/E ratio mentioned above is as computed based on closing price the closing market price of equity shares on Stock exchange (National Stock Exchange of India Limited and BSE Limited) as on August 07, 2025 divided by diluted EPS for the financial year ended March 31, 2025.

III. Return on Net Worth ("RoNW")

As derived from the Restated Financial Statements of our Company:

Financial Year	RoNW (%)	Weight
March 31, 2025	39.84%	3
March 31, 2024	35.65%	2
March 31, 2023	16.25%	1
Weighted Average	32.52%	

Notes:

- (1) Return on Net Worth (%) = Net Profit/(Loss) after tax before other comprehensive income (as restated) divided by net worth at the end of the year.
- (2) Net worth has been computed as a sum of paid-up share capital and other equity excluding capital reserve on amalgamation.
- (3) Weighted average number of Equity Shares is the number of Equity Shares outstanding at the beginning of the year adjusted by the number of Equity Shares issued during the year multiplied by the time weighting factor. The time weighting factor is the number of days for which the specific shares are outstanding as a proportion of total number of days during the year.
- (4) The Weighted Average Return on Net Worth is a product of Return on Net Worth and respective assigned weight, dividing the resultant by total aggregate weight.

IV. Net Asset Value per Equity Share (Face Value of ₹ 10/- each)

Net Asset Value per Equity Share	Amount in (₹)
Net Asset Value per Equity Share as on March 31, 2025	17.58

Net Asset Value per Equity Share	Amount in (₹)
Net Asset Value per Equity Share after the Issue – At Cap Price	[●]
Net Asset Value per Equity Share after the Issue – At Floor Price	[●]
Issue Price per Equity Share	[●]

Notes:

- (1) Net Asset Value per Equity Share = Net worth at the end of the respective year by the weighted average number of equity shares outstanding as at the end of respective year.
- (2) Net worth has been computed as a sum of paid-up share capital and reserve & surplus.
- (3) Issue Price per Equity Share will be determined on conclusion of the Book Building Process.

STATEMENT OF SPECIAL TAX BENEFITS

To,

The Board of Directors
Current Infraprojects Limited
A-27, Basant Vihar, Vaishali Marg (West),
Panchyawala, Jaipur, Rajasthan, 302034

Dear Sir(s),

Sub: Statement of Special Tax Benefits ('the statement') available to Current Infraprojects Limited (the "Company"), the shareholders of the Company prepared to comply with the requirements of the Securities and Exchange Board of India (Issue of Capital and Disclosure Requirements) Regulations, 2018, as amended (the 'SEBI ICDR Regulations').

1. We, M/s. Rajvanshi & Associates, Chartered Accountants, the Statutory Auditors of the Company, hereby report that the **Enclosed Statement and its Annexure A** is in connection with (i) the special tax benefits available to (i) the Company and, (ii) to the shareholders of the Company, under applicable tax laws presently in force in India including the Income Act, 1961 (**Act**), the Central Goods and Services Tax Act, 2017, the Integrated Goods and Services Tax Act, 2017 and the applicable states' Goods and Services Tax Act, the Finance Act, 2021, the Foreign Trade Policy and Handbook of Procedures, Customs Act, 1962, State Industrial Incentive Policies and rules made under any of the aforementioned legislations.

Several of these benefits are dependent on the Company or its shareholders fulfilling the conditions prescribed under the relevant statutory provisions. Hence, the ability of the Company or its shareholders to derive the special tax benefits is dependent upon fulfilling such conditions, which are based on business imperatives the Company faces in the future, the Company may or may not choose, or be able, to fulfil.

2. The benefits discussed in the enclosed **Annexure A** cover only special tax benefits available to the Company, its shareholders and do not cover any general tax benefits available to the Company. Further, the benefits discussed in the enclosed statement are neither exhaustive nor conclusive. This statement is only intended to provide general information to the investors and is neither designed nor intended to be a substitute for professional tax advice. In view of the individual nature of the tax consequences and changing tax laws, each investor is advised to consult his or her own tax consultant with respect to the specific tax implications arising out of their participation in the Issue. We are neither suggesting nor are we advising the investors to invest or not to invest money based on this statement.
3. We do not express any opinion or provide any assurance as to whether:
 - a. The Company, its shareholders will continue to obtain these benefits in the future; or
 - b. The conditions prescribed for availing of the benefits have been/would be met with.
4. The contents of the enclosed statement are based on information, explanations and representations obtained from the Company and based on our understanding of the business activities and operations of the Company. We undertake to update you of any change in the above-mentioned disclosures until the Equity Shares allotted, pursuant to the Issue, are listed and commence trading on the Stock Exchanges. In the absence of any such communication from us, the above information should be considered as updated information until the Equity Shares commence trading on the Stock Exchanges, pursuant to the Issue.

5. This certificate is for information and for inclusion, in part or in full, in the Red Herring Prospectus (RHP) and the Prospectus to be filed in relation to the Issue (**“collectively the “Offer Documents”**) or any other Issue-related material, and may be relied upon by the Company, the Book Running Lead Managers and the legal advisors to the Issue. We hereby consent to the submission and disclosure of this certificate as may be necessary to the SEBI, the ROC, the Stock Exchanges and any other regulatory or judicial authorities and, or, for any other litigation purposes and, or, for the records to be maintained by the Book Running Lead Managers, in accordance with applicable law.

ANNEXURE A

STATEMENT OF SPECIAL TAX BENEFITS AVAILABLE TO THE COMPANY AND THE SHAREHOLDERS OF THE COMPANY, ITS MATERIAL SUBSIDIARIES UNDER THE DIRECT AND INDIRECT TAX LAWS IN INDIA.

I. SPECIAL TAX BENEFITS AVAILABLE TO THE COMPANY UNDER DIRECT TAXATION

Outlined below are the special tax benefits available to Current Infrastructures Limited (the "Company"), its Shareholders under the Income-tax Act, 1961 (the "Act") as amended by the Finance Act, 2023 applicable for the Financial Year 2024-25 relevant to the Assessment Year 2025-26.

- **Lower corporate tax rate under section 115BAA**

Section 115BAA has been inserted in the Act w.e.f. FY 2019-20. It gives an option to domestic company to be governed by this section from a particular assessment year. If a company opts for section 115BAA of the Act, the company can pay corporate tax at a reduced rate of 25.168% (22% plus surcharge of 10% and education cess of 4%). However once opted for reduced rate of taxation under the said section, it cannot be subsequently withdrawn.

Section 115BAA further provides that domestic companies availing the option will not be required to pay Minimum Alternate Tax (MAT) on their 'book profits' under section 115JB of the Act. However, such a company will no longer be eligible to avail any specified exemptions / incentives under the Act and will also need to comply with the other conditions specified in section 115BAA. Also, if a company opts for section 115BAA, the tax credit (under section 115JAA), if any, which it is entitled to on account of MAT paid in earlier years, will no longer be available.

Further, it shall not be allowed to claim set-off of any brought forward losses arising to it on account of additional depreciation and other specified incentives.

The Company has already evaluated and opted for the lower corporate tax rate of 25.168% (prescribed under section 115BAA of the Act) with effect from AY 2020-21.

Special direct tax benefits available to the Shareholders

There are no special direct tax benefits available to the shareholders.

II. TAX BENEFITS AVAILABLE TO THE COMPANY UNDER INDIRECT TAXES

At present, the company is not entitled to any special tax benefits under the Act.

Special indirect tax benefits available to the Shareholders

The Shareholders of the Company are not entitled to any special tax benefits under the Act

Notes:

1. There are no other special direct and indirect tax benefits that are available to the Company presently.
2. The above Statement sets out the provisions of law in a summary manner only and is not a complete analysis or listing of all potential tax consequences of the purchase, ownership and disposal of shares.

3. For direct tax benefits, this Annexure sets out only the special tax benefits available to the Company, the shareholders under the current Income-tax Act, 1961 i.e., the Act as amended by the Finance Act, 2023 applicable for the Financial Year 2024-25 relevant to the Assessment Year 2025-26, presently in force in India.
4. This Annexure is intended only to provide general information to the investors and is neither designed nor intended to be a substitute for professional tax advice. In view of the individual nature of tax consequences, each investor is advised to consult his/her own tax advisor with respect to specific tax arising out of their participation in the Offer.
5. Our views expressed in this statement are based on the facts and assumptions as indicated in the statement. No assurance is provided that the revenue authorities/courts will concur with the views expressed herein. Our views are based on the existing provisions of law and its interpretation, which are subject to changes from time to time. We do not assume responsibility to update the views consequent to such changes.

GLOBAL ECONOMIC OVERVIEW

GLOBAL PROSPECTUS

Global growth is expected to remain stable yet underwhelming. At 3.2 percent in 2024 and 2025, the growth projection is virtually unchanged. However, notable revisions have taken place beneath the surface, with upgrades to the forecast for the United States offsetting downgrades to those for other advanced economies—in particular, the largest European countries. Likewise, in emerging market and developing economies, disruptions to production and shipping of commodities, especially oil—conflicts, civil unrest, and extreme weather events have led to downward revisions to the outlook for the Middle East and Central Asia and that for sub-Saharan Africa. These have been compensated for by upgrades to the forecast for emerging Asia, where surging demand for semiconductors and electronics, driven by significant investments in artificial intelligence, has bolstered growth. The latest forecast for global growth five years from now—at 3.1 percent—remains mediocre compared with the prepandemic average. Persistent structural headwinds—such as population aging and weak productivity—are holding back potential growth in many economies.

Figure 1.1. Growth and Inflation Revisions
(Percentage points, relative to January 2020 WEO Update)

The past four years have put the resilience of the global economy to the test. A once-in-a-century pandemic, eruption of geopolitical conflicts, and extreme weather events have disrupted supply chains, caused energy and food crises, and prompted governments to take unprecedented actions to protect lives and livelihoods. The global economy has demonstrated resilience overall, but this masks uneven performance across regions and lingering fragilities. The negative supply shocks to the global economy since 2020 have had lasting effects on output and inflation, with varied impacts across individual countries and country groups. The sharpest

contrasts are between advanced and developing economies. Whereas the former have caught up with activity and inflation projected before the pandemic, the latter are showing more permanent scars, with large output shortfalls and persistent inflation (Figure 1.1). They also remain more vulnerable to the types of commodity price surges that followed Russia’s invasion of Ukraine.

Since the beginning of the year, signs have emerged that cyclical imbalances are being gradually resorbed, with economic activity in major economies better aligned with their potential. These developments may have helped bring inflation rates across countries closer together, but the momentum in global disinflation appears to have slowed in the first half of the year. Goods prices have stabilized, and some are declining, but services price inflation remains high in many countries, partly reflecting rapid wage increases, as pay is still catching up with the inflation surge of 2021–22. This has forced some central banks to delay their policy-easing plans, putting public finances under more pressure, especially in countries where debt-servicing costs are already high and refinancing needs significant.

The level of uncertainty surrounding the outlook is high. Newly elected governments (about half of the world population has gone or will go to the polls in 2024) could introduce significant shifts in trade and fiscal policy. Moreover, the return of financial market volatility over the summer has stirred old fears about hidden vulnerabilities. This has heightened anxiety over the appropriate monetary policy stance— especially in countries where inflation is persistent and signs of slowdown are emerging. Further intensification of geopolitical rifts could weigh on trade, investment, and the free flow of ideas. This could affect long-term growth, threaten the resilience of supply chains, and create difficult trade-offs for central banks. On the upside, governments could succeed in building the necessary consensus around overdue and difficult-to-pass structural reforms, which would boost growth and enhance fiscal sustainability and financial stability.

Risk and Challenges

The projected outlook is comparatively benign, with steady or improving growth and moderating inflation. Significant downside risks nonetheless remain, reflecting the uncertainty about ongoing geopolitical conflicts, the pace at which inflation will decline and the lingering impact of still high real interest rates. Potential sources of sticky inflation include the pass-through from continued labour cost growth, elevated mark-ups in some sectors, persistently high shipping costs, and additional geopolitical or trade tensions that raise the costs of imported goods. A slower-than-expected disinflation path might also push up household and corporate inflation expectations once again. Another key downside risk is that growth could slow more sharply than expected in many countries as labour markets cool. Borrowing rates continue to be renegotiated, and debt with very low interest rates is maturing and being replaced by new household and business loans. About 30% of existing corporate debt in advanced economies is due to mature by 2026, with an even higher share in emerging-market economies. Business failures in many advanced economies have also already risen to levels well above those observed prior to the pandemic.

Surprises on either the pace of economic growth or inflation could trigger disruptive corrections in financial markets. The short-lived bout of financial market volatility in early August was partly

triggered by perceived weakness in economic indicators for the United States and the changes to market expectations of policy interest rates and yield differentials with other economies, particularly Japan.

Further deviations from the expected smooth disinflation path could cause financial markets to reassess the likely pace of monetary policy easing, with implications for risk and term premia, potentially exposing vulnerabilities in some financial sectors. The financial implications could be especially pronounced in a high debt environment: total debt as a share of GDP is now markedly higher than in the 2010s or any previous decade for both advanced and emerging market economies. Sizeable near-term debt refinancing is also occurring in some particularly vulnerable markets, such as commercial property.

An upside risk for growth is that consumer confidence could rebound more durably, driving further growth in private consumption. A catalyst could be the ongoing recovery in real incomes, and the associated improvement in household purchasing power, having a surprisingly large positive impact on sentiment. Such a scenario could also induce a decline in household saving rates as more optimistic households further draw down the excess savings accumulated through the pandemic. An additional upside risk is that further declines in global oil prices could occur, especially if anticipated excess supply next year does not diminish. This would subtract materially from headline inflation in many economies, support growth in oil-importing economies, and potentially allow a faster pace of monetary policy easing than assumed in the projections.

Global Trade

Despite ongoing geopolitical tensions, global trade volume as a share of world GDP has not deteriorated. However, signs of geo-economics fragmentation have started to emerge, with increasingly more trade occurring within geopolitical blocs rather than between them. Specifically, when the averages for the periods 2017 to 2022 and 2022 to the first quarter of 2024 are compared, goods trade growth is observed to have declined by approximately 2½ percentage points more between geopolitically distant blocs than within blocks.

A more fragmented global trade landscape could emerge if geopolitical tensions continue to develop in a way similar to that during the Cold War. Although fragmentation, if it goes hand in hand with an increase in intra block trade, may not necessarily imply rapid deglobalization, it could reduce the resilience of global supply chains, increase funding costs, disrupt cross-border capital flows and lower market efficiency, slow the transfer of knowledge between advanced and emerging market and developing economies (hampering income convergence), increase costs and risks for businesses, and induce a larger economic cost for the green transition.

Global Inflation

Although bumps on the path to price stability are still possible, global headline inflation is projected to decrease further, from an average of 6.7 percent in 2023 to 5.8 percent in 2024 and 4.3 percent in

2025 in the baseline. Disinflation is expected to be faster in advanced economies—with a decline of 2 percentage points from 2023 to 2024 and a stabilization at about 2 percent in 2025—than in emerging market and developing economies, in which inflation is projected to decline from 8.1 percent in 2023 to 7.9 percent in 2024 and then fall at a faster pace in 2025 to 5.9 percent.

There is a great deal of variation across emerging market economies, however, which is evident in the difference between median and average inflation. Inflation in emerging Asia is projected to be on par with that in advanced economies, at 2.1 percent in 2024 and 2.7 percent in 2025, in part thanks to

early monetary tightening and price controls in many countries in the region. In contrast, inflation forecasts for emerging and developing Europe, the Middle East and North Africa, and sub-Saharan Africa remain in double-digit territory on account of large outliers amid pass-through of past currency depreciation and administrative price adjustment (Egypt) and underperformance in agriculture

(Ethiopia). For most countries in Latin America and the Caribbean, inflation rates have dropped significantly from their peaks and continue to be on a downward trend. However, large countries in the region have experienced upward revisions that reflect a mix of (1) robust wage growth preventing faster disinflation in the services sector (Brazil, Mexico), (2) weather events (Colombia), and (3) hikes in regulated electricity tariffs (Chile).

The decline in global inflation in 2024 and 2025 reflects a broad-based decrease in core inflation, unlike the situation in 2023, when headline inflation fell mainly because of lower fuel prices. Core inflation is expected to drop by 1.3 percentage points in 2024, following a 0.1 percentage point decrease in 2023, with advanced economies leading this decline. Factors contributing to lower core inflation include the delayed effect of tight monetary policies as well as diminishing pass-through effects from earlier declines in prices, especially in those for energy.

Overall, returning inflation to target is expected to take until 2025 in most cases. Although the pace of disinflation for the median economy has been faster than expected in October 2023, the dispersion

across economies is now expected to be larger. Comparison of official inflation targets with the latest forecasts for a representative group of inflation-targeting advanced and emerging market economies suggests that annual average inflation will exceed targets (or the midpoints of target ranges) in more than three-quarters of these economies in 2025. But a great deal of this reflects annual carryover effects

from 2024. Inflation is expected to decline steadily on a sequential basis, and by the end of 2025, most economies are expected to be either at target or within a stone's throw of it.

(Source: <https://www.imf.org/en/Publications/WEO/Issues/2024/10/22/world-economic-outlook-october-2024>)

Monetary and Financial Developments

Monetary Policy Is Expected to Ease Globally. With post pandemic supply chain disruptions and commodity price pressures having largely dissipated and labour markets coming into better balance, inflation has continued to move toward central banks' targets, and most have begun to ease monetary policy. Since April 2024 Global Financial Stability Report, the European Central Bank, Bank of England,

the Federal Reserve, and Riks bank have cut policy rates. Meanwhile, the Bank of Japan raised its policy rate in July, supported by broad-based wage growth projected to support sustainable and stable achievement of its inflation target (Figure 1.1). That said, the pace and extent of easing delivered by different central banks are expected to vary, with inflation still above target in many regions.

Markets are pricing in multiple cuts in policy rates among major central banks over the remainder of this year and during the next (Figure 1.1, panels 1–4). The Federal Reserve is expected to cut its policy rate by almost 150 basis points by the end of 2025, more than was expected at the time of the April 2024 Global Financial Stability Report. In emerging markets, policy paths have generally been revised downward, however, with some central banks having paused their cutting cycles as interest differentials with respect to advanced economy central banks have narrowed or raised rates to ensure convergence of inflation to target.

RECENT DEVELOPMENTS

Global growth has been resilient, and inflation has declined further

The global economy remained resilient in the first half of 2024, with output growing at an estimated annualized rate of 3.2%. Declining consumer price inflation has supported household spending, providing a counterbalance to the negative impact from restrictive financial conditions and the uncertainty about the ongoing war in Ukraine and the evolving conflicts in the Middle East. Growth in the United States strengthened in the second quarter of 2024, with private consumption underpinned by real wage gains partly owing to falling inflation. GDP growth was also relatively robust in several other advanced economies including Canada, Spain and the United Kingdom. In Japan, growth picked up sharply in the second quarter after contracting in the first amid temporary supply disruptions. Nonetheless, there have been less favourable recent outcomes in

some other advanced economies, notably Germany, where weak sentiment has contributed to elevated saving rates in both the household and corporate sectors and industrial activity has been weak. Emerging market economies have also displayed diverse growth patterns. Domestic demand has buoyed activity in Brazil, India and Indonesia, but has slowed in Mexico with the services sector losing momentum. In China, industrial production growth has been underpinned by strengthening exports, but consumer demand remains modest and a protracted correction in the real estate sector is ongoing.

Recent activity indicators suggest services activity continues to outperform

High-frequency activity indicators suggest stable growth momentum overall for most economies. Business surveys continue to point to stronger activity in services than in manufacturing sectors, where elevated inventory-to-sales ratios in many major advanced economies may weigh on output in the short-term. In the advanced economies, the recent strength of services activity has partly reflected the rebalancing of demand back to services following the pandemic. This process is gradually easing, with the ratios of goods to services consumption volumes now approaching levels consistent with pre-pandemic trends in many countries. Surveys indicate improving consumer confidence in Europe as well as in some

emerging economies where growth has been resilient, such as Indonesia. Nonetheless, consumer confidence remains subdued relative to long-term norms in most major advanced economies despite the ongoing rebound in real incomes, possibly reflecting perceptions of lower purchasing power. Relatively large price increases for items salient to household budgets may be shaping such perceptions, especially for lower income households. In particular, food price inflation has generally outstripped growth in nominal wages since the onset of the pandemic.

The recovery in global trade continued in the first half of 2024, with growth in trade volumes in both goods and services strengthening, especially in the second quarter.

An upturn in US import growth, in part due to stronger equipment investment, and greater trade dynamism in key emerging market economies, including China, the Dynamic Asian Economies, Brazil and India, were key factors behind the stronger-than expected resilience of trade. Monthly activity indicators have generally remained firm, with global container

trade volumes, air freight volumes and international passenger volumes all rising steadily through to July. While this provides a positive signal of demand, survey measures of export orders have begun to weaken again, suggesting that at least part of the trade boost in mid-year may have come from earlier-than-usual orders for the peak season in the advanced economies in an effort to avoid congestion later in the year.

Global container shipping has mostly adapted to the effective closure of the Red Sea route, and lower water levels in the Panama Canal, but journey times have lengthened and congestion has risen in some key Asian ports. Container shipping costs have strengthened significantly through 2024. Even with some moderation since August, costs remain around 160% higher than a year earlier, with even larger increases for some routes between Asia and Europe. These past increases will feed through into consumer prices, but the impact will be relatively modest if costs continue their recent decline, and falls in merchandise export prices from some countries, especially China, as well as lower global commodity prices, are sustained.

Labour market pressures have eased, partly due to rising labour supply

Labour markets have continued to loosen. The number of job vacancies per unemployed worker has fallen steadily and is now back to levels observed immediately prior to the pandemic. Survey measures of labour shortages have also continued to moderate in many major advanced economies. Unemployment has also risen by 0.5 percentage point or more in Argentina, Canada, South Africa, Turkey and the United States. In part this reflects moderating demand, with employment growth

slowing in some countries, including Japan, Korea, Mexico, Turkey, South Africa and the United States. However, rising labour supply has also been a key element, often reflecting stronger immigration flows. Increases in foreign-born workers have accounted for the majority of labour force growth since the start of 2023 in Australia, Canada, the United States and many European countries.

Job vacancies per unemployed

Nominal wage growth remains high, particularly in Germany and the United Kingdom, but is now moderating. In contrast, pay growth is gaining pace in Japan, with significant base pay gains in the spring wage round and strong bonus payments boosting total cash earnings in recent months. Growth in unit labour costs has generally eased, in keeping with moderating wage increases, but remains elevated in many countries due to sluggish labour productivity growth, especially in Europe. In contrast, strong productivity gains in the United States kept unit labour costs in the non-farm sector unchanged over the year to the second quarter of 2024.

Inflation is continuing to moderate gradually

Headline inflation has continued to fall this year in most countries, partly due to further declines in food price inflation and low, or negative, energy and goods price inflation. Exceptions include Mexico and Brazil, where inflation has drifted higher, in part due to currency depreciations. The recent steep fall in oil prices, and the ongoing easing of global food prices could place further downward pressure on headline inflation in the short-term. Oil prices have declined by over 10% since July, amid expectations for excess supply next year and market concerns about weakening oil demand growth in some major economies, particularly China. If oil prices remain at their current level, global headline inflation could be reduced by around 0.5 percentage points over the coming year. Indicators of short-term inflation expectations of households in the major advanced economies have also continued to ease, in line with actual inflation outcomes. A decomposition of GDP deflator growth in nine major economies suggests that unit labour costs are currently accounting for the majority of inflation, consistent with the greater weight of labour costs in most service sectors. Unit profit growth has moderated, now contributing only a small share to inflation, and helping to offset other cost pressures.

Inflation is now at, or approaching, central bank targets in an increasing proportion. Nonetheless, the prices of over half the items in the United Kingdom inflation basket were still growing at an annual rate above 3% in July 2024, with over 40% of the items rising above this threshold in the United States. This points to some lingering underlying pressures. Services price inflation is still proving particularly sticky and has abated only slowly. If core goods price inflation remains unchanged at the current rate, year-on-year aggregate services price inflation may need to decline by 3 percentage points in Mexico, 2.5 percentage points in the United Kingdom, 1.2 percentage points in the euro area and 0.8 percentage points in the United States to bring aggregate core inflation back to a rate consistent with the inflation target.

INDIAN ECONOMIC OVERVIEW

Introduction

Strong economic growth in the first quarter of FY23 helped India overcome the UK to become the fifth-largest economy after it recovered from the COVID-19 pandemic shock. Nominal GDP or GDP at Current Prices for Q1 2024-25 is estimated at Rs. 77.31 lakh crores (US\$ 928.9 billion) with growth rate of 9.7%, compared to the growth of 8.5% for Q1 2023-24. The growth in nominal GDP during 2023-24 is estimated at 9.6% as compared to 14.2% in 2022-23. Strong domestic demand for consumption and investment, along with Government's continued emphasis on capital expenditure are seen as among the key driver of the GDP in the second half of FY24. During the period April-September 2025, India's exports stood at US\$ 211.46 billion, with Engineering Goods (26.57%), Petroleum Products (16.51%) and electronic goods (7.39%) being the top three exported commodity. Rising employment and increasing private consumption, supported by rising consumer sentiment, will support GDP growth in the coming months.

Future capital spending of the government in the economy is expected to be supported by factors such as tax buoyancy, the streamlined tax system with low rates, a thorough assessment and rationalisation of the tariff structure, and the digitization of tax filing. In the medium run, increased capital spending on infrastructure and asset-building projects is set to increase growth multipliers. The contact-based services sector has demonstrated promise to boost growth by unleashing the pent-up demand. The sector's success is being captured by a number of HFIs (High-Frequency Indicators) that are performing well, indicating the beginnings of a comeback.

India has emerged as the fastest-growing major economy in the world and is expected to be one of the top three economic powers in the world over the next 10-15 years, backed by its robust democracy and strong partnerships.

Market Size

Real GDP or GDP at Constant (2011-12) Prices for the period Q1 2024-25 is estimated at Rs. 43.64 lakh crore (US\$ 524 billion), against the First Revised Estimates (FRE) of GDP for the year Q1 2023-24 of Rs. 40.91 lakh crore (US\$ 491 million). The growth in real GDP during 2023-24 is estimated at 8.2% as compared to 7.0% in 2022-23. There are 113 unicorn start-ups in India, with a combined valuation of over US\$ 350 billion. As many as 14 tech start-ups are expected to list in 2024 Fintech sector poised to generate the largest number of future unicorns in India. With India presently has the third-largest unicorn base in the world. The government is also focusing on renewable sources by achieving 40% of its energy from non-fossil sources by 2030. India is committed to achieving the country's ambition of Net Zero Emissions by 2070 through a five-pronged strategy, 'Panchamrit'. Moreover, India ranked 3rd in the renewable energy country attractive index.

According to the McKinsey Global Institute, India needs to boost its rate of employment growth and create 90 million non-farm jobs between 2023 to 2030 in order to increase productivity and economic growth. The net employment rate needs to grow by 1.5% per annum from 2023 to 2030 to achieve 8-8.5% GDP growth between same time periods. India's current account deficit (CAD) narrowed to 0.7% of GDP in FY24. The CAD stood at US\$ 9.7 billion for the Q1 2024-25 from US\$ 8.9 billion in Q1 2023-24 or 1.1% of GDP. This was largely due to decrease in merchandise trade deficit. Exports fared remarkably well during the pandemic and

aided recovery when all other growth engines were losing steam in terms of their contribution to GDP. Going forward, the contribution of merchandise exports may waver as several of India's trade partners witness an economic slowdown. According to Minister of Commerce and Industry, Consumer Affairs, Food and Public Distribution and Textiles Mr. Piyush Goyal, Indian exports are expected to reach US\$ 1 trillion by 2030.

Recent Developments

India is primarily a domestic demand-driven economy, with consumption and investments contributing to 70% of the economic activity. With an improvement in the economic scenario and the Indian economy recovering from the Covid-19 pandemic shock, several investments and developments have been made across various sectors of the economy. According to World Bank, India must continue to prioritise lowering inequality while also putting growth-oriented policies into place to boost the economy. In view of this, there have been some developments that have taken place in the recent past. Some of them are mentioned below.

- According to HSBC Flash India PMI report, business activity surged in April to its highest level in about 14 years as well as sustained robust demand. The composite index reached 62.2, indicating continuous expansion since August 2021, alongside positive job growth and decreased input inflation, affirming India's status as the fastest-growing major economy.
- As of October 11, 2024, India's foreign exchange reserves stood at US\$ 690.43 billion.
- In 1H 2024, India saw a total of US\$ 31.5 billion in PE-VC investments.
- India secured 39th position out of 133 economies in the Global Innovation Index 2024. India rose from 81st position in 2015 to 39th position in 2024. India ranks 3rd position in the global number of scientific publications.
- In September 2024, the gross Goods and Services Tax (GST) stood at highest monthly revenue collection at Rs. 1.73 lakh crore (US\$ 20.83 billion).
- Between April 2000–June 2024, cumulative FDI equity inflows to India stood at US\$ 1,013.45 billion.
- In August 2024, the overall IIP (Index of Industrial Production) stood at 145.6. The Indices of Industrial Production for the mining, manufacturing and electricity sectors stood at 125.1, 147.1 and 219.3, respectively.
- According to data released by the Ministry of Statistics & Programme Implementation (MoSPI), India's Consumer Price Index (CPI) based retail inflation reached 5.49% (Provisional) for September 2024.
- Foreign Institutional Investors (FII) inflows between April-July (2023-24) were close to Rs. 80,500 crore (US\$ 9.67 billion), while Domestic Institutional Investors (DII) sold Rs. 4,500 crore (US\$ 540.56

million) in the same period. As per depository data, Foreign Portfolio Investors (FPIs) invested (US\$ 13.89 billion) in India during January- (up to 15th July) 2024.

- The wheat procurement during Rabi Marketing Season (RMS) 2024-25 (till May) was estimated to be 266 lakh metric tons (LMT) and the rice procured in Kharif Marketing Season (KMS) 2024-25 was 400 LMT.

Government Initiatives

Over the years, the Indian government has introduced many initiatives to strengthen the nation's economy. The Indian government has been effective in developing policies and programmes that are not only beneficial for citizens to improve their financial stability but also for the overall growth of the economy. Over recent decades, India's rapid economic growth has led to a substantial increase in its demand for exports. Besides this, a number of the government's flagship programmes, including Make in India, Start-up India, Digital India, the Smart City Mission, and the Atal Mission for Rejuvenation and Urban Transformation, is aimed at creating immense opportunities in India. In this regard, some of the initiatives taken by the government to improve the economic condition of the country are mentioned below:

- In July 2024, the Ministry of Finance held the Union Budget and announced that for 2024-25, the total receipts other than borrowings and the total expenditure are estimated at Rs. 32.07 lakh crore (US\$ 383.93 billion) and Rs. 48.21 lakh crore (US\$ 577.16 billion), respectively.

Road Ahead

In the second quarter of FY24, the growth momentum of the first quarter was sustained, and high-frequency indicators (HFIs) performed well in July and August of 2023. India's comparatively strong position in the external sector reflects the country's positive outlook for economic growth and rising employment rates. India ranked 5th in foreign direct investment inflows among the developed and developing nations listed for the first quarter of 2022.

India's economic story during the first half of the current financial year highlighted the unwavering support the government gave to its capital expenditure, which, in 2023-24, stood 37.4% higher than

the same period last year. In the budget of 2024-25, capital expenditure took lead by steeply increasing the capital expenditure outlay by 17.1 % to Rs.11 lakh crore (US\$ 133.51 billion) over Rs. 9.48 lakh crore (US\$ 113.91 billion) in 2023-24. Stronger revenue generation because of improved tax compliance, increased profitability of the company, and increasing economic activity also contributed to rising capital spending levels.

Since India's resilient growth despite the global pandemic, India's exports climbed at the second-highest rate with a year-over-year (YoY) growth of 8.39% in merchandise exports and a 29.82% growth in service exports till April 2023. With a reduction in port congestion, supply networks are being restored. The CPI-C inflation reduction from June 2022 already reflects the impact. In September 2023 (Provisional), CPI-C inflation was 5.02%, down from 7.01% in June 2022. With a proactive set of administrative actions by the government, flexible monetary policy, and a softening of global commodity prices and supply-chain bottlenecks, inflationary pressures in India look to be on the decline overall.

Infrastructure Industry

Global Market

Around the world, infrastructure is a major force behind economies. The industry is mostly responsible for propelling development overall. Governments worldwide have focused heavily on launching legislation that would guarantee the establishment of top-notch infrastructure within a set period.

Power, bridges, dams, highways, and urban development of infrastructure are all included in the infrastructure industry. Global infrastructure-building output has been growing since 2020 despite being severely disrupted by the COVID-19 pandemic, as governments worldwide sought to boost economic activity by investing in renewable energy and transit infrastructure. Before the COVID-19 outbreak, the construction of infrastructure, including roads, trains, water and sewerage, power and energy, and other infrastructure (primarily airports and marine/inland waterways), had been expanding at a relatively rapid rate. The construction industry saw a 7% increase in nominal value added and a 6% increase in nominal gross output compared to the previous year. However, much of this growth was driven by price inflation rather than volume. In addition to grappling with ongoing inflation, the industry is facing volatility in material prices and increasing labour costs. Another significant challenge is the ongoing shortage of skilled labour, which continues to impact the sector. Moreover, high interest rates and tighter lending standards are also impacting construction activity. Between 2020 and 2030, the worldwide construction market is anticipated to expand by USD 14.4 trillion. Sub-Saharan Africa is predicted to experience the biggest regional construction increase, followed by rising Asia.

It is anticipated that urbanization will accelerate growth in emerging markets. By 2050, the population could increase by 2.5 billion, about 90% of whom would live in Asia and Africa due to regional population growth. Public funding has a significant impact on infrastructure development worldwide. This means that investment depends on governments' ability to finance spending, even if infrastructure's long-term steady and index-linked returns are typically perfectly suited to the needs of sizable superannuation funds. With growth of 4.4% on average between 2020 and 2025, the construction industry will be an essential contributor to the economy over the medium term, outpacing forecasted expansion in the service and manufacturing industries.

Looking ahead to 2024, there could be a boost to construction associated with manufacturing, transportation infrastructure, and clean energy infrastructure. Construction output growth is anticipated to increase by an average of 3.5% between 2020 and 2030. The infrastructure construction sector expanded by 10.7% in real terms in 2023, following an average annual growth of 4.3% in the

previous five years. This will be propelled by developing nations' efforts to build expansive energy, transportation, sewerage, and waste management projects. Despite increased demand worldwide, a sizable infrastructure investment deficit exists. To comprehend, evaluate, and achieve profitability for any money used, investors require access to accessible, dependable data sources.

Domestic Market

India's high growth imperative in 2023 and beyond will significantly be driven by major strides in key sectors with infrastructure development being a critical force aiding the progress.

Infrastructure is a key enabler in helping India become a US \$26 trillion economy. Investments in building and upgrading physical infrastructure, especially in synergy with the ease of doing business initiatives, remain pivotal to increase efficiency and costs. Prime Minister Mr. Narendra Modi also recently reiterated that infrastructure is a crucial pillar to ensure good governance across sectors.

The government's focus on building infrastructure of the future has been evident given the slew of initiatives launched recently. The US\$ 1.3 trillion national master plan for infrastructure, Gati Shakti, has been a forerunner to bring about systemic and effective reforms in the sector, and has already shown a significant headway.

Source: Ministry of Commerce & Industry
Note: * - Provisional (April-February 2023-24)

Infrastructure support to the nation's manufacturers also remains one of the top agendas as it will significantly transform goods and exports movement making freight delivery effective and economical.

The "Smart Cities Mission" and "Housing for All" programmes have benefited from these initiatives. Saudi Arabia seeks to spend up to US\$ 100 billion in India in energy, petrochemicals, refinery, infrastructure, agriculture, minerals, and mining.

The infrastructure sector is a key driver of the Indian economy. The sector is highly responsible for propelling India's overall development and enjoys intense focus from the Government for initiating policies that would ensure the time-bound creation of

world-class infrastructure in the country. The infrastructure sector includes power, bridges, dams, roads, and urban infrastructure development. In other words, the infrastructure sector acts as a catalyst for India's economic growth as it drives the growth of the allied sectors like townships, housing, built-up infrastructure, and construction development projects.

To meet India's aim of reaching a US\$ 5 trillion economy by 2025, infrastructure development is the need of the hour. The government has launched the National Infrastructure Pipeline (NIP) combined with other initiatives such as 'Make in India' and the production-linked incentives (PLI) scheme to augment the growth of the infrastructure sector. Historically, more than 80% of the country's infrastructure spending has gone toward funding for transportation, electricity, and water, and irrigation.

While these sectors still remain the key focus, the government has also started to focus on other sectors as India's environment and demographics are evolving. There is a compelling need for enhanced and improved delivery across the whole infrastructure spectrum, from housing provision to water and sanitation services to digital and transportation demands, which will assure economic growth, increase quality of life, and boost sectoral competitiveness.

Market Size

In Interim Budget 2024-25, capital investment outlay for infrastructure has been increased by 11.1% to Rs. 11.11 lakh crore (US\$ 133.86 billion), which would be 3.4 % of GDP. As per the Interim Budget 2023-24, a capital outlay of Rs. 2.55 lakh crore (US\$ 30.72 billion) has been made for the Railways, an increase of 5.8% over the previous year.

Starting with 6,835 projects, the NIP project count now stands at 9,142 covering 34 sub-sectors, as per news reports. Under the initiative, 2476 projects are under the development phase with an estimated investment of US\$ 1.9 trillion. Nearly half of the under-development projects are in the transportation sector, and 3,906 are in the roads and bridges sub-sector.

During FY 2023-24, Total revenue of Indian Railways stands at US\$ 28.89 billion (Rs 2.40 Lakh Crore) as on 15th March. Last year on 15th March, total Revenue was US\$ 26.84 billion (Rs 2.23 Lakh Crore). During the month of June 2024, originating freight loading of 135.46MT has been achieved against loading of 123.06 MT in June 2023.

India's logistics market is estimated to be US\$ 317.26 billion in 2024 and is expected to reach US\$ 484.43 billion by 2029, growing at a CAGR of 8.8%. According to a Cushman & Wakefield report, India's real estate market saw a surge in investments during the second quarter of 2024, attracting US\$ 2.77 billion.

India intends to raise its ranking in the Logistics Performance Index to 25 and bring down the logistics cost from 14% to 8% of GDP, leading to a reduction of approximately 40%, within the next five years. In December 2022, AAI and other Airport Developers have targeted capital outlay of approximately Rs. 98,000 crore (US\$ 11.8 billion) in airport sector in the next five years for expansion and modification of existing terminals, new terminals and strengthening of runways, among other activities.

India currently has the fifth-largest metro network in the world and will soon overtake advanced economies such as Japan and South Korea to become the third-largest network. Metro rail network reached 810 kms and is operational in 20 cities. In the last 10 years, 697 km have been added to Metro Rail Network across the country. In 2024, about 945 km of metro rail lines are operational in 21 cities and 919 km is under construction in 26 different cities. At almost 20 kms, Mumbai monorail is the

third largest route in the world after China with 98 kms and Japan with 28 kms.

FDI in construction development (townships, housing, built-up infrastructure and construction development projects) and construction (infrastructure) activity sectors stood at US\$ 26.61 billion and US\$ 33.91 billion, respectively, between April 2000-March 2024.

Indian logistics market is estimated to touch US\$ 320 billion by 2025. The overall infrastructure capex is estimated to grow at a CAGR of 11.4% over 2021-26 driven by spending on water supply, transport, and urban infrastructure. Investment in infrastructure contributed around 5% of the GDP in the tenth five-year plan as against 9% in the eleventh five-year plan. Further, US\$ 1 trillion investment in infrastructure was proposed by the India's planning commission during the 12th five-year plan, with 40% of the funds coming from the private sector.

a. Market Trends

Increase in Road Infrastructure Investment is expected to propel the Market Growth. With a sprawling network of approximately 66.71 lakh km, India boasts the world's second-largest road infrastructure. This vast expanse encompasses national highways, state highways, district roads, and rural roads, facilitating seamless connectivity across the nation.

Estimated investment for roadways, in USD Billion, by type of road, India, 2020-2025

Of particular significance are the National Highways (NH), which are pivotal in India's economic and social progress. These NHs, constituting a mere 2% of the total road network, bear the weight of over 40% of the nation's traffic. Notably, the pace of NH expansion has surged, propelled by a corridor-centric development strategy. The construction rate has surged from 12 km/day in 2014-15 to an impressive 28.3 km/day in 2022-23.

The Indian Government is actively investing in road infrastructure development. Key initiatives, such as the Bharatmala Pariyojana, are focused on enhancing and expanding the road network. This includes the construction of expressways, economic corridors, and feeder routes. In its initial phase, the program aims to develop 34,800 km of highways featuring 27 Greenfield corridors.

Notably, it includes the construction of India's longest expressway, the 1,386 km Delhi-Mumbai Expressway. Under the Pariyojana, 60% of projects are planned under the Hybrid Annuity Mode (HAM), 10% under the BOT (Toll) Mode, and the remaining 30% under the EPC mode.

The roads and highways sector stands out for its pioneering innovative public-private partnership (PPP) models and robust contractual framework, setting it apart from other sectors. These factors have spurred substantial private investments in the sector. Additionally, the government has introduced various incentives to further entice private sector involvement and foreign direct investments. These incentives range from the government covering the costs of project feasibility studies, providing land for right of way and wayside amenities to handling utility shifting and environmental clearances.

National Infrastructure Pipeline (NIP)

The portal provides opportunities for Ministries and States/UTs to collate all major infrastructure projects at a single location, thus acting as a centralised portal to track and review project progress across all economic and social infrastructure sub-sectors. The portal also enables project-sponsoring authorities to showcase investment opportunities to national and international investors.

The Government launched the NIP with a forward-looking approach and with a projected infrastructure investment of around ₹111 lakh crore during FY20-25 to provide high quality infrastructure across the country. NIP includes infrastructure projects of more than ₹100 crore each covering greenfield and brownfield investments. As of 12 April 2024, out of the total capital outlay under NIP, the transportation sector dominates with a contribution of 58 per cent, followed by the energy sector at 24 per cent, and the water and sanitation sector at 12 per cent, and balance five per cent by other sectors such as social infrastructure, communication, etc. NIP currently has over 9,666 projects and schemes covering 37 sub-sectors (as on 12th April 2024) that are hosted and monitored through the India Investment Grid (NIP-PMG) integrated portal. Out of these projects, 4,413 projects (46 per cent) are under implementation while 2,062 projects (21 per cent) have been completed.

DEVELOPMENTS ACROSS INFRASTRUCTURE SECTORS

Road Transport

Strategic planning and step-up in public investment have resulted in the upgradation of the road network system into a resilient and efficient infrastructure. The capital investment by the Government and private sector rose from 0.4 per cent in FY15 to about 1.0 per cent of GDP (around ₹3.01 lakh crore) in FY24. The sector has attracted its highest-ever private investment in FY24 as the private sector capitalises on a conducive policy environment. Further, tapping on the private investment, funds garnered through asset monetisation in the roads sector have exceeded ₹1 lakh crore since FY19. Notably, the Government achieved its highest-ever asset monetisation revenues of ₹40,314 crore in FY24.

Over the last ten years, there has been significant progress in the development of national highways, increasing by 1.6 times from 2014 to 2024. The Bharatmala Pariyojana has significantly expanded the national highway network, increasing the length of high-speed corridors by 12 times and 4-lane roads by 2.6 times between 2014 and 2024. Further, the efficiency of highway construction has improved due to the systematic push through the corridor-based National Highway development approach. The average pace of NH construction increased by ~3 times from 11.7 km per day in FY14 to ~34 km per day by FY24. The remarkable improvement of the NH network has brought about substantial advancements in logistics efficiency. This is evidenced by the consistently rising India's ranking in the World Bank's 'Logistics Performance Index, from 54 in 2014 and 44 in 2018, to 38 in 2023.

To further enhance logistic efficiency, Ministry of Road Transport & Highways (MoRT&H) has dedicated Multi-Modal Logistics Parks (MMLP). A total of six multimodal logistics parks (MMLPs) have been awarded until FY24, and ₹2,505 crore have been awarded for dedicated multimodal logistics parks (MMLPs) in FY24. Further, seven MMLPs are planned to be awarded in FY25.

Rail Transport

Indian Railways, with over 68,584 route km (as of 31st March 2024) and 12.54 lakh employees (as of 1st April 2024), is the fourth largest network in the world under single management. Capital expenditure on Railways has increased by 77 per cent over the past 5 years (₹2.62 lakh crore in FY24) with significant investments in the construction of new lines, gauge conversion, and doubling.

Railways achieved its highest-ever production for both locomotives and wagons in FY24. Fifty one pairs of Vande Bharat have been introduced until March 2024. The fast pace of infrastructure augmentation has been the result of a substantial increase in financial allocation along with close project monitoring and regular follow-up with stakeholders for expeditious land acquisition and clearances.

High-speed, long-distance Vande sleeper trainset coaches having features like quick acceleration, diffused lighting, automatic doors and Global Positioning System-based passenger information system are under development. Railways is also planning to introduce Vande metro trainset coaches with features such as sealed wider gangways, centrally controlled automatic sliding doors, CCTVs for safety and surveillance, route map indicator, passenger information & infotainment system, fire detection system and aerosol-based fire suppression system. The first lot is expected to be turned out in FY25.

Water Transport

Indian ports are rapidly expanding capacity to meet growing trade. Major port capacity has nearly doubled since 2014. Improved connectivity through coordinated planning under the PM Gati-Shakti National Master Plan and a focus on public-private partnerships have enhanced India's maritime competitiveness globally. India's rank in the International Shipments category in the World Bank Logistics Performance Index has improved to 22nd in 2023 from 44th in 2014. Further, policy reforms and the induction of new technology have enhanced port efficiency and productivity. As mentioned in chapter 4 on the External Sector, the container turnaround time has dropped by 50 per cent between 2014 and 2023-24. The union capital expenditure towards ports, shipping and waterways sector has grown by 27 per cent between FY23 and FY24.

Under the Sagarmala national programme launched in 2015, a total of 839 projects worth ₹5.8 lakh crore have been undertaken across five key areas of Port modernisation & fresh development, connectivity enhancement, port-led industrialisation, coastal community development and coastal shipping and inland water transport. Under this programme, 262 projects worth ₹ 1.4 lakh crore are completed, while 217 projects worth ₹ 1.65 lakh crore are under implementation and 360 projects worth ₹ 2.7 lakh crore are under development.

Power Sector

Power transmission in India is connected into one grid running on one frequency with the inter-regional capability of transferring 1,18,740 megawatts (MW). It is emerging as one of the largest unified electricity grids in the world. Until 31 March 2024, transmission systems have expanded to 4,85,544 circuit kilometre of transmission lines and 12,51,080 mega volt amp (MVA) of transformation capacity. The peak electricity demand increased by 13 per cent to 243 GW in FY24. The Government of India has accelerated its efforts to enhance the sector and meet the continuously rising demand for electricity in the country. Between FY23 and FY24, the maximum rise in electricity generation was recorded in renewable energy resources for utilities.

A total of 2.86 crore households have been electrified since the launch of the Saubhagya period in October 2017 under various schemes. Further, the implementation of Electricity (late payment surcharge and related matters) Rules, 2022 have given relief to the DISCOMs, as well as electricity consumers and generating companies. Since implementation, as of 2nd April 2024, total bills amounting to ₹8.1 lakh crore have been settled against the total billed amount of ₹8.7 lakh crore from May 2022 (excluding EMI Payments against legacy dues and including disputed invoices).

Renewable Sector

India submitted its updated nationally determined contributions to the United Nations Framework Convention on Climate Change on 26 August 2022 and committed to achieve about 50 per cent cumulative electric power installed capacity from non-fossil fuel-based energy resources by 2030. The Ministry of New and Renewable Energy is working towards achieving 500 Giga Watt (GW) of installed electricity capacity from non-fossil sources by 2030. A total of 190.57 GW of renewable energy (RE) capacity has been installed in the country as of 31 March 2024. The share of RE in the total installed generation capacity in the country stands at 43.12 per cent.

The clean energy sector in India saw new investment of ₹8.5 lakh crore (USD 102.4 billion) between 2014 and 2023¹⁵. The RE sector is expected to attract investments of about ₹30.5 lakh crore in India between 2024 and 2030¹⁶. This would create significant economic opportunities across the value chain. The RE sector received approximately USD 17.88 billion as FDI from April 2000 until March 2024.

Water & Sanitation Sector

The year 2024 marks 10 years of Swachh Bharat Mission – Grameen (SBM-G), Phase I which was launched in October 2014, with a focus on making India open defecation free (ODF) wherein financial incentives were provided for the construction of individual household latrines and funds for construction of community sanitary complexes. After achieving ODF, SBM-G Phase II has been launched to achieve Sampurn Swachhata, i.e., sustaining the ODF status, managing solid and liquid waste by 2024-25 and transforming all the villages from ODF to ODF Plus Model. The total estimated outlay of SBM-G Phase-II is ₹1.4 lakh crore which is to be dovetailed through convergence between

different verticals of financing and various schemes of the Government of India and State Governments. During FY24, 1,61,525 villages were covered with solid waste management arrangements, 2,83,998 villages with grey water management, 2,070 blocks were linked with plastic waste management units and material recovery facilities and 159 districts were initiated with faecal sludge management arrangements. Also, in FY24, ₹7,000 crores were allocated to SBM-G, out of which ₹6,802.58 crore (97 per cent) have been utilised.

Solar Sector

India is endowed with vast solar energy potential. About 5,000 trillion kWh per year energy is incident over India's land area with most parts receiving 4-7 kWh per sqm per day. Solar photovoltaic power can effectively be harnessed providing huge scalability in India. Solar also provides the ability to generate power on a distributed basis and enables rapid capacity addition with short lead times. Off-grid decentralized and low-temperature applications will be advantageous from a rural application perspective and meeting other energy needs for power, heating and cooling in both rural and urban areas. From an energy security perspective, solar is the most secure of all sources, since it is abundantly available. Theoretically, a small fraction of the total incident solar energy (if captured effectively) can meet the entire country's power requirements.

There has been a visible impact of solar energy in the Indian energy scenario during the last few years. Solar energy based decentralized and distributed applications have benefited millions of people in Indian villages by meeting their cooking, lighting and other energy needs in an environment friendly manner. The social and economic benefits include reduction in drudgery among rural women and girls engaged in the collection of fuel wood from long distances and cooking in smoky kitchens, minimization of the risks of contracting lung and eye ailments, employment generation at village level, and ultimately, the improvement in the standard of living and creation of opportunity for economic activities at village level. Further, solar energy sector in India has emerged as a significant player in the grid connected power generation capacity over the years. It supports the government agenda of sustainable growth, while, emerging as an integral part of the solution to meet the nation's energy needs and an essential player for energy security.

National Institute of Solar Energy (NISE) has assessed the country's solar potential of about 748 GW assuming 3% of the waste land area to be covered by Solar PV modules. Solar energy has taken a central place in India's National Action Plan on Climate Change with National Solar Mission (NSM) as one of the key Missions. NSM was launched on 11 th January, 2010. NSM is a major initiative of the Government of India with active participation from States to promote ecological sustainable growth while addressing India's energy security challenges. It will also constitute a major contribution by India to the global effort to meet the challenges of climate change. The Mission's objective is to establish India as a global leader in solar energy by creating the policy conditions for solar technology diffusion across the country as quickly as possible. This is line with India's Nationally Determined Contributions (NDCs) target to achieve about 50 percent cumulative electric power installed capacity from non-fossil fuel-based energy resources and to reduce the emission intensity of its GDP by 45 percent from 2005 level by 2030.

Highway Lighting

Street lighting accounts for 10%-20% of total electricity consumption in a typical city in India. Hon'ble Prime Minister, on 5th January, 2015 launched Street Lighting National Program (SLNP) to replace conventional street lights with smart and energy efficient LED street lights across India. EESL replaces the conventional street lights with LEDs at its own costs (without any need for municipalities to invest) and the consequent reduction in energy and maintenance cost of the municipality is used to repay

EESL over a period of time. The contracts that EESL enters into with municipalities are typically of 7 years duration where it not only guarantees a minimum energy saving (of-typically 50%) but also provides free replacements and maintenance of lights at no additional cost to the municipality.

Till date, EESL has installed over 1.29 crore LED street lights in ULBs and Gram Panchayats across India. This has resulted in estimated energy savings of 8.71 billion kWh per year with avoided peak demand of 1,452 MW, GHG emission reduction of 6 million t CO₂ per year and estimated annual monetary savings of INR 6,101 crore in electricity bills of municipalities. Under SLNP, 1576 Urban Local Bodies (ULBs) have been enrolled, out of these ULBs, work has been completed in 1060 ULBs.

EESL is also implementing LED Street lighting projects in Gram Panchayats on the same service model as the SLNP for municipalities with the objective to promote the use of efficient lighting in rural areas. So far, EESL has installed 26 lakh LED street lights in rural areas of Andhra Pradesh, Jharkhand, Goa and Telangana.

Metric	Value
Total Streetlights Completed	1,33,88,933
Energy Saved Per Year	8992.57 MU
GHG Emission Reduction	6.19 Million tCO ₂
Avoid Peak Demand	1498.76 MW

Utility Shifting Work

Utility Shifting means the adjustment of a utility required by the program or project undertaken by the displacing agency. It includes removing and reinstalling the facility, including necessary temporary facilities; acquiring necessary right-of-way on new location; moving, rearranging or changing the type of existing facilities; and taking any necessary safety and protective measures. It shall also mean constructing a replacement facility that has the functional equivalence of the existing facility and is necessary for the continued operation of the utility service, the project economy, or sequence of project construction. This is typically done at off-peak hours to minimize the likelihood of service disruptions or outages during times of high demand, such as hot summer days or cold winter nights.

By shifting work to off-peak hours, utilities can reduce the risk of overloading the electrical grid and causing power outages. Additionally, it can help to minimize the inconvenience to customers, as work is less likely to disrupt their daily routines or interfere with their access to electricity.

Utilities means water, sewer, gas, electric, telecom, cable, and like services.

Road furniture

They are the most vital type of items that are added to roads to help divert traffic, inform road users and help pedestrians. These are used for instance traffic closing. These are the important furniture pieces, taken into use to prevent traffic from parking or driving in certain areas. They can be placed or removed from one place in a convenient way.

Traffic lights are also the vital road furniture pieces – that are the cluster of LED lights that are installed at different places on roads and in streets to control traffic. Traffic signs, street lighting, amenity signage, post box, bench, phone booths, public lavatory, waste bin, water fountain, etc are different types of road furniture items that are required frequently outside the large premises, sky-scrappers, roads and at different other places.

Government Initiatives and Investments

Some of the recent government initiatives and investments in the infrastructure sector are as follows:

- For FY 2024-25, the government has allocated record CAPEX of Rs. 2,62,200 crore (US\$ 31.67 billion) for Railways.
- In June 2024, Ministry of Housing & Urban Affairs has approved proposals worth Rs. 860.35 crore (US\$ 103.91 million) for West Bengal under SBM-U 2.0. During the first phase of SBM-U (2014-19) a total fund of Rs. 911.34 Cr (US\$ 130.34 million) was allocated to West Bengal which has been increased by 1.5 times to Rs. 1449.30 crore (US\$ 175.04 million) in SBM-U 2.0 (2021-26).
- At the start of the 2024-25 financial year, the Ministry had approximately 20,000 km of National Highways (NHs) planned construction. Additionally, there is a collection of projects in the DPR and tendering stages to enhance construction progress in the current and upcoming fiscal years.
- The total length of National Highways (NHs) constructed in Northeastern Region (NER) during the last ten years is 9,984 km with an expenditure of Rs. 1,07,504 crore (US\$ 12.98 billion) while 265 nos. of NH projects are under implementation at a cost of Rs. 1,18,894 crore (US\$ 14.36 billion) with total length of 5,055 km.
- The Central government has increased its capital expenditure (CAPEX) allocation to US\$ 133.9 billion (Rs. 11.11 trillion) for the fiscal year beginning April 1, 2024, with a focus on advancing India's infrastructure, as part of a strategic move to stimulate economic growth. An increase of 11.1% from the previous year, the FY25 interim budget allots US\$ 133.9 billion (Rs. 11.11 trillion) for capital expenditures, or 3.4% of GDP.
- With a 37% increase in the current fiscal year, capital expenditures (CAPEX) are on the rise, which bolsters ongoing infrastructure development and fits with Vision 202.
- 7 goals for India's economic growth to become a US\$ 5 trillion economy. In order to anticipate private sector investment and to address employment and consumption in rural India, the budget places a strong emphasis on the development of roads, shipping, and railways.
- India's ambitious plan calls for spending US\$ 1.723 trillion (approximately Rs. 143 trillion) on infrastructure between FY24 and FY30, with a particular emphasis on power, roads, and developing industries like renewable energy and electric vehicles.
- Prime Minister Mr. Narendra Modi emphasized that India is committed to attaining net-zero carbon emissions by 2070, and that the country's ambitious goal of 500 gigawatts (GW) of renewable capacity by 2030 should be met. In order to make this possible, he unveiled a plan to raise the proportion of gas in India's energy mix to 15% by 2030, which will involve spending roughly US\$ 67 billion over the course of the following five to six years.
- In Interim Budget 2024-25, capital investment outlay for infrastructure has been increased by 11.1% to Rs.11.11 lakh crore (US\$ 133.86 billion), which would be 3.4 %of GDP.
- The government has decided to allocate Rs. 2.76 lakh crore (US\$ 33.4 billion) towards the Ministry of Roads for 2024-25.
- A capital outlay of Rs. 2.55 lakh crore (US\$ 30.72 billion) has been made for the Railways, an increased of 5.8% over the previous year.
- The allocation for solar power grid reached Rs. 8,500 crores (US\$ 1.02 billion) from the previous allocation of Rs. 4,970 crores (US\$ 598.80 million).
- The Interim Budget 2024-25 allocated Rs. 1,11,876.6 crore (US\$ 13.5 billion) for the Department of Telecom.
- The government announced Rs. 77,523.58 crore (US\$ 9.3 billion) to the Ministry of Housing and Urban Affairs.
- Three significant economic railway corridor initiatives—energy, port connectivity, mineral and cement, and high traffic density—will be carried out by the railway industry. Additionally, in order to improve passenger safety, convenience, and comfort, forty thousand standard rail bogies will be converted to Vande Bharat standards.
- In the aviation sector, the number of airports has doubled to 149, and currently, 1.3 crore passengers are transported on 517 new routes. Indian airlines have taken the initiative to order more than a thousand new aircraft.

- As part of the PM Awas Yojana (Grameen), two crores more houses to be taken up in the next five years. Despite COVID challenges, the target of three crore houses under PM Awas Yojana (Grameen) will be achieved soon.

Investments

- According to CRISIL's Infrastructure yearbook 2023, India will spend nearly Rs. 143 lakh crore (US\$ 1,727.05 billion) on infrastructure in seven fiscals through 2030, more than twice the near Rs. 67 lakh crore (US\$ 912.81 billion) spent in the previous seven years.
- As per a report of Morgan Stanley India's infrastructure investment to steadily increase from 5.3% of GDP in FY24 to 6.5% of GDP by FY29.
- FDI in construction development (townships, housing, built-up infrastructure and construction development projects) and construction (infrastructure) activity sectors stood at US\$ 26.61 billion and US\$ 33.91 billion, respectively, between April 2000-March 2024.
- In January 2023, the Construction arm of Larsen & Toubro has secured orders for its power transmission & distribution and buildings & factories businesses to establish a 112.5MW Solar Power Plant in West Bengal and to construct a 600-bed super specialty hospital at Mumbai, respectively.
- Larsen & Toubro (L&T) to form L&T Green Energy Council, a think-tank comprising of eminent thought leaders, in a significant step towards building a global green energy business.
- In August 2023, Bharat Heavy Electricals Ltd. (BHEL) and Greenstat Hydrogen India Pvt. Ltd. (GHIPL) signed an MoU for 'Potential Collaboration Opportunities in Green Hydrogen and Derivatives in the Hydrogen Value Chain'. This MoU will help in contributing towards the country's 'National Hydrogen Mission' aimed at making India 'Aatma Nirbhar' in this area.
- In December 2022, BHEL formed a consortium with Titagarh Wagons and is among five entities which have bid for the mega Rs. 58,000 crore (US\$ 7 billion) contract to manufacture 200 Vande Bharat trains and maintaining them for the next 35 years.
- In December 2022, Mr. Nitin Gadkari, Minister of Road Transport and Highways inaugurated and laid foundation stone of 8 National Highway projects of 226 km length worth Rs. 1800 crore (US\$ 217.4 million) at Igat puri, Nashik, Maharashtra.
- In December 2022, Mr. Nitin Gadkari, Minister of Road Transport and Highways inaugurated 7 National Highway projects worth Rs. 2,444 crore (US\$ 295 million) with total length of 204 km in Rewa, Madhya Pradesh.
- In November 2022, Prime Ministry of India laid the foundation stone of various road projects worth over Rs. 2200 crore (US\$ 2.6 billion), namely Medak-Siddipet-Elkathurthy section of NH-765DG; Bodhan-Basar-Bhainsa section of NH-161BB; Sironcha to Mahadevpur Section of NH-353C in Telangana.
- In November 2022, Mr. Nitin Gadkari, Minister of Road Transport and Highways inaugurated the construction of 3.8 km long 4-lane elevated structure flyover at Ahmednagar, Maharashtra on National Highway-61 at a cost of Rs. 331.17 crore (US\$ 40 million).
- In October 2022, Prime Ministry of India laid the foundation of road and ropeway projects worth more than Rs. 3,400 crore (US\$ 410 million) in Mana, Uttarakhand.
- In October 2022, National Highways Infra Trust (NHAI InvIT), the infrastructure investment trust sponsored by National Highway Authority of India (NHAI) to support Government of India's National Monetization Pipeline, has raised a sum of Rs. 1,430 crore (US\$ 172.6 million) from domestic and international investors through placement of its units, for part funding its acquisition of three additional road projects from NHAI.
- As many as 52 critical infrastructure gap projects identified by MoPSW for connecting maritime ports and IWTs (Inland Waterway Terminals) to be taken up under PM Gati Shakti National Master Plan. Currently, DPR of total 56 projects (including 11 IWT projects) under this category with total of 1,215 km length are under bidding stage for the feasibility assessment of these projects, which is being carried out by NHAI.

Budget 2023-24 highlights:

- For FY24, the budgetary allocation for the Ministry of Development of North-eastern Region stood at Rs. 5892 crore (US\$ 711 million).
- Rs. 2,200 crore (US\$ 265.5 million) allocated for Prime Ministers Development Initiative for North-East (PMDevINE) Scheme.
- Rs. 2491 crore (US\$ 300.6 million) was allocated to Northeast Special Infrastructure Development Scheme (NESIDS). 100 PM-Gati Shakti Cargo Terminals for multimodal logistics facilities will be developed over next three years.
- The passenger revenue is estimated to be Rs. 70,000 crore (US\$ 8.51 billion), an increase of 9% over the previous year.
- In January 2024, the overall index of eight core industries stood at 164.5* driven by the production of coal, refinery products, fertilizers, steel, electricity, and cement industries.
- In June 2022 Mr. Nitin Gadkari, Minister of Road Transport and Highways inaugurated 15 National Highway projects in Patna and Hajipur in Bihar worth Rs. 13,585 crore (US\$ 1.75 billion)
- In October 2021, the Dubai government and India, inked an agreement to develop infrastructure such as industrial parks, IT towers, multipurpose towers, logistics centres, a medical college, and a specialised hospital in Jammu & Kashmir.
- A network of 35 Multimodal Logistics Parks is planned to be developed as part of Bharatmala Pariyojana, with a total investment of about Rs. 46,000 crore (US\$ 5.5 billion), which once operational, shall be able to handle around 700 million metric tonnes of cargo. Of this, MMLPs at 15 prioritized locations will be developed with a total investment of about Rs. 22,000 crore (US\$ 2.6 billion).

Road Ahead

With a 37% increase in the current fiscal year, capital expenditures (capex) are on the rise, which bolsters ongoing infrastructure development and fits with 2027 goals for India's economic growth to become a US\$ 5 trillion economy. In order to anticipate private sector investment and to address employment and consumption in rural India, the budget places a strong emphasis on the development of roads, shipping, and railways.

Global investment and partnerships in infrastructure, such as the India-Japan forum for development in the Northeast are also indicative of more investments. These initiatives come at a momentous juncture as the country aims for self-reliance in future-ready and sustainable critical infrastructure. India, it is estimated, needs to invest US\$ 840 billion over the next 15 years into urban infrastructure to meet the needs of its fast-growing population. This investment will only be rational as well as sustainable, if we additionally focus on long-term maintenance and strength of our buildings, bridges, ports, and airports.

As a result of digitalisation and opportunities that tier II and III cities present for economic growth, the divide between metro and non-metros is blurring, moving to the new era of infrastructure growth. Commercial real estate properties have witnessed exponential growth in demand across Tier II & III cities as Information technology and Information technology enabled services and banking financial services and insurance focused organizations are increasingly decentralizing their operations to adapt to the new normal.

The residential sector has witnessed good sales, and launches have also shown signs of an uptick during 2022, total sales in the top-7 cities was projected to exceed 360,000 units in 2022. Civil Aviation Ministry's "Vision 2040" report states that there will be 190-200 functioning airports in India by 2040. Delhi and Mumbai will have three international airports each, while top 31 Indian cities will have two operational airports each.

220 destinations (airports/heliports/water aerodromes) under UDAN are targeted to be completed by 2026 with 1000 routes to provide air connectivity to unconnected destinations in India. India's Infrastructure forms an integral part of the country's economic ecosystem. There has been a significant shift in the industry that is leading to the development of world-class facilities across the country in the areas of roads, waterways, railways, airports, and ports, among others. The country-wide smart cities programmes have proven to be industry game-changers. Given its critical role in the growth of the nation, the infrastructure sector has experienced a tremendous boom because of India's necessity and desire for rapid development. The expansion has been aided by urbanisation and an increase in foreign investment in the sector.

The infrastructure sector has become the biggest focus area for the Government of India. India's GDP is expected to grow by 8% over the next three fiscal years, one of the quickest rates among major, developing economies, according to S&P Global Ratings. India and Japan have joined hands for infrastructure development in India's Northeast states and are also setting up an India-Japan Coordination Forum for development of Northeast to undertake strategic infrastructure projects for the region. India being a developing nation is set to take full advantage of the opportunity for the expansion of the infrastructure sector, and it is reasonable to conclude that India's infrastructure has a bright future ahead of it.

OVERVIEW

Our Company was originally incorporated as “**Current Infraprojects Private Limited**” at Jaipur, Rajasthan as a private limited company under the Companies Act, 1956, pursuant to a certificate of incorporation dated December 31, 2013, issued by the RoC, Rajasthan with an object to takeover of the running business of M/s. Current Services Consultants, a proprietorship concern of our promoter Sujata Gangwar together with its assets, liabilities, rights, privileges, concessions, obligations and contracts. Subsequently, our Company was converted into a public limited company under the Companies Act, 2013, pursuant to the approval accorded by our Shareholders at their extraordinary general meeting held on February 01, 2025. Consequently, the name of our Company was changed to “**Current Infraprojects Limited**” and a fresh certificate of incorporation consequent upon conversion from a private limited company to a public limited company was issued to our Company by Central Processing Centre on March 06, 2025 and Corporate Identification Number is changed to U42900RJ2013PLC044719. The registered and corporate office of our company is situated at A-27, Basant Vihar, Vaishali Marg (West), Panchyawala, Jaipur, Rajasthan, India - 302034.

Our company is an infrastructure construction, development, operations and maintenance company with expertise across a wide range of services. We specialize in Engineering, Procurement and Construction (EPC) services, offering comprehensive solutions in Solar EPC, Electrical EPC, Water EPC and Civil EPC contracts, which include interior and civil works, as well as road furniture, all on a fixed-sum turnkey basis. Additionally, we provide specialized Engineering Consulting Services in Mechanical, Electrical and Plumbing (MEP) systems, alongside Project Management Consulting (PMC) services. Our company is also adopting the RESCO model to deliver renewable energy solutions on a pay-per-use basis and through long-term agreements. This will be executed via our wholly owned subsidiary companies, structured as special purpose vehicles (SPVs) specifically created for each RESCO project

we undertake. Further our Company is a member of Rajasthan Solar Association (RSA).

Our experience spans a variety of sectors, including hospitals, commercial buildings, malls and hotels. With a commitment to delivering high-quality, reliable and efficient infrastructure solutions, we are dedicated to meet the unique requirements of each project.

We offer a comprehensive range of services with a primary focus on Engineering, Procurement, and Construction (EPC) projects, along with Engineering Consulting and Project Management Consulting (PMC). Within the EPC segment, we specialize in delivering solar energy solutions, offering end-to-end services for solar installations. This includes the design, procurement and execution of projects, such as solar-powered Road and Building Projects. Our electrical EPC services cover the shifting of utilities and the installation of high-voltage transmission lines as well as highway lighting solutions, ensuring safety and energy efficiency. We also offer water EPC services, managing large-scale water distribution projects, including pipeline installation and hand-pump installations. In civil EPC, we provide complete services for building construction, interior design and road infrastructure, including the installation of road furniture like guard rails and bus shelters. Additionally, our civil work expertise extends to sewage systems, where we deliver efficient, sustainable solutions for wastewater management. Beyond EPC, we offer engineering consulting in Mechanical, Electrical and Plumbing (MEP), focusing on energy-efficient, sustainable designs for HVAC, electrical and plumbing systems in various sectors including commercial buildings, hospitals and hotels. Our PMC services ensure the successful execution of complex projects from planning and budgeting to quality assurance and risk management.

Further, our company is also engaged in providing hospitality services by taking on lease a farm house property known as YAHVI The Farmhouse, which has been leased from our promoters, Mr. Sunil Singh Gangwar and Mrs. Sujata Gangwar. The property is located on the outskirts of Jaipur, and offers a range of amenities, including kitchen access, a terrace garden, dining area, parking space and more. The property is an ideal destination for travellers, offering a unique blend of comfortable accommodations and delicious food, ensuring a memorable stay.

We started our business operations in the state of Rajasthan in the year 2013 and thereafter expanded our operations in the states of Haryana, Punjab, Jharkhand, Maharashtra, Uttar Pradesh, Gujarat etc. We are currently working in 12 states in India and in the last three financial years, we have executed various projects which includes, solar electrical infrastructure, road infrastructure and civil construction in the state of Tripura, West Bengal, Rajasthan, Uttar Pradesh, Maharashtra, Odisha and Kerala.

Our Company is managed by our promoters and directors. Our Chairman and Managing Director, Sunil Singh Gangwar, with his experience of 32 years in the mechanical and electrical field joined our Company in 2024 and looks after the EPC contracts division comprising of Solar EPC, Electrical EPC, Water EPC and Civil EPC.

Our office in Jaipur has a fully – equipped quality assurance laboratory with a vision to provide quality services keeping in view the advancement in technology and current environmental requirements. The MEC test lab was established in the year 2015 and was used for the internal testing to be done by our company and has been operational since then. The MEC Test Lab was accredited by the National Accreditation Board for Testing & Calibration Laboratories (NABL) as per ISO/IEC 17025: 2017 vide Certificate No. TC-6481 which was valid till June 2024. We have applied for the renewal of the certificate. The final assessment audit of the test lab has been completed by NABL and we are currently awaiting the certificate. The lab was established mainly with the objective of enhancing in-house quality testing capabilities in line with technological advancements and prevailing environmental standards. The in-house facility now enables our Company to perform more efficient and timely testing, reduce dependency on external vendors, ensure consistency in quality standards and support research and development initiatives. The lab undertakes a range of quality assurance activities, such

as the testing of transformers and electrical installations, equipment inspections and verification of materials for compliance with regulatory and project-specific standards. Recently, CIPL has executed the quality testing of transformers and electrical installations for Maple Highways at the Eastern Peripheral Expressway.

As on July 31, 2025, we have executed projects aggregating to ₹ 23,209.06 Lakhs. Over the years, our execution capabilities have experienced growth, expanding not only in the scale of projects we undertake but also in the number of simultaneous projects we handle.

Our company adheres to some of the industry's best-quality accreditations. Our Company has obtained the following certifications/ recognition:

1. ISO 9001:2015 in recognition of organization's Quality Management System.
2. ISO 14001:2015 in recognition of organization's Environment Management System.
3. ISO 45001:2018 in recognition of organization's Health and Safety Management System.
4. IS 50001:2018 in recognition of organization's Energy Management System.

BUSINESS MODEL

Our Company operate in the Engineering, Procurement, and Construction (EPC) sector, providing a diverse range of services across various domains, including Solar EPC Electrical EPC, Water EPC, Civil EPC which includes Highway lighting, Interior & Civil works, Road furniture, Sewage System and Engineering Consulting Services which includes MEP (Mechanical, Electrical, and Plumbing) services. Our business model is driven by two primary sources of revenue: Government tender contracts and private contracts.

1. Government Tender Contracts

Our Company participates in government bidding processes for EPC projects, including large-scale infrastructure, energy and public sector projects. By responding to government tenders, we secure long-term contracts for the construction, installation and maintenance of critical public infrastructure, such as solar power systems, electrical grids, water supply systems, highways and road furniture. Government projects often involve significant financial backing, extensive documentation and compliance with regulations, offering the company a steady stream of high-value contracts.

- 2. Private Contracts:** In addition to public sector projects, our company also enters into private contracts with businesses, real estate developers and industrial clients. These projects are often more flexible and can range from smaller-scale constructions to large infrastructure developments. Private contracts typically focus on specialized services such as civil works, MEP installations, and interior works for commercial or residential projects. This channel enables the company to cater to the needs of the private sector, diversifying its portfolio and reducing dependency on government contracts.

The process flow of our business model is as under:

i. Tendering and Award of Work

This is the initial phase where the government invites bids for the project. We submit our proposals, which include technical and financial details. After evaluating all bids, the contract is awarded to the most suitable company based on factors like cost, capability and experience.

ii. Design of Project

Once the work is awarded, we begin the design phase. This involves detailed planning and engineering to develop the project's blueprints, including structural, mechanical, electrical and plumbing systems. The design must meet government regulations and project specifications.

iii. Approval of Bill Quantity

In this stage, we prepare a detailed Bill of Quantities (BoQ), which outlines all materials, labor, and equipment required for the project. The BoQ is submitted to the government for approval to ensure that the estimates align with the project scope and budget.

iv. Procurement of Material

After BoQ approval, the procurement phase begins. We source and purchase the necessary materials and equipment to execute the project. This includes ensuring timely delivery, cost-effectiveness and quality compliance with government specifications.

v. Appointment of Project Management & Execution Team

We appoint a skilled project management team, including engineers, supervisors, and other experts. This team is responsible for overseeing the project's progress, ensuring timelines are met, and that quality standards are maintained throughout the execution phase.

vi. Execution of Work

This phase involves the physical construction and installation of the project. We deploy labor, machinery and materials to carry out the design plans. Work is completed in stages, ensuring

each part of the project adheres to the technical and safety standards set out in the design.

vii. Testing & Quality Assurance

After the work is executed, the project undergoes rigorous testing and quality assurance checks. This step ensures that all systems function as intended and meet the required performance standards. The government or a third-party inspector often verifies this process to ensure compliance with contract specifications.

viii. Billing & Handing Over of Work

During and after project execution, we submit progress bills to the government based on completed milestones. This includes claims for work done, materials used and labor costs. The billing process also involves handling any change orders or variations in the scope of work.

ix. Defect Liability Period

After project completion, the defect liability period begins, during which we are responsible for rectifying any issues or defects that arise. This period typically lasts for a specified duration and ensures that the company addresses any construction flaws or operational problems without additional cost to the government.

By leveraging both government and private sector opportunities, we ensure a balanced and sustainable revenue stream, while simultaneously maintaining flexibility to adjust to market demand across both segments. This dual-source business model enhances growth potential, reduces risk, and positions our company as a versatile player in the EPC sector.

OUR COMPETITIVE STRENGTH

➤ **Focused EPC Player**

With over 11 years of experience in successfully executing Engineering, Procurement, and Construction (EPC) projects, our company has developed a strong foundation across various sectors, including building construction, road infrastructure, structural works, civil construction, railway projects, and turnkey water supply systems. Since 2015, we have completed around 100 projects, showcasing our capacity to handle large-scale and complex assignments.

Throughout our journey, we have placed emphasis on the execution of EPC projects, which has enabled us to establish ourselves as a trusted and credible EPC player in the industry. Our track record includes working with some of the most renowned infrastructure companies, as well as

collaborating with prestigious organizations such as the National Highways Authority of India (NHAI) and Public Works Department (PWD). These partnerships have further strengthened our expertise and position in the industry, allowing us to consistently deliver quality projects on time and within budget.

Our deep-rooted experience and focused approach to EPC projects have helped us build robust technical capabilities, as well as a comprehensive understanding of the specific needs and challenges of the infrastructure sector. As we continue to grow, our specialized knowledge and operational efficiencies will enable us to capitalize on future market opportunities and extend our reach into new geographic markets. By leveraging our extensive experience and established credentials, we aim to further expand our footprint and contribute to the development of critical infrastructure projects in the years to come.

➤ **NABL Accreditation Quality Assurance Lab**

Our Head Office in Jaipur has a fully – equipped quality assurance laboratory with a vision to provide quality services keeping in view the advancement in technology and current environmental requirements. The MEC Test Lab is accredited by the National Accreditation Board for Testing & Calibration Laboratories (NABL) as per ISO/IEC 17025: 2017 vide certificate no. TC-6481 which was valid till June 2024. We have applied for the renewal of the certificate. The final assessment audit of the test lab has been completed by NABL, and we are currently awaiting the certificate. The test lab is well equipped with high class testing equipment's. A team of qualified technicians, quality managers, testing engineers, chartered electrical safety engineers and certified energy auditors work in the lab. Customer satisfaction is on top priority for us. We take pride in being thoroughly professional and reliable. Recently, CIPL has executed the quality testing of transformers and electrical installations for Maple Highways at the Eastern Peripheral Expressway.

➤ **Strong Order Book with Repeat Orders and Long-Standing Relation with Clientele**

We build and maintain long-standing relationships with our clients is the cornerstone of our success. Our commitment to understanding their unique needs, coupled with consistent delivery of quality services and personalized solutions, has fostered strong bonds of trust and loyalty over the years. We get repeat work orders from our esteemed clients for the quality of work and services we provide to them.

➤ Experienced Promoters, Senior Management and Team

Our management team, comprising highly qualified and experienced promoters, brings extensive expertise in engineering, business development, operations and strategic planning. The founder, Mrs. Sujata Gangwar, an M.Sc. graduate with visionary leadership, has been instrumental in driving the company's growth and establishing its reputation for quality and customer satisfaction.

The Managing Director, Mr. Sunil Singh Gangwar, with over 36 years of experience in the EPC sector and a B. Tech degree holder, offers strong leadership in corporate governance, risk management and strategic planning. Mr. Devvrath Singh, a Bachelor of Engineering from University of Queensland Australia, oversees EPC project execution and plays a pivotal role in the company's expansion into renewable energy and hospitality. Mr. Satyavrat Singh, holding a BBA degree, provides strategic financial oversight and leads efforts in social media and quality assurance to strengthen market presence. Together, the expertise of our management team ensures operational excellence and positions the company for sustainable growth and innovation in a dynamic market.

➤ **End To End Project Management and Execution Capabilities**

Our promoters and senior management include a team of technical and experienced professionals in the construction industry. Throughout our journey, we have successfully executed diverse range of construction projects, solar Projects, electrical engineering projects, road and rail infrastructure ancillary development projects, water and civil infrastructure projects. Our Company has inhouse engineering capabilities for both project design and construction supported by professionals with industry specific technical knowledge. Our Company offers integrated construction solution tailored to our clients' specific needs, leveraging our designing, engineering, and project execution capabilities. We aim to focus on prioritizing performance and enhancing our project execution capabilities to optimize operating margins and reduce overall project execution life cycle.

OUR BUSINESS STRATEGIES

Strengthen our focus on the development and execution of EPC projects and enhance execution efficiency.

Our primary focus is to strengthen our position in roads and highways sector by developing and executing Engineering, Procurement, and Construction (EPC) projects. Over the next few years, we will concentrate on the operation, maintenance and development of our existing projects while actively seeking opportunities to expand our EPC portfolio in this sector. Capitalizing on our extensive experience and expertise in project execution, we will selectively pursue EPC projects both independently and in collaboration with other key players.

To ensure the continued success of our projects, we will maintain a strong focus on efficient project execution by adopting industry best practices and leveraging advanced technologies to deliver high-quality projects that meet client expectations. We will also continue investing in modern construction equipment to ensure the timely and consistent availability of critical machinery, which will help streamline project execution and enhance control over project timelines. At the same time, we aim to attract, train, and retain qualified personnel and skilled labourers, ensuring that our workforce remains well-equipped to meet the demands of large-scale complex projects. By providing our engineering and technical teams with a broad range of work experiences, in-house training, and learning opportunities, we will ensure they are equipped with the knowledge and skills necessary for success.

Furthermore, we will focus on enhancing our internal systems and processes by upgrading our IT infrastructure to reduce manual intervention, improve operational efficiency and ensure the reliability of our business operations. The use of advanced technologies, cutting-edge designs and project management tools will enable us to boost productivity, maximize asset utilization and optimize construction activities, ultimately driving the growth and success of our EPC projects in the roads and highways sector.

Expansion and growth in renewable energy sector through RESCO model

Our Company is actively expanding its presence in the renewable energy sector by leveraging the Renewable Energy Service Company (RESCO) model. With ongoing projects under this model, we aim to scale its operations across multiple states, strengthening its position as a key player in the distributed solar energy market. This strategic expansion aligns with the increasing adoption of solar energy solutions under government initiatives.

Also adopting this strategy creates a predictable and steady revenue stream, as customers pay regularly for their solar energy consumption, while also enabling long-term relationships through ongoing maintenance and service agreements. Our company is strategically scaling its operations across multiple states, tapping into diverse markets and taking advantage of local incentives and regulations designed to promote renewable energy. Expanding into new regions not only mitigates the risks associated with dependence on a single market but also opens opportunities for partnerships

with local utilities, governments, and businesses. This will support the broader industry shift toward renewable energy and positions our company as a leading player in delivering sustainable, cost-effective energy solutions across the country.

Geographical diversification

Geographical diversification of our projects will reduce our reliance on specific geographical areas and allow us to capitalize on different growth trends across various states in India. We consider that our strategy of focusing on further developing our existing markets as well as expanding into new markets with growth potential will enable us to effectively target growth opportunities, widen our revenue base, as well as reduce the risk of volatile market conditions and price fluctuations resulting from concentration of resources in a particular geographic region.

Leverage core competencies with enhanced in-house integration

Our in-house integration has been instrumental in our growth over the years, and we seek to focus on further enhancing our in-house capabilities. Depending on the nature of projects that we intend to bid for, we intend to enhance our in-house integration model in the areas of design and engineering capabilities, project management and central procurement facilities.

Continue to enhance our project execution capabilities

We intend to continue our focus in enhancing project execution capabilities so as to derive twin benefits of client satisfaction and improvements in operating margins. We will constantly endeavour to leverage our operating skills through our equipment and project management tools to increase productivity and maximize asset utilization in our ongoing projects. We believe that we have developed a reputation for undertaking challenging projects and completing such projects in a timely manner. We intend to continue our focus on performance and project execution ability in order to maximize our operating margins. To facilitate efficient and cost-effective decision making, we intend to continue to strengthen our internal systems. Our ability to effectively manage projects will be crucial to our continued success.

Enhancing Operational Efficiency through IT Integration and System Consolidation

Information technology plays a critical role in almost every aspect of our operations, and we are committed to further strengthening our IT systems and internal processes to reduce manual intervention, improve reliability and enhance operational efficiency. To achieve this, we have implemented an Enterprise Resource Planning (ERP) system using SAP across all our operations and departments and we are continuously working to further enhance this system. Considering the competitive nature of our industry, cost efficiency is essential to our success, and we believe our low execution costs are largely attributed to our integrated operations and strategic investments in technology. By further consolidating our internal systems and focusing on IT, we aim to drive continued improvement in our operational performance, ensuring sustained growth and a competitive edge in the market.

BUSINESS SEGMENTS

Our business operations in infrastructure projects are broadly divided into the following segment:

1. EPC (Engineering Procurement and Construction)

We are engaged in the EPC projects which consist of:

- I. **Solar EPC Contracts:** As traditional energy resources like coal are running out, there has been a shift towards solar energy for powering homes, commercial buildings and street lighting. Our company offers solar solutions from designing, procurement and execution and have successfully completed several projects like lighting for toll plazas using solar panels. Our team of engineers and designers carefully considers clients' energy needs, budget and space limitations to provide the best solar solutions.
- II. **Electrical EPC Contracts:** We provide cost-effective and timely shifting of electrical utilities, a key activity in infrastructure and road projects. We have successfully completed several utility shifting projects for various clients, including repeat work. Our company also provides high-quality highway lighting solutions. We offer end-to-end services, including the design, procurement, installation, and maintenance of lighting systems for highways and roadways. Our team ensures that all lighting solutions enhance road safety, visibility, and energy efficiency, adhering to industry standards and regulations. We have successfully completed multiple projects across India, collaborating with top clients like Ashoka Buildcon, GR Infraprojects and HG Infraprojects.
- III. **Water EPC Contracts:** Our company provides end-to-end services for water supply systems, focusing on the installation, transmission and distribution of domestic water utilities. With extensive experience in the sector, we manage a variety of projects including water utility shifting for highway construction and widening, ensuring minimal disruption to local water supplies while meeting the stringent demands of infrastructure development.

We have successfully laid over 50,000 meters of water pipelines across India, demonstrating our capacity to manage large-scale water transmission and distribution networks. Our expertise also extends to the installation of over 500 hand-pumps, which provide reliable and sustainable access to clean water in rural and underserved areas. Our team's success is driven by seamless coordination between on-site and management teams, enabling us to swiftly adapt to evolving project requirements and site conditions. This ensures that projects are completed on time, with high standards of quality and safety, while maintaining the integrity of the water supply systems.

IV. Civil EPC Contracts:

- **Building Construction:** Our Company also provides services in civil work for building construction. We offer comprehensive services, including site preparation, foundation work, structural engineering, and the construction of building frameworks. Our experienced team ensures that all civil works are executed to the highest standards of quality, safety, and efficiency, while adhering to local building codes and regulations.
 - **Interior & Civil Work:** Our Company provide interior & civil work, offering a comprehensive range of services. We provide expert design, construction, and renovation solutions for residential, commercial, and industrial projects. Our interior services include space planning, custom designs and high-quality finishes, while our civil work covers structural development, site preparation and infrastructure construction. Our team of skilled professionals ensures every project meets the unique needs of our clients, from concept to completion. Recently, we successfully completed interior and civil works for retail outlets of major brands like FBB and Reliance Trends.
 - **Road furniture:** Our Company also provides road furniture solutions. We offer a full range of services, including the design, procurement, installation, and maintenance of road infrastructure elements such as road furniture such as pedestrian guard rails, bus shelters, signage and metal crash barriers. Our team ensures that all road furniture meets safety standards and regulatory requirements, enhancing the functionality and safety of roadways. We deliver customized solutions for both urban and rural road projects.
 - **Sewage System:** Our Company provides comprehensive civil services for sewage systems. We offer end-to-end solutions, including the design, construction, installation, and maintenance of sewage infrastructure. Our expertise covers the construction of pipelines, sewage treatment plants, manholes, and related facilities, ensuring efficient wastewater management. We are committed to delivering high-quality, reliable, and sustainable sewage systems that meet regulatory standards, enhance environmental protection, and improve public health and sanitation.
- 2. Engineering Consulting Services:** Engineering Consulting Services includes consulting services on (i) Mechanical, Electrical, Plumbing (MEP) which provide sustainable solutions for projects across industries such as Hospitals, Commercials Buildings, Industrial, Malls, Hotels, etc. and (ii) Project Management Consulting Services (PMC).

I. MEP

- **Mechanical Services:**
Our company offers consulting on mechanical design solutions that include the planning and installation of air conditioning and HVAC systems. We focus on delivering energy-efficient and cost-effective climate control systems that ensure optimal comfort and air quality for various building types, from high-rise commercial offices to expansive malls and hotels. Our design approach prioritizes performance, energy savings and sustainability, ensuring that each project meets local regulations and international standards.
- **Electrical Services:**
Our electrical services encompass a full range of consulting, design and specification expertise. We assist in determining the appropriate electrical infrastructure, including selecting transformers, defining wire specifications, and ensuring the installation of essential backup systems such as UPS units and D G set systems. Our team designs and specifies power distribution, ensuring the proper capacity and ratings for safe, reliable, and energy-efficient electrical systems. We also focus on future-proofing designs to

accommodate any potential expansion or load increase, ensuring long-term operational stability and security.

➤ **Plumbing Services:**

Our plumbing consulting services include the design of efficient and sustainable drainage systems, water storage solutions, and water treatment systems. We guide clients in the development of drainage networks that ensure optimal flow and management of waste. Additionally, our designs include the planning of water storage and treatment systems, emphasizing water conservation and quality control. By integrating advanced technologies and eco-friendly solutions, we ensure that plumbing systems are not only effective but also environmentally sustainable.

II. PMC

Our company offers comprehensive Project Management Consultancy (PMC) services, ensuring the successful execution of MEP (Mechanical, Electrical, and Plumbing) projects across various sectors, including commercial buildings, hotels, malls, and industrial facilities.

We specialize in managing complex MEP projects by offering strategic planning, scheduling, budgeting and quality assurance services. We act as a bridge between clients, contractors and vendors, ensuring seamless communication and coordination across all stakeholders.

Our PMC services include:

- **Project Planning and Scheduling:** We develop detailed project plans, timelines, and milestones, ensuring that every stage of the project is well-organized and executed on schedule.
- **Cost Management and Budgeting:** Our team carefully monitors project costs, providing accurate budgeting, cost forecasting, and financial control to prevent cost overruns and ensure financial efficiency.
- **Quality Control and Assurance:** We implement robust quality assurance processes, ensuring that all MEP installations meet industry standards and client expectations for functionality and safety.
- **Risk Management:** We identify potential risks early in the project and take proactive steps to mitigate them, ensuring smooth progress and minimizing disruptions.
- **Contract Management and Procurement:** Our team oversees procurement processes and ensures that contracts are managed effectively, guaranteeing that all necessary resources are available and that the project is executed according to contract specifications.

With a strong track record of successful project deliveries, our PMC services provide clients with the assurance that their MEP projects will be completed efficiently, within budget, and to the highest standards. We prioritize client satisfaction by managing every detail of the project and adapting quickly to changing conditions, ensuring optimal results throughout the project lifecycle.

III. MEC Test Lab

MEC test house lab is a segment of our Company. It is a quality assurance lab and is accredited by National Accreditation Board for Testing & Calibration Laboratories (NABL) as per ISO/IEC 17025:2017 vide Certificate No. TC-6481 which was valid till June 2024. We have applied for the renewal of the certificate. The final assessment audit of the test lab has been completed by

NABL and we are currently awaiting the certificate. MEC test house lab is also accredited with ISO 9001:2008, 14001:2015 & 50001:2011, OHSAS 180001:2007 for “Quality Management System”. The test house is well equipped with Testing Equipment calibrated from NABL Accredited Lab. The laboratory is designed with state-of-the-art machinery at par with international standards, thus, providing our clientele accurate and reliable results.

3. Hospitality Service: Our Company also operates a farmhouse called Yahvi. The property is located on the outskirts of Jaipur, and offers a range of amenities, including kitchen access, a terrace garden, dining area, parking space and more. The property is an ideal destination for travellers, offering a unique blend of comfortable accommodations and delicious food, ensuring a memorable stay. Further extending commitment to the environment we have installed a 40KW solar plant at Yahvi also to offset our electrical usage. Yahvi represents a blend of practicality and charm, often symbolizing a return to traditional living while staying in touch with the luxuries of the city.

4. RESCO Model: Our company also operates as RESCO provider. Under this segment, we bid for projects where in entire investment from procurement, installation, operation and maintenance (O&M) is done by us. Our company for the purpose of execution of these projects, have created SPVs (Special Purpose Vehicle) for every RESCO project in which investments are done. At present, four SPVs have been formed for the RESCO projects awarded in the name of the company namely;

S. No	Name of the SPV	RESCO Project Capacity (in KW)	Name of the Awarder of the Project	PPA (Power Purchase agreement) Date	COD (Commercial Operation Date)	Tenure of PPA	PPA Tariff Rate (in Rs.)

RAW MATERIALS

Our Company is primarily engaged in EPC (Engineering, Procurement, and Construction) projects across solar, electrical, water and civil infrastructure sectors. The key raw materials required for our operations include:

Solar EPC: ALMM-approved solar PV modules, solar mounting structures (fabricated steel components), DCDBs, ACDBs, inverters, and aluminium armored cables.

Electrical EPC: Electrical panels, transformers, lighting fixtures, poles, line materials, and other electrical hardware.

Water and Civil EPC: Construction materials such as cement, sand, aggregates, reinforcement steel and related civil inputs.

The bifurcation of the raw material for the fiscal year ended on March 31, 2025, 2024 and 2023 is as under:

INFRASTRUCTURE & UTILITIES

Infrastructure Facilities

Our registered office and corporate office are well equipped for our business operations to function smoothly.

Power

The company has installed a 35 KW rooftop solar power system to optimize energy consumption and reduce dependence on conventional electricity sources. In addition to solar power, the company is also connected to the electricity board's grid, ensuring an uninterrupted power supply. This hybrid setup allows the company to utilize solar energy during peak generation hours while seamlessly switching to grid power when needed. By integrating renewable energy with traditional power sources, the company enhances cost efficiency, energy reliability, and sustainability, aligning with green energy regulations. To further enhance reliability, the company has dedicated backup power system using a 62.5 KVA Silent Diesel Generator set. The DG set ensures continuous power supply during grid failures, voltage fluctuations or any unexpected power interruptions. It is operated as needed minimizing downtime and ensuring business operations run smoothly.

Water

Adequate arrangements with respect to water requirements for drinking purpose are made at all the offices of the Company.

Technology

Our Company is providing services, and we have adequate computer systems, servers and other communication equipment, internet connectivity, security and the company uses Coral DRAW, PV System and ZWCAD for design, drafting and project planning. These tools help in creating technical drawings, designing layouts and optimizing workflows for relevant business operations.

ENVIRONMENT SOCIAL AND CORPORATE GOVERNANCE INITIATIVES

Our safety, health and environmental practices are robust and are continuously updated to adapt to the safety, health and environmental practices, rules, and regulations of the geography we operate in. We conduct external tests of our safety mechanisms every year to comply with the requirements of the Health and Safety Management System and Environmental Management System.

Our Company has set up the CSR Committee and adopted the CSR Policy in compliance with the provision of Section 135 of the Companies Act, 2013 and the rules made thereunder. The total expenditure required to be spent for the period ended March 31, 2025 was Rs. 7.32 lakhs.

LOGISTICS

Logistics plays a crucial role in our business operations. Raw materials, equipment, and supplies are procured and transported to our project sites and test labs through third-party logistics providers. We utilize rented warehouses and storage facilities to manage inventory efficiently. Our infrastructure includes designated stockyards to ensure the smooth handling and distribution of materials. We do not have fixed contractual agreements with logistics providers but engage their services on an as-needed basis to optimize costs and maintain operational flexibility.

SALES AND MARKETING SET UP

Our company engages in B2G (Business-to-Government), B2B (Business-to-Business), and B2C (Business-to-Consumer) transactions. We do not have a dedicated sales and marketing team; instead, business is secured through a combination of competitive bidding, strategic partnerships and direct client engagement.

For B2G projects, we primarily secure contracts through a tendering process. Our planning and monitoring team actively tracks government project tenders by reviewing official websites, tender aggregators and newspaper advertisements. Identified projects are then assessed based on eligibility

criteria and management approval is sought before submission. The team ensures compliance with technical, financial and regulatory requirements to enhance our chances of qualification.

For corporate clients, business development is driven through direct industry relationships, networking, referrals, and repeat business. Our company collaborates with businesses that require EPC (Engineering, Procurement, and Construction), PMC (Project Management Consultancy), and MEC (Material Testing and Certification) services. Our promoters and senior management play an active role in identifying potential corporate clients, understanding their requirements, and offering customized solutions. We leverage our strong reputation, past project success, and industry expertise to secure long-term contracts and maintain client trust. The absence of a dedicated sales team is offset by our direct client engagement approach, where we focus on delivering quality, timely execution, and cost-effective solutions to foster business growth.

In the hospitality sector, our business is primarily service-driven, relying on customer engagement, word-of-mouth marketing, and service excellence. Since this segment deals directly with individual customers, our focus is on ensuring exceptional customer satisfaction, which leads to repeat customers and positive brand recognition. We maintain standards in service delivery, operational efficiency and customer experience to strengthen our presence in this segment.

COMPETITION

Our company operates in a highly competitive environment, facing competition from other infrastructure development and project management companies within the same geographical regions. The level of competition we encounter depends on various factors, including the type of project, total contract value, potential margins, project complexity, location, and associated risks with revenue generation. While key factors such as service quality, technical expertise, performance history, experience, health and safety records, and the availability of skilled personnel play a significant role in client decision-making, price is often the primary determining factor in most tender awards.

COLLABORATION

There is no collaboration as on the date of filing of this Red Herring Prospectus.

HUMAN RESOURCES

We consider our employees to be assets of our organization and we are committed to building and nurturing our human capital. Our company looks for specific skill-sets, interests and background that would be an asset for our business.

As on July 31, 2025, we had 108 (102 permanent employees and 06 contractual employees) which include Accounts & Finance, Compliance, Maintenance, Purchase & Store, DLP & Maintenance and Top-Level Management. We seek to maintain a culture of innovation by empowering our employees at all levels of our organization. Our success depends upon our ability to attract, develop, motivate and retain highly skilled and multi-dimensional team members. Our people management strategy is based on four key components: recruiting, training and development, compensation and retention.

The following table sets forth a breakdown of our employees by function:

Department	Number of Regular Employees	Number of contractual employees
Top Level Management	5	0
Accounts & Finance	6	0
Administration	12	1

Department	Number of Regular Employees	Number of contractual employees
Human Resource	2	0

KEY INDUSTRY REGULATIONS AND POLICIES

*The following description is a summary of the relevant regulations and policies as prescribed by the Government of India and other regulatory bodies that are applicable to our business. The information detailed in this chapter has been obtained from various legislations, including rules and regulations promulgated by the regulatory bodies that are available in the public domain. The regulations and policies set out below may not be exhaustive and are only intended to provide general information to the investors and are neither designed nor intended to be a substitute for professional legal advice. The Company may be required to obtain licenses and approvals depending upon the prevailing laws and regulations as applicable. For details of such approvals, please see the section titled “**Government and Statutory Approvals**” on page 314.*

SECTOR SPECIFIC REGULATORY FRAMEWORK

National Highways Act, 1956

Section 5 of the National Highway Act, 1956 (“**NH Act**”) provides that the Central Government is responsible for the development and maintenance of National Highways and may delegate any function relating to the development of ‘National Highways’ to the relevant state government in whose jurisdiction the ‘National Highway’ falls, or any officer or authority subordinate to the central or the concerned state government. As per Section 8A of the NH Act, the Central Government may enter an agreement with any person (being, either an individual, a partnership firm, a company, a joint venture, a consortium or any other form of legal entity) in relation to the development and maintenance of the whole or any part of a ‘National Highway’. Such an agreement may provide for designing and building a project and operating and maintaining it, collecting fees from users during an agreed period, which period together with the construction period is usually referred to as the ‘concession period’, the right of the person to collect fees and his obligation to operate and maintain the project ceases and the facility stands transferred to the central government.

National Highways Authority of India Act, 1988

The National Highways Authority of India Act, 1988 (the “**NHAI Act**”) provides for the constitution of an authority for the development, maintenance, and management of national highways. The National Highways Authority of India (“**NHAI**”) was constituted as an autonomous body to acquire, hold and dispose of property, both movable and immovable, and to enter into contracts for the purpose of development, maintenance and management of national highways. Under the NHAI Act, the Central Government carries out development and maintenance of the national highway system, through NHAI. Section 12(a) of the NHAI Act provides that all contracts entered into and all matters and things engaged to be done by, with, or for, the Central Government with the purposes of any national highway or any stretch thereof vested in, or entrusted under the NH Act, shall be deemed to have been incurred, entered into and engaged to be done by, with, or for, the NHAI.

Further, Section 16(2)(h) of the NHAI Act provides that the NHAI may engage, or entrust any of its functions to, any person on such terms and conditions as may be prescribed for the discharge of the duties of NHAI.

The Government aims to attract both foreign and domestic private investments in construction and maintenance of National Highways. Projects may be offered on BOT basis to private agencies. The concession period can be up to a maximum of 30 years, after which the road is transferred back to NHAI by the concessionaries.

Electricity Act, 2003

The Electricity Act, 2003 (“**Electricity Act**”) provides for, inter alia, generation, transmission, distribution, trading and use of electricity. Under the Electricity Act, the transmission, distribution and trade of electricity are regulated activities that require licenses from the Central Electricity Regulatory

Commission (“**CERC**”), the State Electricity Regulatory Commissions (“**SERCs**”) or a joint commission (constituted by an agreement entered into by two or more state governments or the central government in relation to one or more state governments, as the case may be). The generating company is required to establish, operate and maintain generating stations, tie-lines, sub-stations and dedicated transmission lines. Further, the generating company may supply electricity to any licensee or even directly to consumers, subject to availing open access to the transmission and distribution systems and payment of transmission charges, including wheeling charges and open access charges, as may be determined by the relevant electricity regulatory commission. In terms of the Electricity Act, open access means the non-discriminatory provision for the use of transmission lines or distribution system or associated facilities with such lines or system, by any licensee or consumer or a person engaged in generation in accordance with the regulations specified by the relevant electricity regulatory commission. Under the Electricity Rules, 2005, as amended, if the captive generating plant is established by an affiliate company, the captive user must hold no less than 51% of the ownership in that affiliate company.

STATUTORY AND COMMERCIAL LAWS

The Companies Act, 2013 & Companies Act, 1956

The Companies Act, 2013, has replaced the Companies Act, 1956, in a phased manner. The Companies Act, 2013 received the assent of the President of India on August 29, 2013. At present, almost all the provisions of this law have been made effective except a few to which extent the Companies Act, 1956, is still applicable. The Ministry of Corporate Affairs has also issued rules complementary to the Companies Act, 2013 establishing the procedure to be followed by companies in order to comply with the substantive provisions of the Companies Act, 2013. The Companies Act primarily regulates the formation, financing, functioning, and winding up of companies. The Companies Act, 2013 prescribes regulatory mechanisms regarding all relevant aspects including organizational, financial and managerial aspects of companies.

Indian Contract Act, 1872

The Indian Contract Act, 1872 (“**Contract Act**”) codifies the way in which a contract is entered, executed, and implemented and the implications of a breach of a contract. The Contract Act consists of limiting factors subject to which contract may be entered into, executed and breach enforced, as amended from time to time. It determines the circumstances in which a promise made by the parties to a contract shall be legally binding on them. Each contract creates some rights and duties upon the contracting parties. The Contract Act deals with the enforcement of these rights and duties upon the parties. The Contract Act also lays down provisions of indemnity, guarantee, bailment, and agency. Provisions relating to the sale of goods and partnerships which were originally in the Act are now the subject matter of separate enactments viz., the Sale of Goods Act, 1930 and the Indian Partnership Act 1932. The objective of the Contract Act is to ensure that the rights and obligations arising out of a contract are honoured and that legal remedies are made available to those who are affected.

Specific Relief Act, 1963

The Specific Relief Act, 1963 (“**Specific Relief Act**”) is complimentary to the provisions of the Contract Act, as the Specific Relief Act applies to movable property also. The Specific Relief Act applies in cases where the Court can order specific performance of a contract. Specific relief can be granted only for purpose of enforcing individual civil rights and not for the mere purpose of enforcing a civil law. ‘Specific performance’ means Court will order the party to perform his part of agreement, instead of imposing on him any monetary liability to pay damages to other party.

Consumer Protection Act, 2019

The Consumer Protection Act, 2019 (“**Consumer Act**”), has repealed Consumer Protection Act, 1986 and provides for the protection of the interest of the consumers and the settlement of disputes raised by the consumers. The provisions of the Consumer Protection Act, 2019 have been made effective

vide notification no. F. No. J-9/1/2020-CPU dated July 23, 2020, and notification no. F. No. J-9/1/2020-CPU dated July 15, 2020, as issued by the Central Government. The Consumer Act sets out a mechanism for consumers to file complaints against, inter alia, service providers in cases of deficiencies in services, unfair or restrictive trade practices, and excessive pricing. A three-tier consumer grievance redressal mechanism has been implemented pursuant to the Consumer Act, at the national, state, and district levels. Further, the Consumer Act established a Central Consumer Protection Authority to promote, enforce, and protect the rights of consumers. If the allegations specified in a complaint about the services provided are proved, the service provider can be directed to inter alia remove the deficiencies in the services in question, return to the complainant the charges paid by the complainant, and pay compensation, including punitive damages, for any loss or injury suffered by the consumer. Non-compliance with the orders of the authorities may attract criminal penalties in the form of fines and/or imprisonment.

Competition Act, 2002

The Competition Act, 2002 aims to anti-competitive practices that cause or are likely to cause an appreciable adverse effect on competition in the relevant market in India. The act deals with the prohibition of agreements and anti-competitive agreements. No enterprise or group shall abuse its dominant position in various circumstances as mentioned under the act. The prima facie duty of the Competition Commission established under the act is to eliminate practices having adverse effects on competition, promote and sustain competition, protect the interests of the consumer, and ensure freedom of trade.

Micro, Small and Medium Enterprises Development Act, 2006

The Micro, Small and Medium Enterprises Development Act, 2006 was enacted in order to promote and enhance the competitiveness of Micro, Small and Medium Enterprise (“MSME”). As per the notification no. F. No. 2/1(5)/2019-P&G/Policy (Pt.-IV) dated June 01, 2020, the Central Government notified the following criteria for the classification of MSME with effect from July 01, 2020: as a micro-enterprise, where the investment in plant and machinery or equipment does not exceed One Crore Rupees and turnover does not exceed Five Crore Rupees; a small enterprise, where the investment in plant and machinery or equipment does not exceed ten crore rupees and turnover does not exceed Fifty Crore Rupees; and a medium enterprise, where the investment in plant and machinery or equipment does not exceed Fifty Crore Rupees and turnover does not exceed Two Hundred and Fifty Crore Rupees.

The Union Budget 2025-26 has proposed revisions to the classification limits for MSME. These proposed changes reflect a 2.5x increase in investment limits and a 2x increase in turnover limits. The new classification thresholds are as follows: (a) For Micro Enterprises, the investment limit will be raised to Rs. 2.5 crores and the turnover limit to Rs. 10 crores; (b) For Small Enterprises, the investment limit will be increased to Rs. 25 crores and the turnover limit to Rs. 100 crores; and (c) For Medium Enterprises, the investment limit will be enhanced to Rs. 125 crores and the turnover limit to Rs. 500 crores. A formal notification under the Micro, Small and Medium Enterprises Development Act, 2006 is anticipated to implement these changes.

The Arbitration & Conciliation Act, 1996

The Arbitration and Conciliation Act, 1996 (“A&C Act”) provides a framework for the resolution of disputes through arbitration and conciliation. The main aim of A&C Act is to promote alternative dispute resolution mechanisms and offer cost-effective, and private alternative to court litigation. Arbitration or conciliation is initiated based on an agreement between the parties or by a court order. In arbitration proceedings the tribunal conducts hearings, gathers evidence, and issues an award based on the proceedings. In conciliation proceedings, the conciliator engages with the parties to help them reach a mutually acceptable resolution. The arbitral award is the final decision of the arbitrator(s), which is binding on the parties. The arbitral award has the same force of decree as that the court decree.

The Registration Act, 1908

The purpose of the Registration Act, 1908 amongst other things, is to provide a method of public registration of documents so as to give information to people regarding legal rights and obligations arising or affecting a particular property, and to perpetuate documents which may afterwards be of legal importance, and also to prevent fraud.

Negotiable Instruments Act, 1881

The laws governing monetary instruments such as cheques are contained in the Negotiable Instruments Act, 1881 (“**NI Act**”). The NI Act provides effective legal provision to restrain people from issuing cheques without having sufficient funds in their account or any stringent provision to punish them in the event of such cheque not being honoured by their bankers and returned unpaid. Section 138 of the NI Act creates statutory offence in the matter of dishonour of cheques on the ground of insufficiency of funds in the account maintained by a person with the banker which is punishable with imprisonment for a term which may extend to two years, or with fine which may extend to twice the amount of the cheque, or with both.

Limitation Act, 1963

The law relating to Law of Limitation to India is the Limitation Act, 1859 and subsequently Limitation Act, 1963 which was enacted on 5th of October 1963 and which came into force from 1st of January, 1964 for the purpose of consolidating and amending the legal principles relating to limitation of suits and other legal proceedings. The basic concept of limitation is relating to fixing or prescribing of the time period for barring legal actions. According to Section 2 (j) of the Limitation Act, 1963, period of limitation means the period of limitation prescribed for any suit, appeal or application by the Schedule, and prescribed period means the period of limitation computed in accordance with the provisions of this Act.

LEGISLATIONS RELATING TO LABOUR AND EMPLOYMENT

Employees State Insurance Act, 1948

Employees State Insurance Act, 1948 (“**ESI Act**”) as amended, provides for certain benefits to employees in case of sickness, maternity, and employment injury. All employees in establishments covered by the ESI Act are required to be insured, with an obligation imposed on the employer to make certain contributions in relation thereto. In addition, the employer is also required to register itself under the ESI Act and maintain prescribed records and registers.

Employees Provident Fund and Miscellaneous Provisions Act, 1952, and the schemes formulated there under

This Employees Provident Fund and Miscellaneous Provisions Act, 1952 (“**EPF Act**”) provides for the institution of provident funds, family pension funds, and deposit-linked insurance funds for the employees in factories and other establishments. Accordingly, the following schemes are formulated for the benefit of such employees:

- (i) **The Employees Provident Fund Scheme, 1952:** As per this scheme, a provident fund is constituted and both the employees and employer contribute to the fund at the rate of 12% (or 10% in certain cases) of the basic wages, dearness allowance and retaining allowance, if any, payable to employees per month.
- (ii) **The Employees’ Pension Scheme, 1995:** The employees’ pension scheme is a pension scheme for survivors, old aged and disabled persons. This scheme derives its financial resources by partial diversion from the provident fund contribution, the rate is 8.33%. Thus, a part of the contribution representing 8.33% of the employee’s pay shall be remitted by the employer to the employee’s pension fund within fifteen (15) days of the close of every month by a separate bank draft or cheque on account of the employees’ pension fund contribution in such manner as may be specified in this behalf by the appropriate authority constituted under the EPF Act.

- (iii) **The Employees Deposit Linked Insurance Scheme, 1976:** As per this scheme, the contribution by the employer shall be remitted by him together with administrative charges at such rate as the Central Government may fix from time to time under Section 6C (4) of the EPF Act, to the insurance fund within fifteen (15) days of the close of every month by a separate bank draft or cheque or by remittance in cash in such manner as may be specified in this behalf by the appropriate authority constituted under the EPF Act.

The Sexual Harassment of Women at Workplace (Prevention, Prohibition and Redressal) Act, 2013

The Sexual Harassment of Women at Workplace (Prevention, Prohibition and Redressal) Act, 2013 (“**SHWW Act**”) provides for the protection of women at the workplace and the prevention of sexual harassment at the workplace. The SHWW Act also provides for a redressal mechanism to manage complaints in this regard. Sexual harassment includes one or more of the following acts or behaviour namely, physical contact and advances a demand or request for sexual favours or making sexually colored remarks, showing pornography or any other unwelcome physical, verbal or non-verbal conduct of a sexual nature. The SHWW Act makes it mandatory for every employer of a workplace to constitute an internal complaints committee which shall always be presided upon by a woman. It also provides for the manner and time period within which a complaint shall be made to the internal complaints committee i.e., a written complaint is to be made within a period of three (3) months from the date of the last incident. If the establishment has less than ten (10) employees, then the complaints from employees of such establishments as also complaints made against the employer himself shall be received by the local complaints committee. The penalty for non-compliance with any provision of the SHWW Act shall be punishable with a fine extending to Rs. 50,000/- (Rupees Fifty Thousand Only).

The Payment of Wages Act, 1936

The Payment of Wages Act applies to the persons employed in the factories and to persons employed in industrial or other establishments, either directly or indirectly through a sub-contractor, where the monthly wages payable to such persons is less than ₹ 24,000/-. The Act confers on the person(s) responsible for payment of wages certain obligations with respect to the maintenance of registers and the display in such factory/establishment, of the abstracts of this Act and Rules made there under.

In order to rationalize and reform all labour laws in India, the Government of India has notified four labour codes that are yet to come into force as of the date of this Red Herring Prospectus, which are as follows:

- (i) The Code on Social Security, 2020*
- (ii) The Code on Wages, 2019*
- (iii) Industrial Relations Code, 2020*
- (iv) Occupational Safety, Health and Working Conditions Code, 2020*

** These codes shall become effective on the day that the Government shall notify for this purpose.*

Shops and Establishment Laws

The shops and establishment laws govern a company in the states where it has offices/godowns/shops. It regulates the conditions of work and employment in shops and commercial establishments and generally prescribes obligations in respect of registration, opening and closing hours, daily and weekly working hours, health and safety measures, and wages for overtime work.

The Payment of Bonus Act, 1965

The Payment of Bonus Act, 1965, as amended (“**PoB Act**”) provides for payment of minimum bonuses to factories, and every other establishment in which 20 or more persons are employed and requires maintenance of certain books and registers and filing of monthly returns showing computation of allocable surplus, set on and set off of allocable surplus and bonus due. The minimum bonus to be paid to each employee is 8.33% of the annual salary or wage or ₹100, whichever is higher.

The Maternity Benefit Act, 1961

The Maternity Benefit Act, 1961 (“**Maternity Act**”) provides for leave and the right to payment of maternity benefits to women employees in case of confinement or miscarriage, etc. The Maternity Act is applicable to every establishment being a factory, mine, or plantation inter alia to every shop or establishment within the meaning of any law for the time being in force in relation to shops and establishments in a State, in which ten or more persons are employed, or were employed, on any day of the preceding twelve months; provided that the State Government may, with the approval of the Central Government, after giving at least two months’ notice shall apply any of the provisions of the Maternity Act to any specific establishments or class of establishments, industrial, commercial, agricultural or otherwise. The Maternity Benefit (Amendment) Act, 2017 amended the Maternity Act to provide for the increase of paid maternity leave from 12 to 26 weeks unless the mother has two or more surviving children and introduced a mandatory provision for creche facilities for employers with more than 50 employees.

The Minimum Wages Act, 1948

The Minimum Wages Act, 1948, as amended (“**Minimum Wages Act**”) provides a framework for State Governments to stipulate the minimum wage applicable to a particular industry. The minimum wage may consist of a basic rate of wages and a special allowance, or a basic rate of wages and the cash value of concessions in respect of supplies of essential commodities, or an all-inclusive rate allowing for the basic rate, the cost of living allowance and the cash value of the concessions, if any. Workmen are to be paid for overtime at overtime rates stipulated by the appropriate government.

Other Labour law legislations:

In addition to the aforementioned material legislations that are applicable to our Company, some of the other labour legislations that may be applicable to our Company include the following:

- (i) Payment of Gratuity Act, 1972;
- (ii) State-wise Labour welfare fund legislations and rules made thereunder;
- (iii) Equal Remuneration Act, 1976;
- (iv) Workmen's Compensation Act, 1923;
- (v) The Inter-State Migrant Workmen (Regulation of Employment and Conditions of Service) Act, 1979;
- (vi) The Industries (Development and Regulation) Act, 1951;
- (vii) Industrial Disputes Act, 1947

TAX LAWS

The Income Tax Act, 1961

The Income Tax Act, 1961 (“**Tax Act**”) deals with the taxation of individuals, corporate, partnership firms, etc. As per the provisions of the Tax Act, the rates at which they are required to pay tax are calculated on the income declared by them or assessed by the authorities, after availing the deductions and concessions accorded under the Act. The maintenance of books of accounts and relevant supporting documents and registers are mandatory under the Tax Act. Filing of returns of income is compulsory for all assesses. The maintenance of books of accounts and relevant supporting documents and registers are mandatory under the Tax Act.

The Central Goods and Services Tax Act, 2017

The Central Goods and Services Tax Act, 2017, levy indirect tax throughout India to replace many taxes levied by the Central and State Governments. The Central Goods and Services Tax Act, 2017 was applicable from July 1, 2017, and combined the Central Excise Duty, Commercial Tax, Value Added Tax (VAT), Food Tax, Central Sales Tax (CST), Introit, Octroi, Entertainment Tax, Entry Tax, Purchase Tax, Luxury Tax, Advertisement Tax, Service Tax, Customs Duty, Surcharges. GST is levied on all transactions such as sale, transfer, purchase, barter, lease, or import of goods and/or services. India has adopted a dual GST model, meaning that taxation is administered by both the Union and State Governments. Transactions made within a single state are levied with Central GST (CGST) by the Central Government

and State GST (SGST) by the government of that state. For inter-state transactions and imported goods or services, an Integrated GST (IGST) is levied by the Central Government. GST is a consumption-based tax; therefore, taxes are paid to the state where the goods or services are consumed and not the state in which they were produced.

The Customs Act, 1962, and Customs Tariff Act, 1975.

The stipulations prescribed by the Customs Act of 1962 and its corresponding regulations are enforceable during the importation of goods into India from foreign territories, as well as during the exportation of goods from India to foreign destinations. Additionally, the Customs Tariff Act of 1975 establishes the applicable rates for the imposition of customs duties as per the provisions outlined in the Customs Act of 1962.

INTELLECTUAL PROPERTY LAWS

The Trademarks Act, 1999

The Trademarks Act, 1999 (“**TM Act**”) provides for the process for making an application and obtaining registration of trademarks in India. The purpose of the TM Act is to grant exclusive rights to marks such as a brand, label, and to obtain relief in case of infringement for commercial purposes as a trade description. The TM Act prohibits the registration of deceptively similar trademarks and provides for penalties for infringement, falsifying, and falsely applying trademarks.

FOREIGN INVESTMENT REGULATIONS

Foreign Trade (Development and Regulation) Act, 1992, and the Foreign Trade Policy of India, 2023

The Foreign Trade (Development and Regulation) Act, 1992 (“**FTA**”) seeks to increase foreign trade by regulating imports and exports to and from India. It authorizes the Government to formulate as well as announce the export and import policy and to keep amending the same on a timely basis. The Foreign Trade Policy of India, 2023 is notified by Central Government, in the exercise of powers conferred under Section 5 of the FTA, as amended. In accordance with Policy 2023, an entity is required to mandatorily apply for the Importer-Exporter Code (“**IEC**”) for undertaking import/export activities.

Foreign Exchange Management Act, 1999, and rules and regulations framed thereunder

Foreign investment in India is governed primarily by the provisions of the Foreign Exchange Management Act, 1999 (“**FEMA**”) which relates to regulation primarily by the RBI and the rules, regulations, and notifications there under, and the policy prescribed by the Department of Industrial Policy and Promotion, Ministry of Commerce & Industry, Government of India. As laid down by the FEMA Regulations (as defined hereunder), no prior consents and approvals are required from the RBI, for foreign direct investment (“**FDI**”) under the ‘automatic route’ within the specified sectoral caps. In respect of all industries not specified as FDI under the automatic route, and in respect of investment in excess of the specified sectoral limits under the automatic route, approval may be required from the FIPB and/or the RBI. The RBI, in the exercise of its power under the FEMA, has notified the Foreign Exchange Management (Non-debt Instruments) Rules, 2019 vide notification F.No. 1/14/EM/2015 dated October 17, 2019 (“**FEMA Regulations**”) which governs transfer by or issue security to a person resident outside India. FEMA Regulations repealed the Foreign Exchange Management (Transfer or Issue of Security by a Person Resident outside India) Regulations, 2017, and Foreign Exchange Management (Acquisition and Transfer of Immovable Property in India) Regulations, 2018.

Foreign Direct Investment Policy, 2020

With the intent and objective of the Government of India to attract and promote foreign direct investment in order to supplement domestic capital, technology, and skills, for accelerated economic growth. The Government of India has put in place a policy framework on Foreign Direct Investment, which is transparent, predictable, and easily comprehensible. This framework is embodied in the Circular on Consolidated FDI Policy, which may be updated every year, to capture and keep pace with

the regulatory changes, effected in the interregnum. The Department of Industrial Policy and Promotion (DIPP), Ministry of Commerce & Industry, Government of India makes policy pronouncements on FDI through press notes/press releases which are notified by the RBI as amendments to the Foreign Exchange Management (Transfer or Issue of Security by Persons Resident Outside India) Regulations, 2000. These notifications take effect from the date of issue of press notes/press releases unless specified otherwise therein. In case of any conflict, the relevant FEMA Notification will prevail. The procedural instructions are issued by the RBI vide A.P. (DIR Series) Circulars. The regulatory framework, over a period, thus, consists of Acts, Regulations, Press Notes, Press Releases, Clarifications, etc.

B. SIGNIFICANT ACCOUNTING POLICIES

I. BASIS OF PREPARATION

The restated consolidated and standalone statement of assets and liabilities of the Company / Group as at 31st March 2025, 31st March 2024 and 31st March 2023 and the related restated consolidated and standalone statement of profits and loss and cash flows for the year ended 31st March 2025, 31st March 2024, and 31st March 2023 (herein collectively referred to as ("Restated Consolidated and Standalone Statements")) have been compiled by the management from the audited Financial Statements for the year ended 31st March 2025, year ended 31st March 2024, and year ended 31st March 2023. Restated Consolidated and Standalone Statements have been prepared to comply in all material respects with the provisions of Part I of Chapter III of the Companies Act, 2013 (the "Act") read with Companies (Prospectus and Allotment of Securities) Rules, 2014, Securities and Exchange Board of India (Issue of Capital and Disclosure Requirements) Regulations, 2018 ("ICDR Regulations") issued

by SEBI and Guidance note on Reports in Companies Prospectuses (Revised 2019) ("Guidance Note"). Restated Consolidated and Standalone Statements have been prepared specifically for inclusion in the offer document to be filed by the Company / Group with the stock exchange/SEBI in connection with its proposed IPO. The Company's management has recast the Financial Statements in the form required by Schedule III of the Companies Act, 2013 for the purpose of restated consolidated and standalone Summary Statements.

The Restated Consolidated and Standalone Financial Statements are prepared and presented under the historical cost convention and evaluated on a going-concern basis using the accrual system of accounting in accordance with the accounting principles generally accepted in India (Indian GAAP) and the requirements of the Companies Act, including the Accounting Standards as prescribed by the Section 133 of the Companies Act, 2013 ("the Act") read with Rule 7 of Companies (Accounts) Rules, 2021 (as Amended).

II. Significant accounting estimates and assumptions

The preparation of financial statements in conformity with GAAP requires judgements, estimates and assumptions to be made that affect the reported amount of assets and liabilities, disclosures of contingent liabilities on the date of financial statements and the reported amount of revenues & expenses during the reporting period. Difference between the actual results and estimated are recognized in the period in which the results are known/materialized.

III. Valuation of Inventories

Items of inventories are measured at lower of cost and net realisable value after providing for obsolescence, if any. Cost of inventories comprises of cost of purchase, and other costs net of recoverable taxes incurred in bringing them to their respective present location and condition.

Raw materials, components, stores and spares are valued at lower of cost and net realizable value. However, materials and other items held for use in the production of inventories are not written down below cost if the finished products in which they will be incorporated are expected to be sold at or above cost.

The stock of Work-in-progress is valued on estimated cost basis and finished goods of the business have been valued at the lower of cost and net realizable value. The cost has been measured on the actual cost basis and includes cost of materials, custom duty and cost of conversion to its present location and conditions. All other inventories of stores, consumables, raw materials are valued at landed cost. Finished good is valued at adding all direct cost and cost of transferring good to present location and condition or net realizable value whichever is lower. The stock of scrap is also valued at realizable value. Net realizable value is the estimated selling price in the ordinary course of business, less estimated costs of completion and estimated costs necessary to make the sale. Stock - in- Transit is valued at cost.

IV. Construction Contract :-

Revenue is recognized using the Percentage of Completion Method (POCM), based on the stage of contract completion as per Accounting Standard 7. This stage can be determined through cost-to-cost comparisons, work surveys, or milestones. Revenue is recognized if the contract revenue and costs can be reliably measured, and it is probable that economic

benefits will flow. If costs are expected to exceed revenue, the loss is immediately recognized. Adjustments for variations, claims, or incentives are made as soon as they are reliably measurable.

V. Revenue recognition

- a. The company/group follows the mercantile system of accounting and recognizes income and expenditure on accrual basis as a going concern. Revenue from consultancy services is recognized when the sole or final act takes place and the service becomes chargeable as per contract agreement. Interest income is recognized on time proportion basis taking into account the amount outstanding and the rate applicable.
- b. Revenue is recognized to the extent that it is probable that the economic benefits will flow to the company/group and the revenue can be reliably measured.
- c. Rental Income has been duly accounted for in the books of accounts as per Rent Agreement between the parties.
- d. Dividend from investment is recognized on received basis.
- e. Insurance claim is recognized on receipt basis.

VI. Property, Plant and Equipment

- a. **Tangible Assets** - Property, Plant and Equipment are stated at their original cost of acquisition less accumulated depreciation and impairment losses. Cost comprises of all costs incurred to bring the assets to their location and working condition and includes all expenses incurred up to the date of commercial utilization.

Subsequent expenditure related to an item of fixed assets is added to its book value only if it increases the future benefits from the existing asset beyond its previously assessed standard of performance. All other expenses on existing fixed assets, including day-to-day repair and maintenance expenditure and cost of replacing parts, are charged to the statement of profit and loss for the period during which such expenses are incurred.

Gain or losses arising from derecognition of fixed assets are measured as the difference between net disposal proceeds and the carrying amount of the asset and are recognized in the statement of profit & loss when the asset is derecognized.

- b. **Intangible Assets** - Intangible Assets are carried at cost less accumulated amortization and impairment losses, if any. The cost of an intangible asset comprises its purchase price, including any import duties and other taxes (other than those subsequently recoverable from the taxing authorities), and any directly attributable expenditure on making the asset ready for its intended use and net of any trade discounts and rebates. Subsequent expenditure on an intangible asset after its purchase/completion is recognized as an expense when incurred unless it is probable that such expenditure will enable the asset to generate future economic benefits in excess of its originally assessed standards of performance and such expenditure can be measured and attributed to the asset reliably, in which case such expenditure is added to the cost of asset.

- c. **Depreciation / Amortization and Useful Life of Property, Plant and Equipment / Intangible Assets**

Depreciation on all property, plant & equipment except building is provided on Written Down value method as per the useful life prescribed under schedule II of Companies Act 2013. Salvage Value of the assets has been taken @ 5% of Original Cost as prescribed in Schedule II. Items of fixed asset having WDV less than the threshold value of Rs.5000/- and/or having useful life of less than 12 months from date of acquisition can be depreciated in full (i.e. 100%).

Following are the estimated useful lives of various category of assets used:

Class of Assets	Useful life as per schedule III	Useful Life as per Company
Building (Other than Factory Building)(RCC Structures)	60 years	13 and 15 years*
Furniture and fixtures	10 years	10 years
Plant and Machinery	15 years	15 years
Office Equipments	5 years	5 years
Motor Vehicle- Motor Car Motorcycle	8 years	8 years
	10 years	10 years
Computer, Printer and Software	3 years	3 years
Solar Panel	25 years	25 years

* Depreciation on building is charged on straight line method considering the useful life as per the Lease Agreement.

d. Impairment of Assets

An asset is considered as impaired in accordance with Accounting Standard 28 on Impairment of Assets when at balance sheet date there are indications of impairment and the carrying amount of the asset, or where applicable the cash generating unit to which the asset belongs, exceeds its recoverable amount (i.e. the higher of the asset's net selling price and value in use). The carrying amount is reduced to the recoverable amount and the reduction is recognized as an impairment loss in the Statement of profit and loss.

If at the balance sheet date there is an indication that a previously assessed impairment loss no longer exists, the recoverable amount is asset is reflected at the recoverable amount subject to a maximum of depreciated historical cost.

VII. Foreign Currency Transaction: -

Transactions in foreign currency are recorded at the rate of exchange in force on the date of the transactions. Current assets, current liabilities and borrowings denominated in foreign currency are translated at the exchange rate prevalent at the date of the Balance Sheet. The resultant gain or loss is recognized in the Statement of profit and loss.

VIII. Government Grants :-

Grants are accounted as per AS 12. Government grants are recognized when there is reasonable assurance that the entity will comply with the conditions attached to them and that the grants will be received. Government grants related to income are recognized in the profit and loss account on a systematic basis in the periods in which the related expenses are incurred. Government grants related to assets are recognized as deferred income in the balance sheet and released to the profit and loss account over the useful life of the related assets by way of a reduced depreciation charge. However, company/group has not received any grant.

IX. Securities:-

The company/group classifies its investments in securities into three categories: trading securities, available-for-sale securities, and held-to-maturity securities.

- Trading securities are measured at fair value with unrealized gains and losses recognized in the profit or loss.

- b. Available-for-sale securities are also measured at fair value, but unrealized gains and losses are reported in other comprehensive income until realized.
- c. Held-to-maturity securities are carried at amortized cost, and interest income is recognized using the effective interest method. The company/group evaluates its investments for impairment at each reporting date, and any impairment losses are recognized in the income statement.

X. Borrowing Cost

Borrowing costs include interest, fees and other charges incurred in connection with the borrowing of funds. Borrowing costs that are attributable to the acquisition/construction of qualifying assets are capitalized as part of the cost of such asset up to the date when the asset is ready for its intended use. A qualifying asset is one that necessarily takes substantial period of time to get ready for intended use. All other borrowing costs are charged to Statement of profit and loss. There is no borrowing cost during the year.

XI. Provisions, Contingent Liabilities and Contingent Assets :-

- a. Provision involving substantial degree of estimation in measurements is recognized when there is a present obligation as a result of past events, and it is probable that there will be an outflow of resources.
- b. Contingent Liabilities are shown by way of notes to the Accounts in respect of obligations where, based on the evidence available, their existence at the Balance Sheet date is considered not probable.
- c. A Contingent Asset is not recognized in the Accounts."

XII. Taxes on Income

Tax expense for the year comprises current tax and deferred tax.

a. Current Tax:

Current income tax assets and liabilities are measured at the amount expected to be recovered from or paid to the taxation authorities. The tax rates and tax laws used to compute the amount are those that are enacted at the reporting date.

b. Deferred tax:

Deferred tax charge or benefit is the tax effects of timing difference between accounting income and taxable income for the year. The deferred tax charge or benefit and corresponding deferred tax liabilities or assets are recognized using the tax rates that have been enacted or substantially enacted by the balance sheet date.

Deferred tax assets are recognized only to the extent there is reasonable certainty that the assets can be realized in future; however, where there is unabsorbed depreciation or carry forward of losses, deferred tax asset are recognized only if there is a virtual certainty of realization of such assets.

The carrying amount of deferred tax assets is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be utilized as per AS 22.

XIII. Cash Flow Statement

Cash Flow Statement is prepared in accordance with the indirect method prescribed in Accounting Standard (AS) 3 on 'Cash Flow Statements'

XIV. Leases

Where the **company/group** is the lessee

Lease where the lessor effectively retains substantially all the risks and benefits of

ownership of the leased term, are classified as operating leases. Lease Rentals with respect to assets taken on 'Operating Lease' are charged to the Statement of profit and loss on a straight line basis over the lease term.

Leases which effectively transfer to the company/group substantially all the risks and benefits incidental to ownership of the leased item are classified as finance lease. Assets acquired on 'Finance Lease' which transfer risk and rewards of ownership to the company/group are capitalized as assets by the company/group at lower of fair value of the leased property or the present value of the minimum lease payments.

Amortization of capitalized leased assets is computed on the Written Down Value method as per rate envisaged in Schedule II to the Companies Act, 2013. Lease rental payable is apportioned between principal and finance charge using the internal rate of return method. The finance charge is allocated over the lease term so as to provide a constant periodic rate of interest on the remaining balance of liability.

Where the **company/group** is the lessor

Leases in which the company/group transfers substantially all the risks and benefits of ownership of the asset are classified as finance leases. Assets given under finance lease are recognized as a receivable at an amount equal to the net investment in the lease. After initial recognition, the company/group apportions lease rentals between the principal repayment and interest income so as to achieve a constant periodic rate of return on the net investment outstanding in respect of the finance lease. The interest income is recognized in the statement of profit and loss. Initial direct costs such as legal costs, brokerage costs, etc. are recognized immediately in the statement of profit and loss.

Leases in which the company/group does not transfer substantially all the risks and benefits of ownership of the asset are classified as operating leases. Assets subject to operating leases are included in fixed assets. Lease income on an operating lease is recognized in the statement of profit and loss on a straight-line basis over the lease term. Costs, including depreciation, are recognized as an expense in the statement of profit and loss. Initial direct costs such as legal costs, brokerage costs, etc. are recognized immediately in the statement of profit and loss.

XV. Employee Benefits

a. Defined Contribution Plan

Contributions as per the Employees' Provident Funds and Miscellaneous Provisions Act, 1952 towards provident fund and pension fund are charged to the Statement of Profit and Loss for the year when the contributions to the respective funds are due.

b. Defined Benefits Plan

Retirement benefits in the form of Gratuity are considered as defined benefit obligations and are provided on the basis of the actuarial valuation.

Liability towards Leave Entitlement Benefit is not provided by the company/group. As stated by the management that leaves accrued in a year lapses automatically if not availed.

XVI. Investments

Investments which are readily realisable and intended to be held for not more than one year from the date on which such investments are made, are classified as current

investments. All other investments are long term investments and classified as non-current Investments.

On initial recognition, all investments are measured at cost. The cost comprises purchase price and directly attributable acquisition charges such as brokerage, fees and duties. Current investments are carried out at lower of cost and fair value determined on an individual investment basis. Long-term investments are carried at cost. However, provision for diminution in value is made to recognize a decline other than temporary in the value of the long-term investments, if any.

On disposal of an investment, the difference between its carrying amount and net disposal proceeds is charged or credited to the statement of profit and loss.

XVII. Earnings Per Share

The company/group reports basic and diluted Earnings per Share (EPS) in accordance with Accounting Standard - 20 on Earnings per Share. Basic EPS is computed by dividing the net profit or loss for the year by the weighted average number of Equity shares outstanding during the year. Diluted EPS is computed by dividing the net profit or loss for the year by the weighted average number of equity shares outstanding during the year as adjusted for the effects of all dilutive potential equity shares, except where the results are anti-dilutive.

XVIII. Consolidation of Financial Statements

The consolidated financial statements have been prepared in accordance with the generally accepted accounting principles (GAAP) in India, as per the Accounting Standards issued by the Institute of Chartered Accountants of India (ICAI) and relevant provisions of the Companies Act, 2013. The financial statements have been prepared on a historical cost basis, except for certain financial instruments, which are measured at fair value.

Principles of Consolidation

- a. The consolidated financial statements include the financial statements of Current Infraprojects Limited (the parent) and, Current Infra Ompura Solar Pvt. Ltd. , Current Infra Bolnada Solar Pvt. Ltd. , Current Infra Talabera Solar Pvt. Ltd. And Current Infra Dhanbad Solar Pvt. Ltd. Its wholly owned subsidiaries. Subsidiaries are entities over which the parent has control. Control is presumed to exist when the parent owns, directly or indirectly, more than 50% of the voting power of the subsidiary or has the power to control the financial and operating policies of the subsidiary.
- b. A subsidiary is an entity over which the parent has control. The financial statements of the parent and its subsidiaries are consolidated on a line-by-line basis. All inter-company transactions, balances, income, and expenses have been eliminated in full upon consolidation. Investments in subsidiaries are initially recognized at cost.
- c. Non-controlling interests (minority interests) are identified and presented in the consolidated balance sheet separately from the equity of the shareholders of the parent company.

d. Consolidation Method

The acquisition method of accounting is used for the consolidation of subsidiaries. Under this method:

- The assets and liabilities of subsidiaries are recognized at fair value at the acquisition date.
- The difference between the cost of acquisition and the fair value of identifiable net assets acquired is recognized as goodwill (or capital reserve if the fair value of net assets exceeds the acquisition cost).

e. Goodwill on Consolidation

Goodwill arising on the acquisition of subsidiaries is measured at cost, being the excess of the cost of acquisition over the fair value of the identifiable net assets acquired at the acquisition date. Goodwill is tested for impairment annually, and any impairment losses are recognized in the profit and loss account.

f. **Minority Interest (Non-controlling Interests)**

The share of minority interests in the equity and profit or loss of the subsidiaries is disclosed separately in the consolidated balance sheet and consolidated profit and loss account. The share of profits attributable to minority interests is included in the consolidated profit and loss account under the heading "Profit for the year attributable to minority interests."

Notes:

1. The ratios have been computed as per the following formulas:

(i) Basic and Diluted Earnings per Share:

$$\frac{\text{Restated Profit after Tax attributable to equity shareholders}}{\text{Weighted average number of equity shares outstanding during the year}}$$

(ii) Return on Net worth (%):

$$\frac{\text{Restated Profit after Tax}}{\text{Restated Net worth as at year end}}$$

(iii) Net Asset Value (NAV) per Equity Share:

$$\frac{\text{Restated Net worth as at year end}}{\text{Total Number of equity shares as at year end}}$$

2. The figures disclosed above are based on the Restated Financial Information of the Company.

3. Weighted average number of equity shares is the number of equity shares outstanding at the beginning of the year adjusted for the number of equity shares issued during the year multiplied by the time weightage factor. The time weightage factor is the number of days for which the specific shares are outstanding as a proportion of total number of days during the year.

4. Net worth for the ratios represents sum of share capital and reserves and surplus (share premium and surplus in the Restated Summary Statement of Profit and Loss).
5. Earnings per share calculations are done in accordance with Accounting Standard (AS) –20 "Earning per Share", issued by the Institute of Chartered Accountants of India.
6. Earning Before Interest, Taxes, Depreciation & Amortization (EBITDA) = Profit Before Tax + Finance Cost + Depreciation & Amortisation – Other Incomes

MANAGEMENT DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

*You should read the following discussion of our financial condition and results of operations together with our “**Restated Financial Statements**” which have been included in this Red Herring Prospectus. The following discussion and analysis of our financial condition and results of operations is based on our Restated Financial Statements for the Financial Year ended on March 31, 2025, 2024, and 2023 including the related notes and reports, included in this Red Herring Prospectus prepared in accordance with requirements of the Companies Act and restated in accordance with the SEBI Regulations, which differ in certain material respects from IFRS, U.S. GAAP and GAAP in other countries. Our Financial Statements, as Restated have been derived from our Audited Financial Statements for the respective year. Accordingly, the degree to which our Restated Financial Statements will provide meaningful information to a prospective investor in countries other than India is entirely dependent on the reader’s level of familiarity with Indian GAAP, Companies Act, SEBI Regulations and other relevant accounting practices in India.*

*This discussion contains forward-looking statements and reflects our current views with respect to future events and financial performance. Actual results may differ materially from those anticipated in these forward-looking statements as a result of certain factors such as those described under “**Risk Factors**” and “**Forward Looking Statements**” beginning on pages 30 and 21 respectively, and elsewhere in this Red Herring Prospectus.*

Our Financial Year ends on March 31 of each year. Accordingly, all references to a particular Financial Year are for the 12 months ended March 31 of that year.

OVERVIEW

Our company is an infrastructure construction, development and EPC contractor company with expertise across a wide range of services. We specialize in Engineering, Procurement and Construction (EPC) services, offering comprehensive solutions in Solar EPC, Electrical EPC, Water EPC and Civil EPC contracts, which include interior and civil works, as well as road furniture, all on a fixed-sum turnkey basis. Additionally, we provide specialized Engineering Consulting Services in Mechanical, Electrical and Plumbing (MEP) systems, alongside Project Management Consulting (PMC) services. Our experience spans a variety of sectors, including hospitals, commercial buildings, malls and hotels. With a commitment to delivering high-quality, reliable and efficient infrastructure solutions, we are dedicated to meet the unique requirements of each project.

For further details, please refer “**Our Business – Overview**” on page 171.

SIGNIFICANT MATERIAL DEVELOPMENTS SUBSEQUENT LAST FINANCIAL YEAR

In the opinion of the Board of Directors of our Company, since the date of the last financial statements disclosed in this Red Herring Prospectus, except as mentioned below, there have not arisen any circumstance that materially and adversely affect or are likely to affect the business activities or profitability of our Company or the value of its assets or its ability to pay its material liabilities within the next twelve months except as mentioned below:

- 1) Our company, in consultation with the BRLM, has undertaken a Pre-IPO Placement of 4,22,400 Equity Shares of face value of ₹ 10/- each for an aggregate amount of ₹ 337.92 Lakhs on May 12, 2025. The size of the Fresh Issue as disclosed in the Draft Red Herring Prospectus, aggregating up to 56,48,000 Equity Shares of face value of ₹ 10/- each, has been reduced by 4,22,400 Equity

Shares pursuant to the Pre-IPO Placement, and accordingly, the Fresh Issue is for an aggregate up to 52,25,600 Equity Shares of face value of ₹ 10/- each.

- 2) Our Company has received the In Principle Approval from National Stock Exchange of India Limited on **July 02, 2025**, to use their names in the Issue Document in respect of the proposed public issue of Equity Shares.

KEY FACTORS THAT MAY AFFECT OUR RESULTS OF OPERATION

Our results of operations have been, and will be, affected by many factors, some of which are beyond our control. Our results of operations and financial conditions are affected by numerous factors including the following:

Ability to execute larger capacity projects

To compete for more lucrative contracts, we must satisfy specific pre-qualification standards that evaluate our technical expertise, track record of delivering high-quality results, safety performance, financial stability and experience with comparable projects in terms of scope and scale. When choosing contractors for significant projects, clients typically restrict bidding to those who have already met these pre-qualification benchmarks. While submitting a competitively priced bid is a critical factor in winning contracts, meeting these initial criteria is essential for us to access opportunities for larger projects.

Expenses for utilized materials

Our competitiveness and profitability rely on securing and maintaining a consistent and adequate supply of raw materials at affordable prices. In the past, the costs of key materials like EPC, Civil Materials, Consumables, along with other installation, testing and commissioning, engineering, procurement and construction expenses, have shown an upward trend and continue to fluctuate. Since we rely on external suppliers for these materials and components, we typically procure them through purchase orders placed in advance based on our forecasted needs. As a result, the success of our business is significantly dependent on maintaining good relationships with our supplier.

Operational uncertainties

Our business faces several operational risks that could impact our performance. These risks include challenges in securing and retaining qualified personnel, which may hinder our ability to complete projects or deliver manufactured goods according to schedule. Delays in achieving project milestones or starting operations within the planned timeframe could result in higher financing expenses, late payments from clients, or the enforcement of penalties or liquidated damages as per contract terms. In some cases, failure to meet deadlines could even lead to contract termination. Additionally, any damage to our reputation due to missed commitments might jeopardize our chances of qualifying for future projects. Typically, we are required to provide bank guarantees for advances and performance assurances. Most of our contracts are fixed-price or lump-sum agreements, where we commit to delivering engineering, procurement, and construction services for a set portion of a project at a predetermined cost. However, the actual costs we incur may differ from our initial estimates due to unforeseen factors such as changes in project design, scope expansions, or other uncertainties, potentially leading to delays and cost overruns. While some contracts include provisions for cost adjustments, there is no guarantee that clients will accept these increases, which could negatively affect our profitability and financial health.

Business Development and Promotion

We have assembled a team of skilled and dedicated marketing professionals to handle the promotion and marketing of our services. This team actively tracks market trends and developments to stay

ahead. Regular communication with clients is essential to maintain relationships and understand their unique design and specification requirements.

Our focus is on expanding our services reach into new regions, strengthening our presence in existing markets, and broadening our services portfolio in those areas by growing our network. Our success hinges on our ability to penetrate and develop new markets, which requires a deep understanding of the local economic landscape, customer preferences and business operations. Our limited footprint in some regions, our market share growth also depends on competing effectively with established players who may already have a strong presence.

Increasing competition in the industry

We face competition from multiple competitors in the markets in which we operate. The success of our operations depends on our ability to effectively compete, including by continuing to distinguish our brand and services from the competition by maintaining our brand perception centred around the values of trust and transparency and by continuing to optimize our product assortment and marketing campaigns to cater to preferences in the markets in which we operate. For further details, see **“Business – Competition”** on page 195.

For more information on these and other factors / development which have or may affect us, please refer to chapters titled **“Risk Factors”**, **“Our Industry”** and **“Our Business”** beginning on page 30, 144 and 171 respectively.

KEY PERFORMANCE INDICATORS AND CERTAIN NON-GAAP MEASURES

In evaluating our business, we consider and use certain non-GAAP financial measures and key performance indicators that are presented below as supplemental measures to review and assess our operating performance. The presentation of these non-GAAP financial measures and key performance indicators are not intended to be considered in isolation or as a substitute for the Restated Financial Statements. We present these non-GAAP financial measures and key performance indicators because they are used by our management to evaluate our operating performance. These non-GAAP financial measures are not defined under AS and are not presented in accordance with AS. The non-GAAP financial measures and key performance indicators have limitations as analytical tools. Further, these non-GAAP financial measures and key performance indicators may differ from the similar information used by other companies, including peer companies, and hence their comparability may be limited. Therefore, these matrices should not be considered in isolation or construed as an alternative to AS measures of performance or as an indicator of our operating performance, liquidity, profitability or results of operation.

EBITDA and EBITDA Margin

EBITDA is defined as our profit/loss before tax, finance cost and depreciation and amortization. Profit/loss before tax margin is defined as profit/loss before tax divided by revenue from operations. EBITDA margin is defined as our EBITDA as a percentage of revenue from operations.

The following table reconciles our profit/loss before tax to EBITDA for the periods indicated.

Provision for Tax and Net Profit

<i>(Amount in Lakhs)</i>			
Particulars	2024-25	2023-24	Variance in %
Provision for tax	335.02	181.51	84.57%
Profit after tax	945.37	508.93	85.76%

Our current tax expense increased by 84.57% to ₹ 335.02 Lakhs in FY 2024-25 from ₹ 181.51 Lakhs in FY 2023-24, primarily due to an increase in our taxable income.

Our profit for FY 2024-25 increased to ₹ 945.37 Lakhs from ₹ 508.93 Lakhs for FY 2023-24 on account of following reasons

- Our gross margin in FY24 was 19.51% which increased to 24.59% in FY25. This increase in margin is due to execution of more solar EPC projects in FY25 as compared to FY24. Our company executed solar EPC projects amounting to ₹1,007.92 lakhs in FY24 as against ₹2,457.30 lakhs solar

EPC projects in FY 25. The gross margin in solar EPC projects is around 26.32%. This rise in gross margin by 5.08% has resulted in additional profit of ₹124.83 lakhs in FY25.

- Further our revenue from operations increased 17.17% amounting to Rs. 9,088.42 lakhs in FY 25 however our company expenses did not increase proportionality with the increase in revenue from operations in the following manner:

(Amount in Lakhs)

Revenue from Operations

(Amount in lakhs)

2023-24	2022-23	Variance in %
7,756.78	6,096.10	27.24%

Rationale for increase in revenue: Our company is an infrastructure construction, development, operations, and maintenance company with expertise across a wide range of services. We specialized in Engineering, Procurement and Construction (EPC) services, offering comprehensive solutions in Solar EPC, Electrical EPC, Water EPC and Civil EPC contracts, which include interior and civil works, as well as road furniture, all on a fixed-sum turnkey basis. Additionally, we provide specialized Engineering Consulting Services in Mechanical, Electrical and Plumbing (MEP) systems, alongside Project Management Consulting (PMC) services.

During FY 22 and FY 23, our company has taken up several projects but due to unexpected circumstances, the execution of these projects was delayed from the scheduled execution date. These projects were then completed in FY 24, the details of which are as under:

(Amount in Lakhs)

S. No.	Name of Work	Name of the Client	Scheduled Completion Date	Actual Completion Date	Total Revenue Generated from these projects in FY 24

During the year 2023-24, the other income of our company increased to ₹ 16.08 Lakhs from ₹ 9.50 Lakhs in 2022-23, representing an increase of 69.29 %. This increase was majorly due to one-time gain of Rs. 6.18 lakhs from sale of car in FY 24.

Total Expense

(Amount in lakhs)

2023-24	2022-23	Variance in %
7,085.86	5,900.66	20.09%

The total expenditure for the financial year 2023-24 was increased to ₹ 7,085.86 Lakhs from ₹ 5,900.66 Lakhs in 2022-23, representing an increase of 20.09% mainly due to increase in the cost of material consumed or direct expenses, employee benefit expenses and more depreciation.

Cost of material consumed.

(Amount in lakhs)

2023-24	2022-23	Variance in %
6,243.25	5,107.16	22.25%

Cost of material consumed for the financial year 2023-24 was increased to ₹ 6,243.25 Lakhs from ₹

5,107.16. Lakhs in 2022-23, representing an increase of 22.25% mainly due to increase in Civil and EPC material purchases.

Employee benefits expenses

<i>(Amount in lakhs)</i>		
2023-24	2022-23	Variance in %
399.31	367.52	8.65%

Our Company incurred ₹ 399.31 Lakhs as employee benefit expenses in 2023-24, as compared to ₹ 367.52 Lakhs in 2022-23 reflecting an increase of 8.65 %. This was mainly due to an increase in salaries by 1.23%, incentives by 82.69% and Staff Welfare expenses by 205.22%.

Finance Cost

<i>(Amount in lakhs)</i>		
2023-24	2022-23	Variance in %

Provision for Tax and Net Profit

<i>(Amount in lakhs)</i>			
Particulars	2023-24	2022-23	Variance in %
Provision for Tax	181.51	58.01	212.89%
Profit After Tax	508.93	149.24	241.01%

The profit for FY 2023-24 increased to ₹ 508.93 Lakhs from ₹ 149.24 Lakhs for FY 2022-23 on account of following reasons: In FY 24, our company took out additional short-term borrowings from banks and other financial institutions resulting in an increase in the short-term borrowings from 327.31 Lakhs in FY 22 to 1,149.69 Lakhs in FY 24. These borrowings were used to fund the working capital requirements as well as to make early payments to the suppliers. The early payments made to the raw material suppliers allows us to receive better trade discounts on purchases therefore reducing the cost of raw material purchased. The details of the raw material consumed in comparison to the revenue from operations in FY 23 and FY 24 is as under:

(Amount in Lakhs)

Particulars	2023-24	% of revenue from operations	2022-23	% of revenue from operations
Revenue from Operations	7,756.78	100%	6,096.10	100.00%

QUALITATIVE DISCLOSURE ABOUT MARKET RISK

Credit Risk

Credit risk is the risk of financial loss to the Company, if a customer or the counterparty to a financial instrument fails to meet its contractual obligations and arises principally from the Company's receivables from customers and from its investing activities, including deposits with banks. The carrying amounts of financial assets represent the maximum credit risk exposure.

Liquidity Risk

Liquidity risk is the risk that the company will encounter difficulty in meeting the obligations associated with its financial liabilities that are settled by delivering cash or another financial asset. Our Company's approach to managing liquidity is to ensure, as far as possible, that it will always have sufficient liquidity to meet its liabilities when due, under both normal and stressed conditions, without incurring unacceptable losses or risking damage to the Company's reputation. We believe that our working capital is sufficient to meet our current requirements.

Market Risks

We are exposed to various types of market risks during the normal course of business. Market risk is the risk that the future cash flows of a financial instrument will fluctuate because of changes in market prices. Market risk comprises three types of risk: price risk, currency risk and interest rate risk. The objective of market risk management is to manage and control market risk exposures within acceptable parameters, while optimizing the return.

Effect of Inflation

In recent years, India has experienced relatively high rates of inflation. While we believe inflation has not had any material impact on our business and results of operations, inflation generally impacts the overall economy and business environment and hence could affect us

MS Current Infraproject Vs. MS Rajasthan Drugs and Pharmaceuticals Limited & Ors. [Civil Suit 310/2019]

Our Company has filed a civil suit under Order 7 Rule 1 of the Civil Procedure Code, dated 18.09.2019 against MS Rajasthan Drugs and Pharmaceuticals Limited ("Defendant") for recovery of ₹ 7,91,584/- (₹ 5,95,124/- and interest amount of ₹ 1,96,460/-) for dues in respect to services provided for project engineering and HVAC work services.

The said due relates to the work order which was issued to our Company vide letter dated 10.02.2016/15.02.2016 and letter dated 16.03.2016 by the Defendant against which our Company issued various invoices totaling to ₹ 5,95,124/-. Our Company received a letter from the Defendants dated 17.01.2017 regarding the closure of Defendant company as per the decision of Cabinet of India and informed our Company that the outstanding amount will be paid to our Company as per the decision of the concerned authority. Thereafter, the Defendant issued a letter dated 22.03.2017, proposing a one-time settlement of the outstanding amount. In the said letter, the Defendant referred to DO letter dated 14.02.2017, issued by the Ministry of Chemicals and Fertilizers, Government of India, which directed our Company to submit a verified statement of the outstanding amount along with a proposal for a one-time payment. Pursuant to the said communication, our Company, vide letter dated 06.04.2017, submitted a verified statement reflecting an outstanding amount of ₹ 5,95,124/- and requested the Defendant to make the payment.

Our Company sent multiple reminders to the Defendant for the payment of the outstanding amount; however, the outstanding amount was not cleared. Our Company was constrained to file the civil suit for recovery. The matter is currently pending for adjudication before the Hon'ble Presiding Officer Commercial Court No. 4, Jaipur Metro II.

Our Company is an “**Unlisted Issuer**” in terms of the SEBI (ICDR) Regulations, and this Issue is an “**Initial Public Offering**” in terms of the SEBI (ICDR) Regulations. Thus, there is no stock market data available for the Equity Shares of our Company.

MECHANISM FOR INVESTOR GRIEVANCES AND REDRESSAL SYSTEM

The Company has appointed Bigshare Services Private Limited as the Registrar to the Issue, to handle the investor grievances in co-ordination with the Compliance Officer of the Company. All grievances relating to the present Issue may be addressed to the Registrar with a copy to the Compliance Officer, giving full details such as name, address of the applicant, UPI ID (if applicable), number of Equity Shares applied for, amount paid on application and name of bank and branch. The Company would monitor the work of the Registrar to ensure that the investor grievances are settled expeditiously and satisfactorily.

The Registrar to the Issue, namely, Bigshare Services Private Limited, will handle investor’s grievances pertaining to the Issue. A fortnightly status report of the complaints received and redressed by them would be forwarded to the Company. The Company would also be co-coordinating with the Registrar to the Issue in attending to the grievances to the investor.

All grievances relating to the ASBA process may be addressed to the SCSBs, giving full details such as name, address of the applicant, number of Equity Shares applied for, amount paid on application and the Designated Branch of the SCSB where the Application Form was submitted by the Applicant. We estimate that the average time required by us or the Registrar to the Issue or the SCSBs for the redressal of routine investor grievances will be seven (7) business days from the date of receipt of the complaint. In case of non-routine complaints and complaints where external agencies are involved, we will seek to redress these complaints as expeditiously as possible.

Our Company will constitute Stakeholders Relationship Committee in the meeting of our Board of Director(s) before listing of Equity Shares on Stock Exchange. For further details on the Committees, please refer to the section titled “**Our Management**” beginning on page 217.

Our Company has appointed Jai Shree Rathore as the Company Secretary and Compliance Officer to redress the complaints, if any, of the investors participating in the Issue. Contact details for our Compliance Officer are as follows:

Name: Jai Shree Rathore

Address: A-27, Basant Vihar, Vaishali Marg (West),
Panchyawala, Jaipur, Rajasthan, India-302034

Tel: 0141 - 6762066

Email: cs@currentinfra.com

Website: www.currentinfra.com

Investors can contact the Compliance Officer or the Registrar to the Issue in case of any pre- Issue or post-Issue related problems such as non-receipt of letters of Allotment, credit of allotted Equity Shares in the respective beneficiary account or refund orders, etc. Pursuant to the press release PR. No. 85/2011 dated June 08, 2011, SEBI has launched a centralized web-based complaints redress system “SCORES”. This would enable investors to lodge and follow up their complaints and track the status of redressal of such complaints from anywhere. For more details, investors are requested to visit the website www.scores.gov.in.

STATUS OF INVESTOR COMPLAINTS

In case the minimum number of prospective allottees is less than 200, no allotment will be made pursuant to this Issue and the monies blocked by the SCSBs shall be unblocked within 2 working days of closure of Issue.

JURISDICTION

Exclusive jurisdiction for the purpose of this Issue is with the competent courts/ authorities in Jaipur, Rajasthan, India.

The Equity Shares have not been and will not be registered under the U.S. Securities Act or any state securities laws in the United States and may not be issued or sold within the United States or to, or for the account or benefit of, "U.S. persons" (as defined in Regulation S), except pursuant to an exemption from, or in a transaction not subject to, the registration requirements of the U.S. Securities Act and applicable U.S. state securities laws. Accordingly, the Equity Shares are being issued and sold only outside the United States in compliance with Regulation S under the U.S. Securities Act and the applicable laws of the jurisdiction where those issues and sales occur.

The Equity Shares have not been and will not be registered, listed or otherwise qualified in any other jurisdiction outside India and may not be issued or sold, and applications may not be made by persons in any such jurisdiction, except in compliance with the applicable laws of such jurisdiction.

JOINT HOLDERS

Where two or more persons are registered as the holders of any Equity Shares, they shall be deemed to hold the same as joint tenants with benefits of survivorship.

NOMINATION FACILITY TO INVESTORS

In accordance with Section 72 of the Companies Act, 2013 the sole applicant, or the first applicant along with other joint applicants, may nominate any one person in whom, in the event of the death of sole applicant or in case of joint applicants, death of all the applicants, as the case may be, the Equity Shares allotted, if any, shall vest. A person, being a nominee, entitled to the Equity Shares by reason of the death of the original holder(s), shall be entitled to the same advantages to which he or she would be entitled if he or she were the registered holder of the Equity Share(s). Where the nominee is a minor, the holder(s) may make a nomination to appoint, in the prescribed manner, any person to become entitled to equity share(s) in the event of his or her death during the minority. A nomination shall stand rescinded upon a sale / transfer / alienation of equity share(s) by the person nominating. A buyer will be entitled to make a fresh nomination in the manner prescribed. Fresh nomination can be made only on the prescribed form available on request at our Registered Office or with the registrar and transfer agents of our Company.

Any person who becomes a nominee by virtue of the provisions of Section 72 of the Companies Act, 2013, shall upon the production of such evidence as may be required by the Board, elect either:

- a) To register himself or herself as the holder of the Equity Shares; or
- b) To make such transfer of the Equity Shares, as the deceased holder could have made.

Further, the Board may at any time give notice requiring any nominee to choose either to be registered himself or herself or to transfer the Equity Shares, and if the notice is not complied with within a period of 90 (ninety) days, the Board may thereafter withhold payment of all dividends, bonuses or other moneys payable in respect of the Equity Shares, until the requirements of the notice have been complied with.

Since the Allotment of Equity Shares in the Issue will be made only in dematerialized mode there is no need to make a separate nomination with our Company. Nominations registered with respective depository participant of the bidder would prevail. If the investor wants to change the nomination, they are requested to inform their respective depository participant.

WITHDRAWAL OF THE ISSUE

Our Company, in consultation with the Book Running Lead Manager, reserves the right to not proceed with the Issue after the Issue Opening Date but before the allotment. In such an event, our Company would issue a public notice in the newspapers in which the pre-Issue advertisements were published, within two days of the Issue Closing Date or such other time as may be prescribed by SEBI, providing reasons for not proceeding with the Issue. The Book Running Lead Manager through, the Registrar to the Issue, shall notify the SCSBs and the Sponsor Bank to unblock the bank accounts of the ASBA Bidders within one Working Day from the date of receipt of such notification. Our Company shall also inform the same to the Stock Exchanges on which Equity Shares are proposed to be listed.

Notwithstanding the foregoing, this Issue is also subject to obtaining (i) the final listing and trading approvals of the Stock Exchange, which our Company shall apply for after Allotment, and (ii) the final RoC approval of the Prospectus after it is registered with the RoC. If our Company withdraws the Issue after the Issue Closing Date and thereafter determines that it will proceed with an Issue of the Equity Shares, our Company shall file a fresh Draft Red Herring Prospectus with Stock Exchange.

SEBI vide its circular no. SEBI/HO/CFD/DIL2/CIR/P/2018/138 dated November 1, 2018 read with its circular no. SEBI/HO/CFD/DIL2/CIR/P/2019/50 dated April 3, 2019, and circular no. SEBI/HO/CFD/DIL2/CIR/P/2019/76 dated June 28, 2019, has introduced an alternate payment mechanism using Unified Payments Interface (“**UPI**”) and consequent reduction in timelines for listing in a phased manner. From January 1, 2019, the UPI Mechanism for IBs applying through Designated Intermediaries was made effective along with the existing process and existing timeline of T+6 days. (“**UPI Phase I**”). The UPI Phase I was effective till June 30, 2019.

With effect from July 01, 2019, SEBI vide its circular no. SEBI/HO/CFD/DIL2/CIR/P/2019/76 dated June 28, 2019, read with circular bearing number SEBI/HO/CFD/DIL2/CIR/P/2019/85 dated July 26, 2019 with respect to Bids by UPI Bidders through Designated Intermediaries (other than SCSBs), the existing process of physical movement of forms from such Designated Intermediaries to SCSBs for blocking of funds has been discontinued and only the UPI Mechanism for such Bids with timeline of T+6 days was mandated for a period of three months or launch of five main board public issues, whichever is later (“**UPI Phase II**”). Subsequently, however, SEBI vide its circular no. SEBI/HO/CFD/DIL2/CIR/P/2020/50 dated March 30, 2020, had extended the timeline for implementation of UPI Phase II till further notice. The final reduced timeline of T+3 days for the UPI Mechanism for applications by UPI Bidders (“**UPI Phase III**”), and modalities of the implementation of UPI Phase III has been notified by SEBI vide its circular no. SEBI/HO/CFD/TPD1/CIR/P/2023/140 dated August 9, 2023 and made effective on a voluntary basis for all issues opening on or after September 01, 2023 and on a mandatory basis for all issues opening on or after December 01, 2023.

The Issue will be undertaken pursuant to the processes and procedures under UPI Phase III, subject to any circulars, clarification or notification issued by the SEBI from time to time. Further, SEBI vide its circular no. SEBI/HO/CFD/DIL2/CIR/P/2021/2480/1/M dated March 16, 2021, introduced certain additional measures for streamlining the process of initial public offers and redressing investor grievances, which came into force with effect from May 01, 2021, except as amended pursuant to the circular no. SEBI/HO/CFD/DIL2/P/CIR/2021/570 dated June 02, 2021, circular no. SEBI/HO/CFD/DIL2/CIR/P/2022/51 dated April 20, 2022, SEBI circular no. SEBI/HO/MIRSD/MIRSD_RTAMB/P/CIR/2022/76 dated May 30, 2022 and SEBI circular no. SEBI/HO/CFD/TPD1/CIR/P/2023/140 dated August 09, 2023 has introduced certain additional

measures for streamlining the process of initial public offers and redressing investor grievances. This circular shall come into force for initial public offers opening on or after May 1, 2021, except as set out in circular no. SEBI/HO/CFD/DIL2/P/CIR/2021/570 dated June 2, 2021, and the provision of this circular are deemed to form part of this Red Herring Prospectus.

Furthermore, pursuant to circular no. SEBI/HO/CFD/DIL2/P/CIR/P/2022/45 dated April 5, 2022, all individual bidders in initial public offerings (opening on or after May 1, 2022) whose application sizes are up to Rs. 5,00,000 shall use the UPI Mechanism. This circular has come into force for initial public offers opening on or after May 1, 2022, and the provisions of this circular are deemed to form part of this Red Herring Prospectus. Subsequently, pursuant to SEBI circular no. SEBI/HO/CFD/DIL2/P/CIR/2022/75 dated May 30, 2022, applications made using the ASBA facility in initial public offerings (opening on or after September 1, 2022) shall be processed only after application monies are blocked in the bank accounts of investors (all categories) and SEBI master circular with circular no. SEBI/HO/CFD/PoD-1/P/CIR/2024/0154 dated November 11, 2024 (to the extent that such circulars pertain to the UPI Mechanism).

The BRLM shall be the nodal entity for any issues arising out of the public issuance process. In terms of Regulation 23(4), 23(5) and Regulation 271 of SEBI (Issue of Capital and Disclosure Requirements) Regulations, 2018, in SEBI Circular. No. SEBI/HO/CFD/DCR2/CIR/P/2019/133 dated November 08, 2019, the timelines, processes and compensation policy shall continue to form part of the agreements being signed between the intermediaries involved in the public issuance process and book running lead manager shall continue to coordinate with intermediaries involved in the said process.

Our Company and the Book Running Lead Manager do not accept any responsibility for the completeness and accuracy of the information stated in this Section and is not liable for any amendment, modification or change in the applicable law which may occur after the date of this Red Herring Prospectus. Bidders are advised to make their independent investigations and ensure that their Bids are submitted in accordance with applicable laws and do not exceed the investment limits or maximum number of the Equity Shares that can be held by them under applicable law or as specified in this Red Herring Prospectus.

Further, Our Company and the Book Running Lead Manager are not liable for any adverse occurrence's consequent to the implementation of the UPI Mechanism for Bid in this Issue.

BOOK BUILDING PROCEDURE

The Issue is being made under Regulation 229(2) of Chapter IX of SEBI (Issue of Capital and Disclosure Requirements) Regulations, 2018 via the building process.

The allocation to the public will be made as per Regulation 253 of SEBI ICDR Regulations, wherein not more than 50% of the Net Issue shall be allocated proportionately to QIBs. Further, 5% of the QIB Portion shall be available for allocation on a proportionate basis only to Mutual Funds, and the remainder of the QIB Portion shall be available for allocation on a proportionate basis to all QIBs, including Mutual Funds, subject to valid Bids being received at or above the Issue Price. Further, not less than 15% of the Net Issue shall be available for allocation on a proportionate basis to Non-Institutional Investors and not less than 35% of the Net Issue shall be available for allocation to Individual Investors in accordance with the SEBI ICDR Regulations, subject to valid Bids being received at or above the Issue Price.

Accordingly, we have allocated the Net Issue i.e., not less than 35% of the Net Issue shall be available for allocation to Individual Bidders and not less than 15% of the Net Issue shall be available for

allocation to Non institutional bidders and not more than 50% of the Net Issue shall be allocated on a proportionate basis to QIBs. Furthermore, up to 99,200 Equity Shares, aggregating to ₹ [●] lakhs shall be made available for allocation on a proportionate basis only to Eligible Employees Bidding in the Employee Reservation Portion, subject to valid Bids being received at or above the Issue Price, if any. Subject to valid Bids being received at or above the Issue Price, under subscription, if any, in any category, except the QIB Portion, would be allowed to be met with spill-over from any other category or a combination of categories at the discretion of our Company and in consultation with the BRLMs and the Stock Exchange. However, under-subscription, if any, in the QIB Portion will not be allowed to be met with spill-over from other categories or a combination of categories. The unsubscribed portion, if any, in the Employee Reservation Portion shall be added to the Net Issue.

The Equity Shares, on Allotment, shall be traded only in the dematerialized segment of the Stock Exchanges.

Bidders should note that the Equity Shares will be allotted to all successful Bidders only in dematerialized form. The Bid cum Application Forms which do not have the details of the Bidders' depository account, including DP ID, Client ID and PAN and UPI ID (for IBs using the UPI Mechanism), shall be treated as incomplete and will be rejected. Eligible Employees Bidding in the Employee Reservation Portion Bidding using the UPI Mechanism, shall be treated as incomplete and will be rejected. Bidders will not have the option of being Allotted Equity Shares in physical form.

Investors must ensure that their PAN is linked with Aadhaar and are in compliance with the notification dated February 13, 2020 issued by the Central Board of Direct Taxes and the press release dated June 25, 2021.

PHASED IMPLEMENTATION OF UPI FOR BIDS BY INDIVIDUAL BIDDERS AS PER THE UPI CIRCULAR

SEBI has issued the SEBI UPI circulars in relation to streamlining the process of public issue of, among others, equity shares. Pursuant to the SEBI UPI Circulars, the UPI mechanism has been introduced in a phased manner as a payment mechanism (in addition to mechanism of blocking funds in the account maintained with SCSBs under the ASBA) for Bids by UPI Bidders through designated intermediaries with the objective to reduce the time duration from public issue closure to listing from six Working Days to up to three Working Days. Considering the time required for making necessary changes to the systems and to ensure complete and smooth transition to the UPI payment Mechanism, the SEBI UPI Circular have introduced the UPI Mechanism in three phases in the following manner:

- **Phase I:** This phase was applicable from January 1, 2019 until March 31, 2019 or floating of five main board public issues, whichever was later. Subsequently, the timeline for implementation of Phase I was extended till June 30, 2019. Under this phase, a Individual Bidder had the option to submit the ASBA Form with any of the designated intermediaries and use his / her UPI ID for the purpose of blocking of funds. The time duration from public issue closure to listing continue to be six Working Days.
- **Phase II:** This phase has become applicable from July 1, 2019 and was to initially continue for a period of three months or floating of five main board public issues, whichever is later. SEBI, vide its circular no. SEBI/HO/CFD/DCR2/CIR/P/2019/133 dated November 8, 2019 has decided to extend the timeline for implementation of UPI Phase II until March 31, 2020. Subsequently, SEBI, vide its circular no. SEBI/HO/CFD/DIL2/CIR/P/2020/50 dated March 30, 2020 extended the timeline for implementation of UPI Phase II till further notice. Under this phase, submission of the ASBA Form by UPI Bidders through Designated Intermediaries (other than SCSBs) to SCSBs for blocking of funds has been discontinued and replaced by the UPI Mechanism. However, the time duration from public issue closure to listing continues to be six Working Days during this phase.
- **Phase III:** This phase has become applicable on a voluntary basis for all issues opening on or after September 1, 2023, and on a mandatory basis for all issues opening on or after December 1, 2023,

vide SEBI circular bearing number SEBI/HO/CFD/TPD1/CIR/P/2023/140 dated August 9, 2023 ("T+3 Notification"). In this phase, the time duration from public issue closure to listing has been reduced to three Working Days. The Issue shall be undertaken pursuant to the processes and procedures as notified in the T+3 Notification as applicable, subject to any circulars, clarification or notification issued by the SEBI from time to time, including any circular, clarification or notification which may be issued by SEBI.

Pursuant to the SEBI UPI Circular, SEBI has set out specific requirements for redressal of investor grievances for applications that have been made through the UPI Mechanism. The requirements of the SEBI UPI Circular include, appointment of a nodal officer by the SCSB and submission of their details to SEBI, the requirement for SCSBs to send SMS alerts for the blocking and unblocking of UPI mandates, the requirement for the Registrar to submit details of cancelled, withdrawn or deleted applications, and the requirement for the bank accounts of unsuccessful Bidders to be unblocked not later than one day from the date on which the Basis of Allotment is finalised. Failure to unblock the accounts within the timeline would result in the SCSBs being penalised under the relevant securities law. Additionally, if there is any delay in the redressal of investors' complaints in this regard, the relevant SCSB as well as the post – Issue BRLM will be required to compensate the concerned investor.

The Issue will be made under UPI Phase III of the SEBI UPI Circulars, the same will be advertised in all editions of Business Standard, English national daily newspaper and all editions of Business Standard, Hindi national daily newspaper and all editions of Business Remedies, Hindi daily newspaper in Jaipur, Rajasthan (Hindi also being the regional language of Jaipur, Rajasthan, where our Registered and Corporate Office is located), each with wide circulation, on or prior to the Bid/ Issue Opening Date and such advertisement shall also be made available to the Stock Exchanges for the purpose of uploading on their websites.

All SCSBs offering the facility of making applications in public issues shall also provide the facility to make application using UPI. Our Company will be required to appoint one of the SCSBs as a Sponsor Bank to act as a conduit between the Stock Exchanges and NPCI in order to facilitate collection of requests and/ or payment instructions of the UPI Bidders using the UPI Mechanism.

The processing fees for applications made by UPI Bidders using the UPI Mechanism may be released to the remitter banks (SCSBs) only after such banks make an application as prescribed in Annexure I of SEBI circular no. SEBI/HO/CFD/DIL2/CIR/P/2022/51 dated April 20, 2022 and provide a written confirmation on compliance with SEBI circular no. SEBI/HO/CFD/DIL2/P/CIR/2021/570 dated June 2, 2021 read with SEBI circular no. SEBI/HO/CFD/DIL2/CIR/P/2021/2480/1/M dated March 16, 2021.

Further, pursuant to SEBI circular no. SEBI/HO/CFD/DIL2/CIR/P/2022/45 dated April 5, 2022, all UPI Bidders applying in public issues where the application amount is up to Rs. 5,00,000 (Rupees Five Lakhs) shall use the UPI Mechanism and shall also provide their UPI ID in the Bid cum Application Form submitted with any of the entities mentioned herein below:

- i) a syndicate member
- ii) a stock broker registered with a recognized stock exchange (and whose name is mentioned on the website of the stock exchange as eligible for this activity) ("**broker**")

Stock Exchanges shall validate the electronic bids with the records of the CDP for DP ID/Client ID and PAN, on a real time basis and bring inconsistencies to the notice of the relevant Designated Intermediaries, for rectification and re-submission within the time specified by Stock Exchanges. Stock Exchanges shall allow modification of either DP ID/Client ID or PAN ID, bank code and location code in the Bid details already uploaded.

For UPI Bidders using the UPI Mechanism, the Stock Exchanges shall share the Bid details (including UPI ID) with the Sponsor Bank on a continuous basis to enable the Sponsor Bank to initiate UPI Mandate Request to UPI Bidders for blocking of funds. The Sponsor Bank shall initiate request for blocking of funds through NPCI to UPI Bidders, who shall accept the UPI Mandate Request for blocking of funds on their respective mobile applications associated with UPI ID linked bank account. The NPCI shall maintain an audit trail for every Bid entered in the Stock Exchanges bidding platform, and the liability to compensate UPI Bidders (Bidding through UPI Mechanism) in case of failed transactions shall be with the concerned entity (i.e. the Sponsor Bank, NPCI or the Issuer bank) at whose end the lifecycle of the transaction has come to a halt. The NPCI shall share the audit trail of all disputed transactions/ investor complaints to the Sponsor Bank and the Issuer bank. The Sponsor Bank and the Bankers to the Issue shall provide the audit trail to the Book Running Lead Managers for analysing the same and fixing liability.

The Sponsor Bank will undertake a reconciliation of Bid responses received from Stock Exchanges and sent to NPCI and will also ensure that all the responses received from NPCI are sent to the Stock Exchanges platform with detailed error code and description, if any. Further, the Sponsor Bank will undertake reconciliation of all Bid requests and responses throughout their lifecycle on daily basis and share reports with the Book Running Lead Managers in the format and within the timelines as specified under the SEBI UPI Circulars. Sponsor Bank and Issuer banks shall download UPI settlement files and raw data files from the NPCI portal after every settlement cycle and do a three-way reconciliation with Banks UPI switch data, CBS data and UPI raw data. NPCI is to coordinate with Issuer banks and Sponsor Bank(s) on a continuous basis.

For all pending UPI Mandate Requests, the Sponsor Bank shall initiate requests for blocking of funds in the ASBA Accounts of relevant Bidders with a confirmation cut-off time of 5:00 pm on the Bid/Issue Closing Date ("Cut-Off Time"). Accordingly, UPI Bidders Bidding using through the UPI Mechanism should accept UPI Mandate Requests for blocking off funds prior to the Cut-Off Time and all pending UPI Mandate Requests at the Cut-Off Time shall lapse.

The Sponsor Bank shall host a web portal for intermediaries (closed user group) from the date of Bid/Issue Opening Date till the date of listing of the Equity Shares with details of statistics of mandate blocks/unblocks, performance of apps and UPI handles, down-time/network latency (if any) across intermediaries and any such processes having an impact/bearing on the Issue Bidding process.

Further, Intermediaries shall retain physical bid cum application forms submitted by individual investors with UPI as a payment mechanism, for a period of six months and thereafter forward the same to the Company/ Registrar to the Issue. However, in case of electronic forms, “printouts” of such Bids need not be retained or sent to the Company. Intermediaries shall, at all times, maintain the electronic records relating to such forms for a minimum period of three years.

ELECTRONIC REGISTRATION OF BIDS

- a) The Designated Intermediary may register the Bids using the on-line facilities of the Stock Exchanges. The Designated Intermediaries can also set up facilities for off-line electronic registration of Bids, subject to the condition that they may subsequently upload the off-line data file into the on-line facilities for Book Building on a regular basis before the closure of the Issue.
- b) On the Bid/Issue Closing Date, the Designated Intermediaries may upload the Bids till such time as may be permitted by the Stock Exchanges and as disclosed in the Red Herring Prospectus.
- c) Only Bids that are uploaded on the Stock Exchanges Platform are considered for allocation/Allotment. The Designated Intermediaries are given till 5:00 pm on the Bid/Issue Closing Date to modify select fields uploaded in the Stock Exchange Platform during the Bid/Issue Period after which the Stock Exchange(s) send the bid information to the Registrar to the Issue for further processing.

Participation by the Promoters, the members of the Promoter Group, the Book Running Lead Manager, the Syndicate Member(s) and persons related to the Promoters/the members of the Promoter Group/the Book Running Lead Manager

The Book Running Lead Manager and the Syndicate Members shall not be allowed to purchase the Equity Shares in any manner, except towards fulfilling their underwriting obligations. However, the respective associates and affiliates of the Book Running Lead Manager and the Syndicate Member(s) may purchase Equity Shares in the Issue under the Non-Institutional Category and such subscription may be on their own account or on behalf of their clients. All categories of investors, including respective associates or affiliates of the Book Running Lead Manager and Syndicate Members, shall be treated equally for the purpose of allocation to be made on a proportionate basis.

Further, the Promoters and members of the Promoter Group shall not participate by applying for Equity Shares in the Issue.

Except as stated below, neither the Book Running Lead Manager nor any associate of the Book Running Lead Manager can apply in the Issue under the Anchor Investor Portion:

- (i) mutual funds sponsored by entities which are associate of the Book Running Lead Manager;
- (ii) insurance companies promoted by entities which are associate of the Book Running Lead Manager;
- (iii) AIFs sponsored by the entities which are associate of the Book Running Lead Manager; or
- (iv) FPIs (other than individuals, corporate bodies and family offices) sponsored by the entities which are associate of the Book Running Lead Manager.

Further, the Promoters and members of the Promoter Group shall not participate by applying for Equity Shares in the Issue. Further, persons related to the Promoters and the member of the Promoter Group shall not apply in the Issue under the Anchor Investor Portion.

However, a QIB who has any of the following rights in relation to our Company shall be deemed to be a person related to the Promoters or the members of the Promoter Group of our Company:

- (i) rights under a shareholders' agreement or voting agreement entered into with the Promoters or the members of the Promoter Group of our Company;
- (ii) veto rights; or
- (iii) right to appoint any nominee director on the Board.

Further, an Anchor Investor shall be deemed to be an "associate of the Book Running Lead Manager" if:

- (i) either of them controls, directly or indirectly through its subsidiary or holding company, not less than 15% of the voting rights in the other; or
- (ii) either of them, directly or indirectly, by itself or in combination with other persons, exercises control over the other; or
- (iii) there is a common director, excluding nominee director, among the Anchor Investors and the Book Running Lead Manager.

BIDS BY MUTUAL FUNDS

With respect to Bids by Mutual Funds, a certified copy of their SEBI registration certificate must be lodged along with the Bid cum Application Form. Failing this, our Company, in consultation with the Book Running Lead Manager, reserve the right to reject any Bid without assigning any reason thereof, subject to applicable law.

Bids made by asset management companies or custodians of Mutual Funds shall specifically state names of the concerned schemes for which such Bids are made.

In case of a Mutual Fund, a separate Bid can be made in respect of each scheme of the Mutual Fund registered with SEBI and such Bids in respect of more than one scheme of the Mutual Fund will not be treated as multiple Bids provided that the Bids clearly indicate the scheme concerned for which such Bid has been made.

No Mutual Fund scheme shall invest more than 10% of its NAV in equity shares or equity-related instruments of any single company, provided that the limit of 10% shall not be applicable for investments in case of index funds or sector or industry specific schemes. No Mutual Fund under all its schemes should own more than 10% of any company's paid-up share capital carrying voting rights.

BIDS BY ELIGIBLE NRIS

Eligible NRIs Bidding on non-repatriation basis are advised to use the Bid cum Application Form for residents (White in colour). Eligible NRIs Bidding on a repatriation basis are advised to use the Bid cum Application Form meant for Non-Residents (Blue in colour). Only Bids accompanied by payment in Indian Rupees or freely convertible foreign exchange will be considered for Allotment. Eligible NRIs may obtain copies of Bid cum Application Form from the Designated Intermediaries.

Eligible NRI Bidders Bidding on a repatriation basis by using the Non-Resident Forms should authorise their SCSB (if they are Bidding directly through the SCSB) or confirm or accept the UPI Mandate Request (in case of UPI Bidders Bidding through the UPI Mechanism) to block their Non-Resident External ("NRE") accounts, or Foreign Currency Non-Resident ("FCNR") Accounts, and Eligible NRI Bidders Bidding on a non-repatriation basis by using Resident Forms should authorise their respective SCSBs (if they are Bidding directly through SCSB) or confirm or accept the UPI Mandate Request (in case of UPI Bidders Bidding through the UPI Mechanism) to block their Non-Resident Ordinary ("NRO") accounts for the full Bid Amount, at the time of the submission of the Bid cum Application Form.

In accordance with the FEMA Rules, the total holding by any individual NRI, on a repatriation basis,

shall not exceed 5% of the total paid-up equity capital on a fully diluted basis or shall not exceed 5% of the paid-up value of each series of debentures or preference shares or share warrants issued by an Indian company and the total holdings of all NRIs and OCIs put together shall not exceed 10% of the total paid-up equity capital on a fully diluted basis or shall not exceed 10% of the paid-up value of each series of debentures or preference shares or share warrant. Provided that the aggregate ceiling of 10% may be raised to 24% if a special resolution to that effect is passed by the general body of the Indian company.

Eligible NRIs will be permitted to apply in the Issue through Channel I or Channel II (as specified in the SEBI UPI Circulars). Further, subject to applicable law, Eligible NRIs may use Channel IV (as specified in the SEBI UPI Circulars) to apply in the Issue, provided the UPI facility is enabled for their NRE/NRO accounts.

For details of restrictions on investment by NRIs, see ***“Restrictions on Foreign Ownership of Indian Securities”*** beginning on page 375.

Participation of Eligible NRIs in the Issue shall be subject to the FEMA Rules.

BIDS BY HUFs

Bids by HUFs, should be made in the individual name of the Karta. The Bidder/Applicant should specify that the Bid is being made in the name of the HUF in the Bid cum Application Form/Application Form as follows: “Name of sole or First Bidder/Applicant: XYZ Hindu Undivided Family applying through XYZ, where XYZ is the name of the Karta”. Bids/Applications by HUFs will be considered at par with Bids/Applications from individuals.

BIDS BY FPIs

In terms of the SEBI FPI Regulations, the investment in Equity Shares by a single FPI or an investor group (which means multiple entities registered as FPIs and directly or indirectly having common ownership of more than 50% or common control) must be below 10% of the post-Issue Equity Share capital. Further, in terms of the FEMA Rules, the total holding by each FPI or an investor group shall be below 10% of the total paid-up Equity Share capital of our Company. With effect from April 1, 2020, the aggregate limit by FPIs shall be the sectoral caps applicable to the Indian company as prescribed in the FEMA Rules with respect to its paid-up equity capital on a fully diluted basis. While the aggregate limit as provided above could have been decreased by the concerned Indian companies to a lower threshold limit of 24% or 49% or 74% as deemed fit, with the approval of its board of directors and its shareholders through a resolution and a special resolution, respectively before March 31, 2020, our Company has not decreased such limit and accordingly the applicable limit with respect to our Company is 100%. In terms of the FEMA Rules, for calculating the aggregate holding of FPIs in a company, holding of all registered FPIs shall be included.

In case of Bids made by FPIs, a certified copy of the certificate of registration issued under the SEBI FPI Regulations is required to be attached to the Bid cum Application Form, failing which our Company, in consultation with the Book Running Lead Manager, reserves the right to reject any Bid without assigning any reason. FPIs who wish to participate in the Issue are advised to use the Bid cum Application Form for Non- Residents (Blue in colour).

A FPI may purchase or sell equity shares of an Indian company which is listed or to be listed on a recognised stock exchange in India, and/or may purchase or sell securities other than equity instruments.

FPIs are permitted to participate in the Issue subject to compliance with conditions and restrictions

which may be specified by the Government from time to time.

To ensure compliance with the applicable limits, SEBI, pursuant to its circular dated July 13, 2018, has directed that at the time of finalisation of the Basis of Allotment, the Registrar to the Issue shall:

- (i) use the PAN issued by the Income Tax Department of India for checking compliance for a single FPI, and
- (ii) obtain validation from Depositories for the FPIs who have invested in the Issue to ensure there is no breach of the investment limit, within the timelines for issue procedure, as prescribed by SEBI from time to time.

Subject to compliance with all applicable Indian laws, rules, regulations, guidelines and approvals in terms of Regulation 21 of the SEBI FPI Regulations, an FPI, may issue, subscribe to or otherwise deal in offshore derivative instruments (as defined under the SEBI FPI Regulations as any instrument, by whatever name called, which is issued overseas by an FPI against securities held by it in India, as its underlying) directly or indirectly, only in the event (i) such offshore derivative instruments are issued only by persons registered as Category I FPIs, (ii) such offshore derivative instruments are issued only to persons eligible for registration as Category I FPIs, (iii) such offshore derivative instruments are issued after compliance with “know your client” norms, and (iv) such other conditions as may be specified by SEBI from time to time.

An FPI issuing offshore derivative instruments is also required to ensure that any transfer of offshore derivative instrument is made by, or on behalf of it subject to, among others, the following conditions:

- a) each offshore derivative instruments are transferred to persons subject to fulfilment of SEBI FPI Regulations; and
- b) prior consent of the FPI is obtained for such transfer, except when the persons to whom the offshore derivative instruments are to be transferred to are pre-approved by the FPI.

Further, Bids by following FPIs, submitted with the same PAN but with different beneficiary account numbers, Client IDs and DP IDs may not be regarded as multiple Bids:

- FPIs which utilize the multi-investment manager (“MIM”) structure.
- Offshore derivative instruments (“ODI”) which have obtained separate FPI registration for ODI and proprietary derivative investments.
- Sub funds or separate class of investors with segregated portfolio who obtain separate FPI registration.
- FPI registrations granted at investment strategy level/sub fund level where a collective investment scheme or fund has multiple investment strategies/sub-funds with identifiable differences and managed by a single investment manager.
- Multiple branches in different jurisdictions of foreign bank registered as FPIs.
- Government and Government related investors registered as Category I FPIs.
- Entities registered as collective investment scheme having multiple share classes.

The Bids belonging to the aforesaid seven structures and having same PAN may be collated and identified as a single Bid in the Bidding process. The Equity Shares allotted in the Bid may be proportionately distributed to the applicant FPIs (with same PAN). In order to ensure valid Bids, FPIs making multiple Bids using the same PAN, and with different beneficiary account numbers, Client IDs and DP IDs, are required to provide a confirmation along with each of their Bid cum Application Forms that the relevant FPIs making multiple Bids utilise any of the above-mentioned structures and indicate the name of their respective investment managers in such confirmation.

In the absence of such confirmation from the relevant FPIs, such multiple Bids shall be rejected.

BIDS BY SEBI REGISTERED AIFS, VCFS AND FVCIS

The SEBI AIF Regulations prescribe, among others, the investment restrictions on AIFs. Post the repeal of the SEBI VCF Regulations, the VCFs which have not re-registered as an AIF under the SEBI AIF Regulations shall continue to be regulated by the SEBI VCF Regulations until the existing fund or scheme managed by the fund is wound up and such fund shall not launch any new scheme after the notification of the SEBI AIF Regulations. The SEBI FVCI Regulations prescribe the investment restrictions on FVCIs. Category I AIFs and Category II AIFs cannot invest more than 25% of the investible funds in one investee company directly or through investment in the units of other AIFs. A category III AIF cannot invest more than 10% of the investible funds in one investee company directly or through investment in the units of other AIFs. A VCF registered as a Category I AIF, as defined in the SEBI AIF Regulations, cannot invest more than one-third of its investible funds by way of subscription to an initial public offering of a venture capital undertaking.

The holding in any company by any individual VCF or FVCI registered with SEBI should not exceed 25% of the corpus of the VCF or FVCI. Further, VCFs and FVCIs can invest only up to 33.33% of the investible funds in various prescribed instruments, including in initial public offerings.

Further, the shareholding of VCFs, Category I AIFs or Category II AIFs and FVCIs in a company prior to an initial public offering being undertaken by such company, shall be exempt from lock-in requirements, provided that such equity shares shall be locked in for a period of at least six months from the date of purchase by the VCF or AIF or FVCI. However, if such VCFs, Category I AIFs or Category II AIFs and FVCIs hold individually or with persons acting in concert, more than 20% of the pre-issue shareholding of such company, this exemption from lock-in requirements will not be applicable.

There is no reservation for Eligible NRIs, AIFs, FPIs and FVCIs. All such Bidders will be treated on the same basis with other categories for the purpose of allocation. Participation of VCFs, AIFs or FVCIs in the Issue shall be subject to the FEMA Rules.

All non-resident investors should note that refunds (in case of Anchor Investors), dividends and other distributions, if any, will be payable in Indian Rupees only and net of bank charges and commission.

Our Company or the Book Running Lead Manager will not be responsible for loss, if any, incurred by the Bidder on account of conversion of foreign currency.

BIDS BY LIMITED LIABILITY PARTNERSHIPS

In case of Bids made by limited liability partnerships registered under the Limited Liability Partnership Act, 2008, a certified copy of certificate of registration issued under the Limited Liability Partnership Act, 2008, must be attached to the Bid cum Application Form. Failing this, our Company, in consultation with the Book Running Lead Manager, reserves the right to reject any Bid without assigning any reason thereof.

BIDS BY BANKING COMPANIES

In case of Bids made by banking companies registered with RBI, certified copies of: (i) the certificate of registration issued by RBI, and (ii) the approval of such banking company's investment committee are required to be attached to the Bid cum Application Form, failing which our Company, in consultation with the Book Running Lead Manager, reserves the right to reject any Bid without assigning any reason.

The investment limit for banking companies in non-financial services companies as per the Banking Regulation Act, 1949, as amended, ("**Banking Regulation Act**"), and the Master Directions - Reserve Bank of India (Financial Services provided by Banks) Directions, 2016, as amended, is 10% of the paid-up share capital of the investee company, not being its subsidiary engaged in non-financial services,

or 10% of the banking company's paid-up share capital and reserves, whichever is lower.

However, a banking company would be permitted to invest in excess of 10% but not exceeding 30% of the paid up share capital of such investee company if (i) the investee company is engaged in non-financial activities permitted for banking companies in terms of Section 6(1) of the Banking Regulation Act, (ii) the additional acquisition is through restructuring of debt, or to protect the banking company's interest on loans/investments made to a company, (iii) hold along with its subsidiaries, associates or joint ventures or entities directly or indirectly controlled by the bank, and mutual funds managed by asset management companies controlled by the bank, more than 20% of the investee company's paid up share capital engaged in non-financial services. However, this cap does not apply to the cases mentioned in (i) and (ii) above.

Further, the aggregate investment by a banking company in all its subsidiaries and other entities engaged in financial services and non-financial services, including overseas investments, cannot exceed 20% of the banking company's paid-up share capital and reserves.

The banking company is required to submit a time-bound action plan for disposal of such shares within a specified period to RBI. A banking company would require a prior approval of RBI to make (i) investment in a subsidiary or a financial services company that is not a subsidiary (with certain exceptions prescribed), and (ii) investment in a non-financial services company in excess of 10% of such investee company's paid-up share capital as stated in para 5(a)(v)(c)(i) of the Reserve Bank of India (Financial Services provided by Banks) Directions, 2016, as amended.

BIDS BY SCSBS

SCSBs participating in the Issue are required to comply with the terms of the circulars dated September 13, 2012 and January 2, 2013 issued by SEBI. Such SCSBs are required to ensure that for making applications on their own account using ASBA, they should have a separate account in their own name with any other SEBI registered SCSBs. Further, such account shall be used solely for the purpose of making application in public issues and clear demarcated funds should be available in such account for such Bids.

BIDS BY INSURANCE COMPANIES

In case of Bids made by insurance companies registered with the IRDA, a certified copy of certificate of registration issued by IRDAI must be attached to the Bid cum Application Form. Failing this, our Company, in consultation with the Book Running Lead Manager, reserves the right to reject any Bid without assigning any reason thereof. The exposure norms for insurers are prescribed under Regulation 9 of the Insurance Regulatory and Development Authority of India (Investment) Regulations, 2016 ("**IRDAI Investment Regulations**"), and are based on investments in the equity shares of a company, the entire group of the investee company and the industry sector in which the investee company operates. Bidders are advised to refer to the IRDAI Investment Regulations 2016, as amended, which are broadly set forth below:

- (a) equity shares of a company: the lower of 10%* of the outstanding equity shares (face value) or 10% of the respective fund in case of life insurer or 10% of investment assets in case of general insurer or reinsurer;
- (b) the entire group of the investee company: not more than 15% of the respective fund in case of a life insurer or 15% of investment assets in case of a general insurer or reinsurer or 15% of the investment assets in all companies belonging to the group, whichever is lower; and
- (c) the industry sector in which the investee company operates: not more than 15% of the fund of a life insurer or a general insurer or a reinsurer or 15% of the investment asset, whichever is lower.

The maximum exposure limit, in the case of an investment in equity shares, cannot exceed the lower of an amount of 10% of the investment assets of a life insurer or general insurer and the amount

calculated under (a), (b) and (c) above, as the case may be.

*The above limit of 10% shall stand substituted as 15% of outstanding equity shares (face value) for insurance companies with investment assets of Rs. 2,50,00,000 Lakhs or more and 12% of outstanding equity shares (face value) for insurers with investment assets of Rs. 50,00,000 Lakhs or more but less than Rs. 2,50,00,000 Lakhs.

Insurance companies participating in this Issue shall comply with all applicable regulations, guidelines and circulars issued by IRDAI, from time to time, including the IRDAI Investment Regulations for specific investment limits applicable to them.

BIDS BY NBFC-SI

In case of Bids made by NBFC-SI, a certified copy of the certificate of registration issued by RBI, a certified copy of its last audited financial statements on a standalone basis and a net worth certificate from its statutory auditor(s), must be attached to the Bid cum Application Form. Failing this, our Company, in consultation with the Book Running Lead Manager, reserves the right to reject any Bid, without assigning any reason thereof. NBFC-SI participating in the Issue shall comply with all applicable regulations, guidelines and circulars issued by RBI from time to time.

The investment limit for Systemically Important NBFCs shall be as prescribed by RBI from time to time. In accordance with existing regulations issued by RBI, OCBs cannot participate in this Issue.

BIDS UNDER POWER OF ATTORNEY

In case of Bids made pursuant to a power of attorney by limited companies, corporate bodies, registered societies, eligible FPIs, AIFs, Mutual Funds, insurance companies, NBFC-SI, insurance funds set up by the army, navy or air force of the India, insurance funds set up by the Department of Posts, India or the National Investment Fund and provident funds with a minimum corpus of Rs. 250 million (subject to applicable laws) and pension funds with a minimum corpus of Rs. 250 million, a certified copy of the power of attorney or the relevant resolution or authority, as the case may be, along with a certified copy of the memorandum of association and articles of association and/or bye laws must be lodged along with the Bid cum Application Form. Failing this, our Company, in consultation with the Book Running Lead Manager, reserves the right to accept or reject any Bid in whole or in part, in either case, without assigning any reason thereof.

Our Company, in consultation with the Book Running Lead Manager, in their absolute discretion, reserve the right to relax the above condition of simultaneous lodging of the power of attorney along with the Bid cum Application Form, subject to such terms and conditions that our Company, in consultation with the Book Running Lead Manager, may deem fit.

BIDS BY ANCHOR INVESTORS

Our Company in consultation with the BRLM, may consider participation by Anchor Investors in the Issue for up to 60% of the QIB Portion in accordance with the SEBI Regulations. Only QIBs as defined in Regulation 2(1)(ss) of the SEBI Regulations and not otherwise excluded pursuant to Schedule XIII of the SEBI Regulations are eligible to invest. The QIB Portion will be reduced in proportion to allocation under the Anchor Investor Portion. In the event of undersubscription in the Anchor Investor Portion, the balance Equity Shares will be added to the QIB Portion. In accordance with the SEBI Regulations, the key terms for participation in the Anchor Investor Portion are provided below.

1. Anchor Investor Bid cum Application Forms will be made available for the Anchor Investors at the offices of the BRLM.
2. The Bid must be for a minimum of such number of Equity Shares so that the Bid Amount is at least

200lakhs. A Bid cannot be submitted for over 60% of the QIB Portion. In case of a Mutual Fund, separate Bids by individual schemes of a Mutual Fund will be aggregated to determine the minimum application size of 200 lakhs

3. One-third of the Anchor Investor Portion will be reserved for allocation to domestic Mutual Funds.
4. Bidding for Anchor Investors will open one Working Day before the Bid/ Issue Opening Date and be completed on the same day.
5. Our Company in consultation with the BRLM, will finalize allocation to the Anchor Investors on a discretionary basis, provided that the minimum and maximum number of Allottees in the Anchor Investor Portion will be, as mentioned below:
 - where allocation in the Anchor Investor Portion is up to 200 Lakhs, maximum of 2 (two) Anchor Investors.
 - where the allocation under the Anchor Investor Portion is more than 200 Lakhs but up to 2500 Lakhs, minimum of 2 (two) and maximum of 15 (fifteen) Anchor Investors, subject to a minimum Allotment of 100 Lakhs per Anchor Investor; and
 - where the allocation under the Anchor Investor portion is more than 2500 Lakhs: (i) minimum of 5 (five) and maximum of 15 (fifteen) Anchor Investors for allocation upto 2500 Lakhs; and (ii) an additional 10 Anchor Investors for every additional allocation of 2500 Lakhs or part thereof in the Anchor Investor Portion; subject to a minimum Allotment of 100 Lakhs per Anchor Investor.

BIDS BY PROVIDENT FUNDS/PENSION FUNDS

In case of Bids made by provident funds/pension funds, subject to applicable laws, with minimum corpus of Rs. 2,500 Lakhs, a certified copy of certificate from a chartered accountant certifying the corpus of the provident fund/pension fund must be attached to the Bid cum Application Form. Failing this, our Company, in consultation with the Book Running Lead Manager, reserves the right to reject any Bid, without assigning any reason therefor.

The above information is given for the benefit of the Bidders. Our Company and the Book Running Lead Manager are not liable for any amendments or modification or changes in applicable laws or regulations, which may occur after the date of this Red Herring Prospectus. Bidders are advised to make their independent investigations and ensure that any single Bid from them does not exceed the applicable investment limits or maximum number of the Equity Shares that can be held by them under applicable laws or regulation and as specified in the Red Herring Prospectus. Information for Bidders.

The relevant Designated Intermediary will enter a maximum of three Bids at different price levels opted in the Bid cum Application Form and such options are not considered as multiple Bids. It is the Bidder's responsibility to obtain the acknowledgment slip from the relevant Designated Intermediary. The registration of the Bid by the Designated Intermediary does not guarantee that the Equity Shares shall be allocated/Allotted. Such acknowledgement slip will be non-negotiable and by itself will not create any obligation of any kind. When a Bidder revises his or her Bid, he /she shall surrender the earlier acknowledgement slip and may request for a revised acknowledgment slip from the relevant Designated Intermediary as proof of his or her having revised the previous Bid.

In relation to electronic registration of Bids, the permission given by the Stock Exchanges to use their network and software of the electronic bidding system should not in any way be deemed or construed to mean that the compliance with various statutory and other requirements by our Company and/or the Book Running Lead Manager are cleared or approved by the Stock Exchanges, nor does it in any manner warrant, certify or endorse the correctness or completeness of compliance with the statutory and other requirements, nor does it take any responsibility for the financial or other soundness of our Company, the management or any scheme or project of our Company, nor does it in any manner warrant, certify or endorse the correctness or completeness of any of the contents of this Red Herring Prospectus, nor does it warrant that the Equity Shares will be listed or will continue to be listed on the

Stock Exchanges.

ALLOTMENT PROCEDURE AND BASIS OF ALLOTMENT

The allotment of Equity Shares to Bidders other than Individual Investors who applies for minimum application size may be on proportionate basis. No Individual Investors who applies for minimum application size will be allotted less than the minimum Bid Lot subject to availability of shares in Individual Investors who applies for minimum application size Category and the remaining available shares, if any will be allotted on a proportionate basis. The Issue was 100% underwritten.

Flow of Events from the closure of Bidding period (T DAY) Till Allotment:

- On T Day, RTA to validate the electronic bid details with the depository records and also reconcile the final certificates received from the Sponsor Bank for UPI process and the SCSBs for ASBA and Syndicate ASBA process with the electronic bid details.
- RTA identifies cases with mismatch of account number as per bid file / FC and as per applicant's bank account linked to depository demat account and seek clarification from SCSB to identify the applications with third party account for rejection.
- Third party confirmation of applications to be completed by SCSBs on T+1 day.
- RTA prepares the list of final rejections and circulate the rejections list with BRLM(s)/ Company for their review/ comments.
- Post rejection, the RTA submits the basis of allotment with the Designated Stock Exchange (DSE).
- The DSE, post verification approves the basis and generates drawal of lots wherever applicable, through a random number generation software.
- The RTA uploads the drawal numbers in their system and generates the final list of allottees as per process mentioned below:

Process for generating list of Allottees

- Instruction is given by RTA in their Software System to reverse category wise all the application numbers in the ascending order and generate the bucket /batch as per the allotment ratio. For example, if the application number is 78654321 then system reverses it to 12345687 and if the ratio of allottees to applicants in a category is 2:7 then the system will create lots of 7. If the drawal of lots provided by Designated Stock Exchange (DSE) is 3 and 5 then the system will pick every 3rd and 5th application in each of the lot of the category and these applications will be allotted the shares in that category.
- In categories where there is proportionate allotment, the Registrar will prepare the proportionate working based on the oversubscription times.
- In categories where there is undersubscription, the Registrar will do full allotment for all valid applications. On the basis of the above, the RTA will work out the allottees, partial allottees and non- allottees, prepare the fund transfer letters and advice the SCSBs to debit or unblock the respective accounts.

GENERAL INSTRUCTIONS

Please note that QIBs and Non-Institutional Investors are not permitted to withdraw their Bid(s) or lower the size of their Bid(s) (in terms of quantity of Equity Shares or the Bid Amount) at any stage. Individual Investors can revise their Bid(s) during the Bid/Issue Period and withdraw their Bid(s) until Bid/Issue Closing Date. Anchor Investors are not allowed to withdraw or lower the size of their Bids after the Anchor Investor Bidding Date.

Do's:

1. Check if you are eligible to apply as per the terms of the Red Herring Prospectus and under applicable law, rules, regulations, guidelines and approvals;

2. Ensure that you have Bid within the Price Band;
3. Ensure that you (other than the Anchor Investors) have mentioned the correct ASBA Account number (for all Bidders other than UPI Bidders Bidding using the UPI Mechanism) in the Bid cum Application Form and such ASBA account belongs to you and no one else. Further, UPI Bidders using the UPI Mechanism must also mention their UPI ID and shall use only their own bank account which is linked to their UPI ID;
4. UPI Bidders Bidding using the UPI Mechanism shall ensure that the bank, with which they have their bank account, where the funds equivalent to the application amount are available for blocking is UPI 2.0 certified by NPCI before submitting the ASBA Form to any of the Designated Intermediaries;
5. UPI Bidders Bidding using the UPI Mechanism through the SCSBs and mobile applications shall ensure that the name of the bank appears in the list of SCSBs which are live on UPI, as displayed on SEBI website. UPI bidders shall ensure that the name of the app and the UPI handle which is used for making the application appears on the list displayed on SEBI website. An application made using incorrect UPI handle or using a bank account of an SCSB or bank which is not mentioned on SEBI website is liable to be rejected;
6. Read all the instructions carefully and complete the Bid cum Application Form in the prescribed form;
7. Ensure that the details about the PAN, DP ID, Client ID and UPI ID (where applicable) are correct and the Bidders depository account is active, as Allotment of the Equity Shares will be in dematerialised form only;
8. Ensure that your Bid cum Application Form bearing the stamp of a Designated Intermediary is submitted to the Designated Intermediary at the Bidding Centre within the prescribed time. UPI Bidders using UPI Mechanism, may submit their ASBA Forms with Syndicate Members, Registered Brokers, CRTAs or CDPs and should ensure that the Bid cum Application Form contains the stamp of such Designated Intermediary;
9. In case of joint Bids, ensure that First Bidder is the ASBA Account holder (or the UPI-linked bank account holder, as the case may be) and the signature of the First Bidder is included in the Bid cum Application Form;
10. If the First Bidder is not the ASBA Account holder (or the UPI-linked bank account holder, as the case may be), ensure that the Bid cum Application Form is signed by the ASBA Account holder (or the UPI linked bank account holder, as the case may be). Bidders (except UPI Bidders Bidding using the UPI Mechanism) should ensure that they have an account with an SCSB and have mentioned the correct bank account number of that SCSB in the Bid cum Application Form. UPI Bidders Bidding using the UPI Mechanism should ensure that they have mentioned the correct UPI-linked bank account number and their correct UPI ID in the Bid cum Application Form;
11. All Bidders (other than Anchor Investors) should submit their Bids through the ASBA process only;
12. Ensure that the name(s) given in the Bid cum Application Form is/are exactly the same as the name(s) in which the beneficiary account is held with the Depository Participant. In case of joint Bids, the Bid cum Application Form should contain only the name of the First Bidder whose name should also appear as the first holder of the beneficiary account held in joint names;
13. Ensure that you request for and receive a stamped acknowledgment in the form of a counterfoil or by specifying the application number for all your Bid options as proof of registration of the Bid cum Application Form from the concerned Designated Intermediary;
14. Ensure that you have funds equal to the Bid Amount in the ASBA Account maintained with the SCSB before submitting the Bid cum Application Form under the ASBA process to any of the Designated Intermediaries;
15. Submit revised Bids to the same Designated Intermediary, through whom the original Bid is placed and obtain a revised acknowledgment;
16. Except for Bids (i) on behalf of the Central or State Governments and the officials appointed by the courts, who, in terms of a SEBI circular dated June 30, 2008, may be exempt from specifying their PAN for transacting in the securities market, (ii) Bids by persons resident in the state of Sikkim, who, in terms of a SEBI circular dated July 20, 2006, may be exempted from specifying their PAN for

- transacting in the securities market, and (iii) any other category of Bidders, including without limitation, multilateral/bilateral institutions, which may be exempted from specifying their PAN for transacting in the securities market, all Bidders should mention their PAN allotted under the IT Act. The exemption for the Central or the State Government and officials appointed by the courts and for investors residing in the State of Sikkim is subject to (a) the Demographic Details received from the respective depositories confirming the exemption granted to the beneficiary owner by a suitable description in the PAN field and the beneficiary account remaining in “active status”; and (b) in the case of residents of Sikkim, the address as per the Demographic Details evidencing the same. All other applications in which PAN is not mentioned will be rejected;
17. Ensure that the Demographic Details are updated, true and correct in all respects;
 18. Ensure that thumb impressions and signatures other than in the languages specified in the Eighth Schedule to the Constitution of India are attested by a Magistrate or a Notary Public or a Special Executive Magistrate under official seal;
 19. Ensure that the category and the investor status is indicated in the Bid cum Application Form to ensure proper upload of your Bid in the electronic Bidding system of the Stock Exchanges;
 20. Ensure that in case of Bids under power of attorney or by limited companies, corporates, trust etc., relevant documents, including a copy of the power of attorney, are submitted;
 21. Ensure that Bids submitted by any person outside India should be in compliance with applicable foreign and Indian laws;
 22. Bidders (except UPI Bidders Bidding using the UPI Mechanism) should instruct their respective banks to release the funds blocked in the ASBA Account under the ASBA process. UPI Bidders Bidding using the UPI Mechanism, should ensure that they approve the UPI Mandate Request generated by the Sponsor Bank to authorise blocking of funds equivalent to application amount and subsequent debit of funds in case of Allotment, in a timely manner;
 23. Note that in case the DP ID, Client ID and the PAN mentioned in their Bid cum Application Form and entered into the online IPO system of the Stock Exchanges by the relevant Designated Intermediary, as the case may be, do not match with the DP ID, Client ID and PAN available in the Depository database, then such Bids are liable to be rejected;
 24. Ensure that while Bidding through a Designated Intermediary, the Bid cum Application Form (other than for Anchor Investors and Individual Investors) is submitted to a Designated Intermediary in a Bidding Centre and that the SCSB where the ASBA Account, as specified in the ASBA Form, is maintained has named at least one branch at that location for the Designated Intermediary to deposit ASBA Forms (a list of such branches is available on the website of SEBI at www.sebi.gov.in);
 25. Ensure that you have correctly signed the authorisation/undertaking box in the Bid cum Application Form, or have otherwise provided an authorisation to the SCSB via the electronic mode, for blocking funds in the ASBA Account equivalent to the Bid Amount mentioned in the Bid cum Application Form at the time of submission of the Bid;
 26. UPI Bidders Bidding using the UPI Mechanism shall ensure that details of the Bid are reviewed and verified by opening the attachment in the UPI Mandate Request and then proceed to authorise the UPI Mandate Request using their UPI PIN. Upon the authorisation of the mandate using their UPI PIN, the UPI Bidder may be deemed to have verified the attachment containing the application details of the UPI Bidder Bidding using the UPI Mechanism in the UPI Mandate Request and have agreed to block the entire Bid Amount and authorised the Sponsor Bank to issue a request to block the Bid Amount mentioned in the Bid Cum Application Form in their ASBA Account;
 27. UPI Bidders Bidding using the UPI Mechanism should mention valid UPI ID of only the Bidder (in case of single account) and of the First Bidder (in case of joint account) in the Bid cum Application Form;
 28. UPI Bidders Bidding using the UPI Mechanism, who have revised their Bids subsequent to making the initial Bid, should also approve the revised UPI Mandate Request generated by the Sponsor Bank to authorise blocking of funds equivalent to the revised Bid Amount in their account and subsequent debit of funds in case of allotment in a timely manner;
 29. Bids by Eligible NRIs, HUFs and FPIs other than individuals, corporate bodies, and family offices, for a Bid Amount of up to 2 lots subject to the minimum application size shall be above Rs. 200,000

would be considered under the Individual Investor Category for the purposes of allocation and Bids for more than two lots would be considered under the Non- Institutional Category for allocation in the Issue.

30. Ensure that Anchor Investors submit their Bid cum Application Forms only to the Book Running Lead Manager;
31. Ensure that you have accepted the UPI Mandate Request received from the Sponsor Bank prior to 05:00 p.m. of the Bid/ Issue Closing Date; and
32. FPIs making MIM Bids using the same PAN, and different beneficiary account numbers, Client IDs and DP IDs, are required to submit a confirmation that their Bids are under the MIM structure and indicate the name of their investment managers in such confirmation which shall be submitted along with each of their Bid cum Application Forms. In the absence of such confirmation from the relevant FPIs, such MIM Bids shall be rejected.

NAMES OF ENTITIES RESPONSIBLE FOR FINALISING THE BASIS OF ALLOTMENT IN A FAIR AND PROPER MANNER

The authorised employees of the Stock Exchanges, along with the Book Running Lead Manager and

the Registrar to the Issue, shall ensure that the Basis of Allotment is finalised in a fair and proper manner in accordance with the procedure specified in the SEBI ICDR Regulations.

METHOD OF ALLOTMENT AS MAY BE PRESCRIBED BY SEBI FROM TIME TO TIME

Our Company will not make any Allotment in excess of the Equity Shares Issued through the Issue except in case of oversubscription for the purpose of rounding off to make Allotment, in consultation with the Designated Stock Exchange. Further, upon oversubscription, an Allotment of not more than 10% of the Net Issue may be made for the purpose of making Allotment in minimum Bid Lots.

The Allotment of Equity Shares to applicants other than to the Individual Investors, Non-Institutional Investors and Anchor Investors shall be on a proportionate basis within the respective investor categories and the number of securities allotted shall be rounded off to the nearest integer, subject to minimum Allotment being equal to the minimum application size as, determined and disclosed.

The Allotment of Equity Shares to each Individual Investor and Non-Institutional Investor shall not be less than the minimum Bid Lot, subject to the availability of Equity Shares in the Individual Investor category and the Non-Institutional Category, respectively, and the remaining available Equity Shares, if any, shall be Allotted on a proportionate basis.

PAYMENT INTO ESCROW ACCOUNT FOR ANCHOR INVESTORS

Our Company, in consultation with the Book Running Lead Managers in their absolute discretion, will decide the list of Anchor Investors to whom the CAN will be sent, pursuant to which the details of the Equity Shares allocated to them in their respective names will be notified to such Anchor Investors. Anchor Investors are not permitted to Bid in the Issue through the ASBA process. Instead, Anchor Investors should transfer the Bid Amount (through direct credit, RTGS or NEFT). The payment instruments for payment into the Escrow Account should be drawn in favour of:

- (i) In case of resident Anchor Investors: ***"CURRENT INFRAPROJECTS LIMITED - ANCHOR R ACCOUNT"***
- (ii) In case of non-resident Anchor Investors: ***"CURRENT INFRAPROJECTS LIMITED - ANCHOR NR ACCOUNT"***

Anchor Investors should note that the escrow mechanism is not prescribed by SEBI and has been established as an arrangement between our Company, the Syndicate, the Bankers to the Issue and the Registrar to the Issue to facilitate collections from Anchor Investors.

ISSUANCE OF CONFIRMATION NOTE ("CAN") AND ALLOTMENT IN THE ISSUE

- a. Upon approval of the Basis of Allotment by the Designated Stock Exchange. The BRLM or Registrar to the Issue shall send to the SCSBs or Sponsor Bank a list of their Bidders who have been allocated Equity Shares in the Issue.
- b. On the basis of approved Basis of Allotment, the Issuer shall pass necessary corporate action to facilitate the allotment and credit of equity shares. Bidders are advised to instruct their Depository Participants to accept the Equity Shares that may be allotted to them pursuant to the Issue.
- c. The Registrar to the Issue will dispatch an Allotment Advice (CAN) to their Bidders who have been allocated Equity Shares in the Issue. The dispatch of Allotment Advice (CAN) shall be deemed a valid, binding and irrevocable contract for the Allotment to such Bidder.
- d. Issuer will make the allotment of the Equity Shares and initiate corporate action for credit of shares to the successful Bidders Depository Account within 2 working days of the Issue Closing date. The

Issuer also ensures the credit of shares to the successful Bidders Depository Account is completed within one working Day from the date of allotment, after the funds are transferred from ASBA Public Issue Account to Public Issue account of the issuer.

TERMS OF PAYMENT

The entire Issue price of ₹ [●] per share is payable on Bid cum application. In case of allotment of lesser number of Equity Shares than the number applied, the Registrar to the Issue shall instruct the SCSBs or Sponsor Bank to unblock the excess amount blocked.

SCSBs or Sponsor Bank will transfer the amount as per the instruction received by the Registrar to the Public Issue Bank Account, post finalization of basis of Allotment. The balance amount after transfer to the Public Issue Account shall be unblocked by the SCSBs or Sponsor Bank.

The Bidders should note that the arrangement with Bankers to the Issue or the Registrar or Sponsor Bank is not prescribed by SEBI and has been established as an arrangement between our Company, Sponsor Bank, and Bankers to the Issue, the BRLM and the Registrar to the Issue to facilitate collections from the Bidders.

PRICE DISCOVERY AND ALLOCATION

- a) Based on the demand generated at various price levels, our Company in consultation with the BRLM shall finalize the Issue Price.
- b) The SEBI ICDR Regulations, 2018 specify the allocation or Allotment that may be made to various categories of Bidders in an Issue depending on compliance with the eligibility conditions. Certain details pertaining to the percentage of Issue size available for allocation to each category is disclosed overleaf of the Bid cum Application Form and in the RHP. For details in relation to allocation, the Bidder may refer to the Red Herring Prospectus.
- c) Under-subscription in any category (except QIB Category) is allowed to be met with spill over from any other category or combination of categories at the discretion of the Issuer in consultation with the BRLM and the Designated Stock Exchange and in accordance with the SEBI ICDR Regulations. Unsubscribed portion in QIB Category is not available for subscription to other categories.
- d) In case of under subscription in the Issue, spill-over to the extent of such under-subscription may be permitted from the Reserved Portion to the Issue. For allocation in the event of an under-subscription applicable to the Issuer, Bidders may refer to the Red Herring Prospectus.
- e) Allocation to Anchor Investors, if applicable shall be at the discretion of our Company and in consultation with the BRLM, subject to compliance with the SEBI Regulations.

Illustration of the Book Building and Price Discovery Process

Bidders should note that this example is solely for illustrative purposes and is not specific to the Issue.

Bidders can bid at any price within the Price Band. For instance, assume a Price Band of Rs. 20/- to Rs. 24/- per share, Issue size of 3,000 Equity Shares and receipt of five Bid from Bidders, details of which are shown in the table below. The illustrative book given below shows the demand for the Equity Shares of the Issuer at various prices and is collated from Bids received from various investors.

Applied Quantity	Bid Amount (Rs.)	Cumulative Quantity	Subscription
500	24	500	16.67%
1,000	23	1,500	50.00%
1,500	22	3,000	100.00%
2,000	21	5,000	166.67%
2,500	20	7,500	250.00%

Price discovery is a function of demand at various prices. The highest price at which the Issuer is able to Issue the desired number of Equity Shares is the price at which the book cuts off, i.e., Rs. 22.00 in the above example. The Issuer in consultation with the BRLM, may finalize the Issue Price at or below such Cut-Off Price, i.e., at or below Rs. 22.00. All Bids at or above this Issue Price and cut-off Bids are valid Bids and are considered for allocation in the respective categories.

RESTRICTIONS ON FOREIGN OWNERSHIP OF INDIAN SECURITIES

Foreign investment in Indian securities is regulated through the Industrial Policy, 1991, the FDI Policy, FEMA and the rules and regulations made thereunder. While the Industrial Policy, 1991 prescribes the limits and the conditions subject to which foreign investment can be made in different sectors of the Indian economy, FEMA regulates the precise manner in which such investment may be made. Under the Industrial Policy, 1991, unless specifically restricted, foreign investment is freely permitted in all sectors of Indian economy up to any extent and without any prior approvals, but the foreign investor is required to follow certain prescribed procedures for making such investment. The government bodies responsible for granting foreign investment approvals are the RBI and the Department for Promotion of Industry and Internal Trade, Ministry of Commerce and Industry, Government of India (“DPIIT”).

The Government has from time to time made policy pronouncements on FDI through press notes and press releases. The DPIIT has issued a consolidated FDI Policy, which with effect from October 15, 2020, consolidates and supersedes all previous press notes, press releases and clarifications on FDI issued by the DPIIT that were in force and effect as on October 15, 2020. The Government has also enacted Foreign Exchange Management (Non-debt Instruments) Rules, 2019 and Foreign Exchange Management (Debt Instruments) Regulations, 2019 in supersession of Foreign Exchange Management (Transfer or Issue of Security by a Person Resident Outside India) Regulations, 2017 and the Foreign Exchange Management (Acquisition and Transfer of Immovable Property in India) Regulations, 2018. Consequent to the Foreign Exchange Management (Non-Debt Instrument) Rules, 2019, the Reserve Bank has issued Foreign Exchange Management (Mode of Payment and Reporting of Non-Debt Instrument) Regulation, 2019 which governs the mode of payment and reporting requirements for investment in India by a person resident outside India.

As per the FDI Policy, FDI in such sector in which our Company operates, is permitted up to 100% of the paid-up share capital of such company under the automatic route. In case of investment in sectors through Government Route, approval from competent authority as mentioned in Chapter 4 of the FDI Policy 2020 has to be obtained by the Company.

As per the existing policy of the Government of India, OCBs cannot participate in this Issue and in accordance with the extant FDI guidelines on sectoral caps, pricing guidelines etc. as amended by Reserve bank of India, from time to time. For further details, see the chapter titled “*Issue Procedure*” beginning on page 349.

Investment by Foreign Portfolio Investors

Foreign Portfolio Investors (“FPIs”) are permitted to subscribe to the Equity Shares of an Indian Company in a public issue without the prior approval of the RBI, so long as the price of the Equity Shares to be issued is not less than the price at which the Equity Shares are issued to residents. SEBI registered FPIs have been permitted to purchase shares of an Indian company through issue, subject to total FPI investment being within the individual FPI investment limit of below 10% of the total paid-up equity capital of the Indian Company on a fully diluted basis, or less than 10% of the paid-up value of each series of debentures or preference shares or share warrants issued by an Indian company and the total holdings of all FPIs put together, including any other direct and indirect foreign investments in the Indian company by the FPIs permitted under Foreign Exchange Management (Non-debt Instruments) Rules, 2019, shall not exceed 24% of the paid-up equity capital of the Indian company on a fully diluted basis. However, this aggregate limit of 24% may be increased up to sectoral cap/statutory ceiling, as applicable, by the Indian company concerned by passing a resolution by its Board of Directors followed by passing of a special resolution to that effect by its general body.

With effect from April 01, 2020, the aggregate limit shall be the sectoral caps applicable to the Indian company as laid out in sub-paragraph (b) of paragraph 3 of Schedule I of the Foreign Exchange

Management (Non-debt Instruments) Rules, 2019, with respect to its paid-up equity capital on a fully diluted basis or such same sectoral cap percentage of paid-up value of each series of debentures or preference shares or share warrants. The aggregate limit as provided above may be decreased by the Indian company concerned to a lower threshold limit of 24% or 49% or 74% as deemed fit, with the approval of its Board of Directors and its General Body through a resolution and a special resolution, respectively before March 31, 2020. The Indian company which has decreased its aggregate limit to 24% or 49% or 74%, may increase such aggregate limit to 49% or 74% or the sectoral cap or statutory ceiling respectively as deemed fit, with the approval of its Board of Directors and its General Body through a resolution and a special resolution, respectively; however, once the aggregate limit has been increased to a higher threshold, the Indian company cannot reduce the same to a lower threshold.

Subscription by Non-Resident Indians or Overseas Citizen of India on Repatriation Basis

As per Schedule III of the Foreign Exchange Management (Non-debt Instruments) Rules, 2019, a NRI or OCI may purchase or sell shares of a listed Indian company on repatriation basis, on a recognised stock exchange in India, subject to the conditions that Non-Resident Indians (“NRIs”) or Overseas Citizen of India (“OCIs”) may purchase and sell shares through a branch designated by an authorised dealer for the purpose; and the total holding by any individual NRI or OCI shall not exceed 5% of the total paid-up equity capital on a fully diluted basis or should not exceed 5% of the paid-up value of each series of debentures or preference shares or share warrants issued by an Indian company and the total holdings of all NRIs and OCIs put together shall not exceed 10% of the total paid-up equity capital on a fully diluted basis or shall not exceed 10% of the paid-up value of each series of debentures or preference shares or share warrants. The aggregate ceiling of 10% may be raised to 24% if a special resolution to that effect is passed by the general body of the Indian company.

Investment by NRI or OCI on Non-Repatriation Basis

As per Schedule IV of the Foreign Exchange Management (Non-debt Instruments) Rules, 2019, purchase by an NRI/ OCI, including a company, a trust and a partnership firm incorporated outside India and owned and controlled by NRIs/OCIs, on non-repatriation basis of shares and convertible debentures or warrants issued by a company without any limit either on the stock exchange or outside, it will be deemed to be domestic investment at par with the investment made by residents. This is further subject to remittance channel restrictions. However, NRI/ OCI, including a company, a trust and a partnership firm incorporated outside India and owned and controlled by NRIs/OCIs, is prohibited from making any investment, under Schedule IV, in capital instruments or units of a Nidhi company or a company engaged in agricultural/ plantation activities or real estate business or construction of farmhouses or dealing in transfer of development rights.

Investment by other Non-Resident Investors

As per Schedule I of the Foreign Exchange Management (Non-debt Instruments) Rules, 2019, a person resident outside India may purchase capital instruments of a listed Indian company on a stock exchange in India provided the person resident outside India making the investment has already acquired control of such company in accordance with SEBI (Substantial Acquisition of Shares and Takeover) Regulations, 2011 and continues to hold such control and the amount of consideration may be paid as per the mode of payment as prescribed by RBI i.e. Regulation 3 of Foreign Exchange Management (Mode of Payment and Reporting of Non-Debt Instrument) Regulation 2019 under or out of the dividend payable by Indian investee company in which the person resident outside India has acquired and continues to hold the control in accordance with SEBI (Substantial Acquisition of Shares and Takeover) Regulations, 2011 provided the right to receive dividend is established and the dividend amount has been credited to a specially designated non-interest bearing rupee account for acquisition of shares on the recognized stock exchange.

Investors are advised to refer to the exact text of the relevant statutory provisions of law before investing and / or subsequent purchase or sale transaction in the Equity Shares of Our Company.

No person shall make an application in the Issue, unless such person is eligible to acquire Equity Shares of our Company in accordance with applicable laws, rules, regulations, guidelines, and approvals.

The Equity Shares to be issued in the Issue have not been and will not be registered under the U.S. Securities Act and may not be issued within U.S., except pursuant to an exemption from, or in a transaction not subject to, the registration requirements of the U.S. Securities Act and other applicable U.S. state securities laws. Accordingly, the Equity Shares are being issued (i) within U.S. to persons reasonably believed to be “qualified institutional buyers” (as defined in Section 230.144A of Part 230, Chapter II, Title 17 of the Code of Federal Regulations) in transactions exempt from, or not subject to, the registration requirements of the U.S. Securities Act, and (ii) outside U.S. in offshore transactions in reliance on Regulation S, under the U.S. Securities Act and the applicable laws of the jurisdictions where such issues occur.

The above information is given for the benefit of the Applicants. Our Company and the BRLM are not liable for any amendments or modification or changes in applicable laws or regulations, which may occur after the date of this Red Herring Prospectus. Applicants are advised to make their independent investigations and ensure that the Applications are not in violation of laws or regulations applicable to them.

Investment by Non-Resident Entities in India under FDI Policy 2020:

The FDI Policy 2020 provides that a non-resident entity can invest in India, subject to the FDI Policy except in those sectors/activities which are prohibited. However, an entity of a country, which shares a land border with India or where the beneficial owner of an investment into India is situated in or is a citizen of any such country, can invest only under the Government route. Further, a citizen of Pakistan or an entity incorporated in Pakistan can invest, only under the Government route, in sectors/activities other than defence, space, atomic energy and sectors/activities prohibited for foreign investment. In the event of the transfer of ownership of any existing or future FDI in an entity in India, directly or indirectly, resulting in the beneficial ownership falling within the restriction/purview as mentioned herein, such subsequent change in beneficial ownership will also require Government approval. The same is in line with the Press Note No. 3 (2020 Series) dated April 17, 2020 as issued by the Department for Promotion of Industry and Internal Trade, Ministry of Commerce & Industry, Government of India and Foreign Exchange Management (Non-debt instrument) Amendment Rules, 2020 notified by Central Government through notification dated April 22, 2020 in order to curb opportunistic takeover/acquisition of Indian Companies due to COVID-19 pandemic conditions.

31.	The Company shall not be bound to register more than three persons as the joint holders of any share.	Maximum number of joint holders
32.	Except as ordered by a Court of competent jurisdiction or as by law required, the Company shall not be bound to recognise any equitable, contingent, future or partial interest in any share, or (except only as is by these Articles otherwise expressly provided) any right in respect of a share other than an absolute right thereto, in accordance with these Articles, in the person from time to time registered as the holder thereof but the Board shall be at liberty at its sole discretion to register any share in the joint names of any two or more persons or the survivor or survivors of them.	Company not bound to recognise any interest in share other than that of registered holders
33.	If by the conditions of allotment of any share the whole or part of the amount or issue price thereof shall be payable by instalment, every such instalment shall when due be paid to the Company by the person who for the time being and from time to time shall be the registered holder of the share or his legal representative.	Instalment on shares to be duly paid
34.	Notwithstanding anything contained in these Articles, the Directors of the Company may in their absolute discretion refuse sub-division of share certificates or debenture certificates into denominations of less than the marketable lots except where such sub-division is required to be made to comply with a statutory provision or an order of a competent court of law.	Right of Directors to refuse sub-division
35.	Notwithstanding anything contained herein, certificate, if required, for a dematerialised share, debenture and other security shall be issued in the name of the Depository, however, the Person who is the Beneficial Owner of such shares, debentures and other securities shall be entitled to all the rights as set out in these Articles	Issue of certificates, if required, in the case of dematerialized shares / debentures / other securities
	UNDERWRITING AND BROKERAGE

	CALLS	
38.	(a) The Board may, from time to time, subject to the terms on which any shares may have been issued and subject to the conditions of allotment, by a resolution passed at a meeting of the Board and not by a circular resolution, make such calls as it thinks fit, upon the Members in respect of all the moneys unpaid on the shares held by them respectively and each Member shall pay the amount of every call so made on him to the persons and at the time and places appointed by the Board. (b) A call may be revoked or postponed at the discretion of the Board. (c) A call may be made payable by instalments.	Directors may make calls
39.	Fifteen days' notice in writing of any call shall be given by the Company specifying the time and place of payment, and the person or persons to whom such call shall be paid.	Notice of Calls
40.	A call shall be deemed to have been made at the time when the resolution of the Board of Directors authorising such call was passed and may be made payable by the members whose names appear on the Register of Members on such date or at the discretion of the Directors on such subsequent date as may be fixed by Directors.	Calls to date from resolution
41.	Whenever any calls for further share capital are made on shares, such calls shall be made on a uniform basis on all shares falling under the same class. For the purposes of this Article shares of the same nominal value of which different amounts have been paid up shall not be deemed to fall under the same class.	Calls on uniform basis
42.	The Board may, from time to time, at its discretion, extend the time fixed for the payment of any call and may extend such time as to all or any of the members who on account of the residence at a distance or other cause, which the Board may deem fairly entitled to such extension, but no member shall be entitled to such extension save as a matter of grace and favour.	Directors may extend time
43.	If any Member fails to pay any call due from him on the day appointed for payment thereof, or any such extension thereof as aforesaid, he shall be liable to pay interest on the same from the day appointed for the payment thereof to the time of actual payment at such rate as shall from time to time be fixed by the Board not exceeding 10% per annum but nothing in this Article shall render it obligatory for the Board to demand or recover any interest from any such member.	Calls to carry interest
44.	If by the terms of issue of any share or otherwise any amount is made payable at any fixed time or by instalments at fixed time (whether on account of the amount of the share or by way of premium) every such amount or instalment shall be payable as if it were a call duly made by the Directors and of which due notice has been given and all the provisions herein contained in respect of calls shall apply to such amount or instalment accordingly.	Sums deemed to be calls
45.	On the trial or hearing of any action or suit brought by the Company against any Member or his representatives for the recovery of any money claimed to be due to the Company in respect of his shares, it shall be sufficient to prove that the name of the Member in respect of whose shares the money is sought to be recovered, appears entered on the Register of Members as the holder, at or subsequent to the date at which the money is sought to be recovered is alleged to have become due on the share in respect of which such money is sought to	Proof on trial of suit for money due on shares

	be recovered in the Minute Books: and that notice of such call was duly given to the Member or his representatives used in pursuance of these Articles: and that it shall not be necessary to prove the appointment of the Directors who made such call, nor that a quorum of Directors was present at the Board at which any call was made was duly convened or constituted nor any other matters whatsoever, but the proof of the matters aforesaid shall be conclusive evidence of the debt.	
46.	Neither a judgment nor a decree in favour of the Company for calls or other moneys due in respect of any shares nor any part payment or satisfaction thereunder nor the receipt by the Company of a portion of any money which shall from time to time be due from any Member of the Company in respect of his shares, either by way of principal or interest, nor any indulgence granted by the Company in respect of the payment of any such money, shall preclude the Company from thereafter proceeding to enforce forfeiture of such shares as hereinafter provided.	Judgment, decree, partial payment motto proceed for forfeiture
47.	(a) The Board may, if it thinks fit, receive from any Member willing to advance the same, all or any part of the amounts of his respective shares beyond the sums, actually called up and upon the moneys so paid in advance, or upon so much thereof, from time to time, and at any time thereafter as exceeds the amount of the calls then made upon and due in respect of the shares on account of which such advances are made the Board may pay or allow interest, at 12% per annum The Board may agree to repay at any time any amount so advanced or may at any time repay the same upon giving to the Member three months' notice in writing: provided that moneys paid in advance of calls on shares may carry interest but shall not confer a right to dividend or to participate in profits. (b) No Member paying any such sum in advance shall be entitled to voting rights in respect of the moneys so paid by him until the same would but for such payment become presently payable. The provisions of this Article shall mutatis mutandis apply to calls on debentures issued by the Company.	Payments in Anticipation of calls may carry interest
	LIEN	
48.	The Company shall have a first and paramount lien upon all the shares/debentures (other than fully paid-up shares/debentures) registered in the name of each member (whether solely or jointly with others) and upon the proceeds of sale thereof for all moneys (whether presently payable or not) called or payable at a fixed time in respect of such shares/debentures and no equitable interest in any share shall be created except upon the footing and condition that this Article will have full effect. And such lien shall extend to all dividends and bonuses from time to time declared in respect of such shares/debentures. Unless otherwise agreed the registration of a transfer of shares/debentures shall operate as a waiver of the Company's lien if any, on such shares/debentures. The Directors may at any time declare any shares/debentures wholly or in part to be exempt from the provisions of this clause. Every fully paid share shall be free from all lien and that in the case of partly paid shares the Issuer's lien shall be restricted to moneys called or payable at a fixed time in respect of such shares.	Company to have Lien on shares
49.	For the purpose of enforcing such lien the Directors may sell the shares subject thereto in such manner as they shall think fit, but no sale shall be made until such period as aforesaid shall have arrived and until notice in writing of the intention to sell shall have been served on such member or the person (if any) entitled by transmission to the shares	As to enforcing lien by sale

	and default shall have been made by him in payment, fulfilment of discharge of such debts, liabilities or engagements for seven days after such notice. To give effect to any such sale the Board may authorise some person to transfer the shares sold to the purchaser thereof and purchaser shall be registered as the holder of the shares comprised in any such transfer. Upon any such sale as the Certificates in respect of the shares sold shall stand cancelled and become null and void and of no effect, and the Directors shall be entitled to issue a new Certificate or Certificates in lieu thereof to the purchaser or purchasers concerned.	
50.	The net proceeds of any such sale shall be received by the Company and applied in or towards payment of such part of the amount in respect of which the lien exists as is presently payable and the residue, if any, shall (subject to lien for sums not presently payable as existed upon the shares before the sale) be paid to the person entitled to the shares at the date of the sale.	Application of proceeds of sale
	FORFEITURE AND SURRENDER OF SHARES	
51.	If any Member fails to pay the whole or any part of any call or instalment or any moneys due in respect of any shares either by way of principal or interest on or before the day appointed for the payment of the same, the Directors may, at any time thereafter, during such time as the call or instalment or any part thereof or other moneys as aforesaid remains unpaid or a judgment or decree in respect thereof remains unsatisfied in whole or in part, serve a notice on such Member or on the person (if any) entitled to the shares by transmission, requiring him to pay such call or instalment of such part thereof or other moneys as remain unpaid together with any interest that may have accrued and all reasonable expenses (legal or otherwise) that may have been accrued by the Company by reason of such non-payment. Provided that no such shares shall be forfeited if any moneys shall remain unpaid in respect of any call or instalment or any part thereof as aforesaid by reason of the delay occasioned in payment due to the necessity of complying with the provisions contained in the relevant exchange control laws or other applicable laws of India, for the time being in force.	If call or instalment not paid, notice may be given
52.	The notice shall name a day (not being less than fourteen days from the date of notice) and a place or places on and at which such call or instalment and such interest thereon as the Directors shall determine from the day on which such call or instalment ought to have been paid and expenses as aforesaid are to be paid. The notice shall also state that, in the event of the non-payment at or before the time and at the place or places appointed, the shares in respect of which the call was made or instalment is payable will be liable to be forfeited.	Terms of notice
53.	If the requirements of any such notice as aforesaid shall not be complied with, every or any share in respect of which such notice has been given, may at any time thereafter but before payment of all calls or installments, interest and expenses, due in respect thereof, be forfeited by resolution of the Board to that effect. Such forfeiture shall include all dividends declared or any other moneys payable in respect of the forfeited share and not actually paid before the forfeiture.	On default of payment, shares to be forfeited
54.	When any shares have been forfeited, notice of the forfeiture shall be given to the member in whose name it stood immediately prior to the forfeiture, and an entry of the forfeiture, with the date thereof shall forthwith be made in the Register of Members.	Notice of forfeiture to a Member

56.	Any Member whose shares have been forfeited shall notwithstanding the forfeiture, be liable to pay and shall forthwith pay to the Company, on demand all calls, instalments, interest and expenses owing upon or in respect of such shares at the time of the forfeiture, together with interest thereon from the time of the forfeiture until payment, at such rate as the Board may determine and the Board may enforce the payment of the whole or a portion thereof as if it were a new call made at the date of the forfeiture, but shall not be under any obligation to do so.	Members still liable to pay money owing at time of forfeiture and interest
57.	The forfeiture shares shall involve extinction at the time of the forfeiture, of all interest in all claims and demand against the Company, in respect of the share and all other rights incidental to the share, except only such of those rights as by these Articles are expressly saved.	Effect of forfeiture
58.	A declaration in writing that the declarant is a Director or Secretary of the Company and that shares in the Company have been duly forfeited in accordance with these articles on a date stated in the declaration, shall be conclusive evidence of the facts therein stated as against all persons claiming to be entitled to the shares.	Evidence of Forfeiture
59.	The Company may receive the consideration, if any, given for the share on any sale, re-allotment or other disposition thereof and the person to whom such share is sold, re-allotted or disposed of may be registered as the holder of the share and he shall not be bound to see to the application of the consideration: if any, nor shall his title to the share be affected by any irregularity or invalidity in the proceedings in reference to the forfeiture, sale, re-allotment or other disposal of the shares. 60.	Upon any sale, re-allotment or other disposal under the provisions of the preceding Article, the certificate or certificates originally issued in respect of the relative shares shall (unless the same shall on demand by the Company have been previously surrendered to it by the defaulting member) stand cancelled and become null and void and of no effect, and the Directors shall be entitled to issue a duplicate certificate or certificates in respect of the said shares to the person or persons entitled thereto.	Cancellation of share certificate in respect of forfeited shares
61.	In the meantime and until any share so forfeited shall be sold, re-allotted, or otherwise dealt with as aforesaid, the forfeiture thereof may, at the discretion and by a resolution of the Directors, be remitted as a matter of grace and favour, and not as was owing thereon to the Company at the time of forfeiture being declared with interest for the same unto the time of the actual payment thereof if the Directors shall think fit to receive the same, or on any other terms which the Director may deem reasonable.	Forfeiture may be remitted
62.	Upon any sale after forfeiture or for enforcing a lien in purported exercise of the powers hereinbefore given, the Board may appoint some person to execute an instrument of transfer of the Shares sold and cause the purchaser's name to be entered in the Register of Members in respect of the Shares sold, and the purchasers shall not be bound to see to the regularity of the proceedings or to the application of the purchase money, and after his name has been entered in the Register of Members in respect of such Shares, the validity of the sale shall not be impeached by any person and the remedy of any person aggrieved by the sale shall be in damages only and against the Company exclusively.
